

Inmate to Correctional Officer (CO) Ratio

The Joint Explanatory Statement accompanying the Consolidated Appropriations Act, 2024 (P.L. 118-42), states, *“The agreement adopts the directive in the Senate report on "Hiring and Staff Reports." In addition, the agreement directs the Department to coordinate with the Office of Personnel Management (OPM) to enable expedited hiring for BOP facilities with vacancy rates exceeding 10 percent and to make use of recruitment and retention bonuses. The agreement instructs BOP to describe such efforts in the report.”*

The FY 2024 Senate Report (Report 118-62) accompanying the Consolidated Appropriations Act, 2024 (P.L. 118-42), states, *“The Committee directs BOP to submit quarterly hiring and staffing reports, including correctional officer to inmate ratios from Pay Period 26–2016 to the present for the OPM position classification standard Correctional Officer Series GS–0007, broken out by region; institution, to include an additional subset for each facility within an institutional complex; and security level, no later than 90 days after enactment of this act. For further transparency, this data is also directed to be published on BOP’s website. As BOP previously notified the Committee that it does not currently record staffing by shift (i.e., morning watch, day watch, and evening watch), the Bureau shall start recording this data and include these metrics in this report by the end of the current fiscal year. For any institution with a staffing ratio greater than 15:1 and in which there has been an incident involving deadly force, BOP shall provide a separate, detailed explanation of the role staffing may or may not have played in the incident along with a corrective plan to ensure it will not happen again.”*

Report

During the third quarter of FY 2024, there were eight institutions with an inmate-to-CO ratio greater than 15:1. The institutions were FCI Aliceville, FPC Duluth, FCI Fort Dix, FPC Bryan, FCI Edgefield, FPC Montgomery, FCC Lumpoc, and FCC Forrest City.

The BOP has made the hiring of additional COs a system-wide priority, and at one of the eight institutions staffing has increased during the quarter. However, the inmate population at five of the eight institutions has also increased during the quarter. The BOP continues to strive to maintain the desired levels between inmate populations and staffing at each institution.

This report also includes data on staffing by shift. Many of the by-shift staffing ratios are higher than the institution-level ratios, due to how the different ratios are calculated and the critical need to staff more COs during peak operational times.

The overall inmate-to-CO ratio is calculated using the number of onboard COs and the number of inmates at the institution. For example, for FCI Fort Dix, there were 182 COs on-board and 4,098 inmates as of June 30, 2024, producing the 22.5:1 ratio.

A search of all Report of Incidents revealed there was no use of deadly force from April 1, 2024, to June 30, 2024.

The BOP will publish this data on its website: www.bop.gov.

*As of June 30, 2024, there were 43 Camp Inmates at FCI Estill. Only Camp inmates have returned to FCI Estill. All other inmates were relocated to other BOP facilities due to damages sustained during a tornado in April 2020.

Facilities with Inmate-to-Correctional Officer Ratio Over 15:1

The BOP is actively recruiting and hiring throughout the Bureau and undertaking staff retention efforts. On May 13, 2024, the BOP was approved for Nationwide Direct Hire Authority by the Office of Personnel Management for Correctional Officers, GL-0007-05/06/07/08. The BOP offers recruitment and relocation incentives ranging from 10 to 25 percent of salary for Correctional Officers. Since March 26, 2023, a nationwide recruitment incentive for Correctional Officers of \$10,000 or 25 percent of base salary (whichever is greater) has been offered. Further, the BOP has contracted with a consultant to market and brand the BOP to attract more candidates. In Q3 of FY 2024, nineteen local recruitment events have been attended, specifically targeting the eight institutions with a staffing ratio greater than 15:1. At FCI Aliceville, FCI Edgefield, FCI Fort Dix, FCC Forrest City, and FCC Lompoc, all staff receive a 10 percent in retention incentive.

Information on the institutions with a staffing ratio greater than 15:1 during the third quarter of FY 2024 is below.

- FCI Fort Dix - Low: Inmate population increased by 149 and Correctional Officer staffing decreased by twelve during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 20.4 to 22.5 (2.1 increase).
- FPC Bryan - Minimum: Inmate population decreased by 32 and Correctional Officer staffing decreased by 3 during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 19.8 to 20.6 (0.8 increase).
- FPC Duluth - Minimum: Inmate population increased by 137 and Correctional Officer staffing remained the same during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 18.3 to 23.2 (4.9 increase).
- FPC Montgomery - Minimum: Inmate population increased by 65 and Correctional Officer staffing decreased by 4 during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 17.9 to 21.9 (4.0 increase).
- FCI Edgefield - Medium: Inmate population decreased by 44 and Correctional Officer staffing increased by 3 during quarter three of FY 2024. This resulted in a decrease of inmate to Correctional Officer ratio from 17.9 to 17.1 (0.8 decrease).
- FCC Lompoc - Complex: Inmate population decreased by 278 and Correctional Officer staffing decreased by 6 during quarter three of FY 2024. This resulted in a decrease of inmate to Correctional Officer ratio from 18.0 to 17.0 (1.0 decrease).
- FCC Forrest City - Complex: Inmate population increased by 26 and Correctional Officer staffing decreased by 2 during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 15.7 to 16.0 (0.3 increase).
- FCI Aliceville - Low: Inmate population increased by 54 and Correctional Officer staffing decreased by 3 during quarter three of FY 2024. This resulted in an increase of inmate to Correctional Officer ratio from 14.8 to 15.8 (1.0 increase).

Inmate-to-Correctional Officer Ratio by Shift

The system-wide inmate-to-Correctional Officer ratio of 9:1 has a very different meaning in an operational context. Given daily shifts, the number of staff present in an institution varies based on the time of day and the day of the week.

The BOP has six total shifts, including three Weekday and three Weekend shifts. Morning Watch is from 12 a.m. to 8 a.m., Day Watch is from 8 a.m. to 4 p.m., and Evening Watch is from 4 p.m. to 12 a.m. The following chart lists the Correctional Officer by shift, based on the Correctional Officer Roster as of the end of the third quarter of FY 2024. Note, there is no change from the second quarter Correctional Officer Roster.
