Number of buildings: Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) The Lead Auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.	74
Number of inmate housing units: Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.	25

<i>Targeted Inmate/Resident/Detainee Interviews</i>

33. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed: <i>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.</i> <i>For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed.</i> <i>If a particular targeted population is not applicable in the audited facility, enter "0".</i>	18

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program*

FCC Allenwood Institution Supplement 5324.12E *Sexually Abusive Behavior Prevention & Intervention Program*

BOP Organizational Chart

Interviews conducted with:

PREA Coordinator

Institution PREA Compliance Manager (IPCM)

Findings (By Provision):

115.11 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states an agency shall have a written policy mandating a zero-tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct. The intent of the policy is to ensure that:

- Staff and inmates are informed that this policy implements the Bureau's "zero-tolerance" of sexually abusive behavior, and sexual harassment;
- Standard procedures are in place to detect and prevent sexually abusive behavior and sexual harassment at all Bureau facilities;
- Victims of sexually abusive behavior and sexual harassment receive timely and effective responses to their physical, psychological, and security needs;
- Allegations of sexually abusive behavior and sexual harassment receive timely intervention upon report, and
- Perpetrators of sexually abusive behavior and sexual harassment will be disciplined and, when appropriate, prosecuted in accordance with Bureau policy and Federal law.

115.11 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention*

Program states the agency shall employ or designate an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the National PREA Coordinator's responsibilities include developing, implementing, and overseeing the Bureau's compliance with PREA. The National PREA Coordinator provides oversight to all Regional PREA Coordinators. The National PREA Coordinator assists the Information, Technology and Data Division (ITDD) in providing the required information to the U. S. Department of Justice, Bureau of Justice Statistics, through their collection agent (U.S. Census Bureau), of all incidents of sexually abusive behavior. The National PREA Coordinator also coordinates with the Privatization Management and Residential Reentry Branches to ensure contract facilities comply with this provision of the PREA standard.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Regional PREA Coordinator ensures policy guidelines are addressed in institutions within each region. Given the sensitivity required when defining and reporting cases as substantiated, a background in investigations is preferred when selecting a Regional PREA Coordinator.

Additional evidence supporting compliance with this provision of the standard is the responsibilities assigned to the National PREA Coordinator which include:

- Serving as the agency's point of contact regarding all PREA related matters;
- Providing consultation and guidance to regional and field staff with respect to PREA implementation and monitoring;
- Providing PREA training oversight;
- Reviewing policy to determine compliance with PREA;
- Reviewing contract language for private/contract facilities relative to PREA;
- Coordinating the development or location of materials required for PREA;
- Maintaining the PREA Coordinator Outlook mailbox;
- Maintaining and processing allegations of sexual abuse in third-party reporting instances and Office of the Inspector General's (OIG) forwarded inmate reports of sexual abuse allegations;

- Preparing an annual report of for the agency utilizing each facility's findings and corrective actions.

An interview with the National PREA Coordinator was conducted and verified having sufficient time and authority in the position to accomplish PREA responsibilities for the Bureau. The National PREA Coordinator provides guidance to 6 regional PREA Coordinators and 120 Institution PREA Compliance Managers (IPCMs). The 120 Institution PREA Compliance Managers (IPCMs) consult with the National PREA Coordinator to ensure their respective facility is compliant with the PREA Standards. The position of Institution PREA Compliance Manager is fulfilled by each facility's designated Associate Warden and in such capacity, the Associate Warden reports directly to the Facility Warden. The National PREA Coordinator reports to the Assistant Director, Reentry Services Division. A review of the BOP organizational chart provided evidence that the National PREA Coordinator is designated as an upper-level position and has agency-wide oversight.

115.11 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states where an agency operates more than one facility, each facility shall designate an Institution PREA Compliance Manager (IPCM) with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Warden at each institution must ensure that all aspects of this Program Statement are implemented, including maintaining a current Institution Supplement. He/she must assign an Institution PREA Compliance Manager (IPCM), who except in rare circumstances will be an Associate Warden, for the overall responsibility of the program.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Institution PREA Compliance Manager (IPCM) maintains responsibility for the *Sexually Abusive Behavior Prevention and Intervention Program*. He/she must provide supervisory oversight to ensure the coordination of institution departments in prevention, detection, intervention, and response, as specified in this Program Statement. The Warden may appoint supervisory staff as PREA points of contact in each key department (Correctional Services, Psychology Services, Health Services, etc.) in order to assist the Institution PREA Compliance Manager (IPCM) with the implementation of this policy.

FCC Allenwood Institution Supplement 5324.12E *Sexually Abusive Behavior Prevention & Intervention Program* states FCC Allenwood will ensure compliance with a zero-tolerance policy towards all forms of sexual abuse and sexual harassment outlined in PS 5324.12. This standard is known to staff, inmates, and visitors via institution bulletin boards; staff, inmate, and volunteer/contractor training; and access to national policy. FCC Allenwood Institution Supplement 5324.12E defines PREA Compliance Manager as the Associate Warden from each respective facility, are designated as the PREA Compliance Managers at FCC Allenwood and are responsible for implementing the agency's zero-tolerance policy on sexually abusive behavior and for maintaining the Sexually Abusive Behavior Prevention and Intervention Program.

FCC Allenwood is comprised of three separate institutions – the United States Penitentiary (USP), the Federal Correctional Institution (FCI), and the Low Security Correctional Institution (LSCI). FCC Allenwood has designated three PREA Compliance Managers (PCM); one PCM for the USP, one PCM for the FCI, and one PCM for the LSCI.

The Lead Auditor interviewed the PREA Compliance Manager (PCM) designated at the USP and verified he has sufficient time and authority to accomplish the PREA responsibilities for the USP. In addition, the USP PCM works in collaboration with each PCM designated for the FCI and the LSCI, to ensure FCC Allenwood maintains PREA compliance. Evidence shows that the BOP has designated three PCMs for FCC Allenwood as verified through a review of the facility organizational chart and through interviews with the USP PCM and the Complex Warden.

The Lead Auditor interviewed the Complex Warden and confirmed the responsibilities of each PCM assigned to FCC Allenwood and verified each PCM is provided sufficient time and authority to accomplish these responsibilities.

Upon review of the policy and the agency organizational chart and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Interviews conducted with:

Agency Contract Administrator

Findings (By Provision):

115.12 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states a public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards.

115.12 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states any new contract, or contract shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards. The Bureau must ensure its contracts with secure privatized facilities, jails, juvenile facilities, and Residential Reentry Centers include their obligation to adopt and comply with the PREA standards. Privatization Management Branch and Residential Reentry Management Branch field staff must include PREA compliance monitoring within their scheduled contract monitoring activity.

The Lead Auditor reviewed the Memorandum dated October 28, 2024, regarding contracting with other entities for the confinement of inmates. The BOP has moved away from contracting with private prisons per the *President's Executive Order on Reforming Our Incarceration System to Eliminate the Use of Privately Operated Criminal Detention Facilities* on January 26, 2021. As such, no new contracts have been executed and previously existing contracts with privately operated detention facilities have expired.

Upon review of the policy and upon completion of interviews, FCC Allenwood demonstrated practices that are consistent with policy and the requirements that complies with the PREA standard.

Findings (By Provision):

115.13 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall ensure that each facility it operates shall develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

- Generally accepted detention and correctional practices;
- Any judicial findings of inadequacy;
- Any inadequacy from internal or external oversight bodies;
- Any findings of inadequacy from Federal investigative agencies;
- All the components of the facility's physical layout (including blind spots);
- Composition of inmate population;
- Number of and placement of supervisory staff;
- Institution programs specific to each shift;
- All applicable State or local laws;

- Prevalence of substantiated and unsubstantiated incidents of sexual abuse;
- Any other relevant factors.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Human Resource Management Division and Administration Division, Central Office, must consider PREA factors and safety, in general, when allocating overall staffing resources. At the institution, the *Salary/Workforce Utilization Committee Meeting Minutes* serves as the staffing plan.

115.13 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states in circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan. Deviations are documented in the remarks section of the *Salary/Workforce Utilization Committee Meeting Minutes*. For example, if an allocated position is not filled for budgetary or other reasons, the reasons should be noted in the remarks section.

115.13 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the PREA Coordinator required by §115.11, the agency shall assess, determine, and document whether adjustments are needed to:

- The staffing plan established pursuant to policy;
- The facility's deployment of video monitoring systems and other monitoring technologies; and
- The resources the facility has available to commit to ensure adherence to the staffing plan.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states at a minimum, the most recent *Salary/Workforce Utilization Committee Meeting Minutes* are annually compiled by the Regional PREA Coordinator by May 1 and submitted to the National PREA Coordinator by June 1.

According to the information contained in the PAQ, FCC Allenwood reported no deviations from the staffing plan during the auditing period.

The Lead Auditor conducted an interview with the Complex Warden and confirmed there were no deviations from the staffing plan in the 12 months prior to the audit. The Complex Warden also confirmed that if a deviation were to occur, such instances of non-compliance with the staffing plan

are documented in the remarks section of the *Salary/Workforce Utilization Committee Meeting Minutes*. The Complex Warden discussed how staffing levels are discussed at the Budget and Planning Committee meeting as well as during *Quarterly Salary/Workforce Utilization Committee* meetings. The Complex Warden also explained that when developing a staffing plan, several items are taken into consideration such as internal reviews, components of the physical plant, composition of the inmate population, the prevalence of substantiated and unsubstantiated allegations of sexual abuse, inmate-on-inmate assaults, and uses of force.

Additionally, the Complex Warden explained that weekly camera updates are provided to the Executive Staff to ensure all video equipment is working appropriately or if necessary, work orders have been submitted if cameras require repair. To ensure compliance with the staffing plan, the Complex Warden indicated compliance is monitored via meetings, meeting minutes, staffing reports, and regular communications with Associate Wardens (PREA Compliance Managers), Human Resource Manager, and Financial Management Administrator.

Interviews with the USP PREA Compliance Manager (PCM) and the National PREA Coordinator; both confirmed the process of developing a staffing plan previously described by the Complex Warden.

The Lead Auditor reviewed the average daily number of inmates' report, staff shift rosters, facility blueprint, and daily inmate activity schedules to verify adequate staff coverage in comparison to inmate population, inmate movement, and facility size and layout. During the facility tour, the Lead Auditor noted her observations of the facility layout, camera placement, and staff assignments in comparison to inmate population in each housing unit, work and program areas. The Lead Auditor's observations provided additional confirmation of the facility's compliance with the provisions of the standard.

115.13 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states at each agency operating a facility shall implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. Each agency shall have a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring unless such announcement is related to the legitimate operational functions of the facility.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states unannounced rounds by supervisory staff conducted with the intent of identifying and deterring sexual abuse and sexual harassment are conducted every week, including all shifts and all areas. The Institution Duty Officer (IDO) conducts and documents the unannounced rounds. At the end of the IDO's tour week, the documentation is forwarded to the IPCM for retention.

The Lead Auditor reviewed twelve months of *Unannounced Institutional Rounds* and verified the unannounced rounds are being conducted and documented in accordance with the facility policy and the PREA Standard. The sample of the documents reviewed covered several days of each month of the twelve-month auditing period and were from every shift. In the samples reviewed, the Lead Auditor did not find any consistent patterns or inadequacies.

The Lead Auditor conducted supervisory level staff interviews and inquired how unannounced rounds are completed without staff knowledge. Supervisory level staff indicated this is completed by observing staff movement, monitoring radio transmissions, alternating movement patterns or being unpredictable with times or walking pattern and listening to staff conversations while conducting rounds throughout the facility.

The Lead Auditor toured the facility and observed the daily operational functions, staff interacting with inmates, general inmate movement, inmates out at recreation, inmates completing job assignments, and supervisory staff conducting rounds. These observations provided additional verification of policy and of standard compliance.

Upon review of the policies and documentation provided and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Interviews conducted with:

Random sample of Inmates

Transgender or Intersex Inmates

On-site Review Observations:

Daily operational functions

Staff interaction with inmates

Inmate movement

Findings (By Provision):

115.15 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners.

BOP Program Statement 5521.06, *Searches of Housing Units, Inmates, and Inmate Work Areas* states in order to further the safe, secure, and orderly running of its institutions, the Bureau of Prisons conducts searches of inmates and of inmate housing and work areas to locate contraband and to deter its introduction and movement. Staff shall employ the least intrusive method of search practicable, as indicated by the type of contraband and the method of suspected introduction.

Documentation provided by the facility indicated there were no cross-gender strip searches or cross-gender visual body cavity searches conducted during the last 12 months. During the on-site phase of the audit, the Lead Auditor conducted an interview with the Complex Warden and the USP PREA Compliance Manager and verified that no cross-gender strip searches or cross-gender visual body cavity searches were conducted.

115.15 (b, c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states an inspection of an inmate using the hands does not require the inmate to remove clothing. The inspection includes a search of the inmate's clothing and personal effects. Staff may conduct a pat search of an inmate on a routine or random basis to control contraband. Staff of the same sex as the inmate shall make the search, except where circumstances are such that delay would mean the likely loss of contraband. Where staff of the opposite sex makes a visual search, staff shall document the reasons for the opposite sex search in the inmate's central file.

The Lead Auditor observed the facility operations throughout the day, to include continuous inmate movement throughout the facility, continuous physical interactions between staff and inmates, and inmates performing job assignments throughout the facility and within the compound grounds.

Throughout the facility tour, the Lead Auditor observed staff of both genders working in all areas of the facility, including housing, programs, commissary, maintenance, and food service. The Lead Auditor

also observed opposite gender announcements being conducted throughout the facility tour. The Lead Auditor compared the information reviewed with her observations made during the facility tour and noted the number of male staff members is more than adequate and covers all shifts.

115.15 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall implement policies and procedures that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates should only shower, perform bodily functions, and change clothing in designated areas (e.g., cells, shower rooms, bathrooms). Housing unit officers of the opposite gender, or any other cross-gender staff, may view breasts, buttocks, or genitalia only in an exigent circumstance, or when incidental to security checks of these designated areas of the housing unit.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states staff are not required to make announcements when responding to temporary and unforeseen circumstances that require immediate action in order to combat a threat to security or institutional order of a facility or when incidental to routine cell checks, to include circumstances such as responding to alarms, contraband detection, or detecting behavior that would constitute an inmate prohibited act.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates will be notified of the presence of opposite-gender staff members in several ways:

- Inmates are advised of the requirement to remain clothed, and the presence of cross-gender staff generally, during the Intake Screening process and the Admission and Orientation process;
- The following notice must be posted on inmate bulletin boards and signs within housing units, including segregated housing areas: *NOTICE TO INMATES: Male and female staff routinely work and visit housing areas;*
- For housing unit officers, an announcement is made at the beginning of primary shifts, or other

appropriate time to be determined locally. The verbal announcement to each housing unit, including segregated housing areas, will be *Notice: Opposite-gender staff will be in housing units during this shift*. This announcement is made using the general public address system from Control or Lieutenants' Office. If the public address system does not cover these areas, an individual announcement in each housing area, including segregated housing areas, is made.

- For staff members with offices in the housing units (the Unit Team), the most recent schedule is posted in the unit, so inmates are aware when opposite-gender staff are present.

The Lead Auditor requested an up-to-date facility inmate roster which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed the Lead Auditor to accurately select a random representation of inmates for the interview process. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Secondary Auditor conducted thirty-two random inmate interviews, and all thirty-two inmates confirmed they have privacy while showering, changing clothes, or using the bathroom facilities. Additionally, twenty-six of the thirty-two inmates interviewed confirmed staff of the opposite gender announce his/her presence prior to entering the housing unit.

The facility has an Opposite Gender audio recording announced periodically during a 24-hour period, the announcement is broadcast throughout the facility compound, to include the facility's housing areas. The audio announcement is made in English and Spanish. The Lead Auditor also observed the announcement of an opposite gender entering a housing unit throughout the on-site tour of the facility, which provided additional documentation and the facility's compliance with this standard.

115.15 (e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall not search or physically examine a transgender inmate or intersex inmate for the sole purpose of determining the inmate's genital status. If the genital status is unknown, it can be determined through conversation with the inmate, by reviewing medical records, or if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

115.15 (f) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall train custody staff in how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

The Lead Auditor reviewed documentation provided by the facility showed the facility has had zero searches of a transgender or intersex for the sole purpose of determining the inmate's genital status.

The Lead Auditor conducted interviews with transgender inmates and inquired if there was any reason to believe they were strip-searched for the sole purpose of determining genital status; each transgender inmate denied being strip-searched for such purpose.

The Lead Auditor reviewed the training records and training curriculum provided to custody staff who may have contact with inmates, how to perform cross-gender pat-down searches and searches of transgender and intersex inmates. Training records indicated custody staff receive training on the Bureau's PREA policies and how to perform cross-gender pat-down searches annually. The training curriculum outlined the Bureau's policy on cross-gender pat-down searches and searches of transgender and intersex inmates, policy prohibiting search of inmates for the sole purpose of determining the inmate's genital status, defining exigent circumstances, and conducting searches in a professional and respectful manner.

Upon review of staff training records and training curriculum, observations during the on-site visit, and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Findings (By Provision):

115.16 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall take appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states such steps shall include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under Title II of the Americans with Disabilities Act, 28 CFR 35.164.

During the on-site phase of the audit, the Lead Auditor conducted a tour of the facility and observed PREA informational bulletins posted in every housing area as well as various locations throughout the compound. These PREA bulletins (Zero-tolerance Policy bulletins) are posted in multiple languages, located throughout each housing unit, as well as several posted in common areas (food service, education, and vocational training buildings) throughout the compound.

115.16 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Institution PREA Compliance Manager (IPCM) should reach out to local disabilities assistance offices, as a resource, to ensure the facility is providing effective communication

accommodations when a need for such accommodation is known. Staff take reasonable action to ensure that available methods of communication are provided to all inmates with disabilities for complete access to its efforts of preventing, detecting, and responding to sexual abuse and sexual harassment.

The Lead Auditor conducted an interview with the USP PCM regarding how the facility takes appropriate steps to ensure that all inmates have an equal opportunity to participate in the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The USP PCM detailed the efforts made by the facility to ensure impaired inmates are provided opportunities and benefits equal to those of unimpaired inmates. Inmates with either impairments or LEP inmates are provided with alternatives to accommodate participation in the PREA program such as videos and brochures tailored to their primary language.

Additionally, every effort is made to provide all training in a format that will be easily understood by inmates who have a physical or developmental impairment or who have limited English proficiency. FCC Allenwood presents PREA-related information both verbally and in writing to all inmates. Additionally, the Bureau of Prisons has contracts for American Sign Language interpreters, Language Line interpreters, Video Relay System conferencing, telephone access, and electronic messaging access. The Lead Auditor reviewed the existing contract between BOP and Language Line Services, LLC. The contract outlines the translation services provided for each BOP facility, rate of service, and the contract's start and ending dates.

115.16 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first response duties under § 115.64, or the investigation of inmate's allegations.

The Lead Auditor conducted targeted interviews with inmates that were either Limited English Proficient (LEP), or inmates with physical, cognitive, hearing, or vision impairments. Each inmate acknowledged receiving PREA information during the admission and orientation process. Each inmate described receiving the comprehensive PREA orientation within a week after arriving at the facility.

Additionally, each inmate acknowledged the information was provided to them in an accessible format specific to their individual needs. The Lead Auditor utilized a certified interpreter for the interview with the LEP inmate.

The Lead Auditor requested and was provided with an up-to-date facility staff roster for all members currently assigned to the facility and was organized by shift assignment and identified each staff member's current job assignment and rank. This allowed the Secondary Auditor to select a random representation of staff members for the interview process as well as ensure the random representation included all shifts, ranks, tenure, and various job assignments.

The Secondary Auditor conducted interviews with random staff members. Each staff member confirmed the Bureau's policy prohibiting the use of an inmate to provide translation services except in exigent circumstances; all staff members acknowledged the use of either the language line or contacting another custody staff to translate.

Upon review of the policies, inmate handbook, and upon completion of interviews with inmates, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program*

Interviews conducted with:

Agency Head Designee

Complex Warden

On-site Review Observations:

Video monitoring system

Findings (By Provision):

115.18 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states when designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the agency shall consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse.

115.18 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect inmates from sexual abuse.

During the on-site tour of the facility, the Lead Auditor observed convex mirrors and security cameras

in housing areas, food service, warehouse, gymnasium, health services, education building, and in common areas, and throughout the compound. The information provided in the PAQ indicated that the facility has not undergone an expansion or modification, however, the facility has installed or updated cameras since the last PREA audit. The Lead Auditor confirmed this information during her interview with the Complex Warden.

The Lead Auditor conducted an interview with the Agency Head Designee and discussed if the Bureau considers how modifications or expansions to a facility effects the ability to protect inmates from sexual abuse. The Agency Head Designee explained consideration is given to all new facility designs and technology upgrades may enhance the Bureau's ability to protect against sexual abuse. In existing institutions, all substantiated and unsubstantiated cases of inmate sexual abuse are reviewed to determine if modifications to design or the addition or upgrade of technology would help prevent a similar occurrence in the future.

Additionally, the Agency Head Designee explained that institution reviews are ongoing to determine if upgrades or additions to existing technology would enhance the protection of inmates from incidents of sexual abuse. The technology serves as a deterrent but also allows the agency to identify unreported victims and perpetrators of sexually abusive behavior as well as aid in successful criminal prosecutions.

The Lead Auditor conducted an interview with the Complex Warden, who confirmed that prior to designing or acquiring any new facility or when planning any substantial expansion or modification, of existing facilities, the facility shall consider the effect of the design, acquisition, expansion, or modification might have upon the facility's ability to protect inmates from sexual abuse. The Complex Warden also explained that the facility has considered and focused the placement of monitoring technology in areas where inmates are housed, work, and program, to enhance their protection from sexual abuse. Additionally, consideration is given to camera placement to ensure the inmates' right to privacy when showering, changing clothes, etc.

Upon review of the policy and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Findings (By Provision):

115.21 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states to the extent the agency is responsible for investigating allegations of sexual abuse, the agency shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

The Lead Auditor conducted an interview with a Special Investigative Agent (SIA) who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The SIA provided The Lead Auditor with a complete overview of the investigative process as it relates to sexual abuse and sexual harassment. In general, the Office of the Inspector General (OIG) of the Department of Justice investigates potential criminal cases involving staff-on-inmate sexual abuse. The Office of Internal Affairs (OIA) of the Bureau of Prisons investigates administrative cases of staff-on-inmate sexual abuse or harassment. Institution investigative staff, the Special Investigative Services (SIS), investigates all other cases. When an inmate-on-inmate allegation of sexual abuse is deemed possibly criminal in nature, it is referred to the Federal Bureau of Investigation (FBI) for investigation. During the pre-on-site phase of the audit, the Lead Auditor reviewed *DOJ/OIG PREA Training* curriculum, and the FBI *Domestic Investigations and Operations Guide* that confirmed compliance with all investigatory requirements under the PREA standards.

During the pre-on-site phase of the audit, the Lead Auditor reviewed the existing Memorandum of Understanding between the BOP and the Federal Bureau of Investigation (FBI). The MOU establishes interagency operational procedures and guidelines for the FBI and the BOP regarding violations of deferral criminal statutes occurring in BOP facilities, on BOP property, or which involve BOP staff. Additionally, the MOU defines the respective roles and responsibilities of the BOP and the FBI, to include policy, training, and practice compliance with regulations and standards. The MOU also establishes and in accordance with Title 28 CFR §115.21(g) (2), the FBI shall follow a uniform evidence protocol consistent with §115.21(a)-(f).

115.21 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the protocol shall be developmentally appropriate for youth where applicable, and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, *A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents*, or similarly comprehensive and authoritative protocols developed after 2011.

115.21 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention*

Program states the agency shall offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs/SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.

115.21 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization, or qualified agency staff member.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Institution PREA Compliance Manager (IPCM), with the assistance of Psychology Services, attempts to enter into agreement with a rape crisis center to make available a victim advocate to inmates being evaluated for the collection of forensic evidence. If an agreement is not reached, efforts must be documented. Properly trained Psychology or Chaplaincy Services staff members may provide victim services locally if a rape crisis center is not available.

During the pre-on-site phase of the audit, the Lead Auditor reviewed provided documentation, which included the SANEs/SAFEs evidence protocol, and the gratuitous service agreement between FCC Allenwood of the Bureau of Prisons and the Transitions of Pennsylvania. The agreement uses clear and concise language, provides a thorough description of each party's responsibilities, and the reporting and documentation requirements for each.

Transitions of Pennsylvania, a nonprofit organization in Lewisburg PA which provides support services to victims of domestic and sexual violence. Transitions of Pennsylvania provides comprehensive services to include a 24/7 confidential support hotline, safety planning, advocacy, individual or group crisis counseling, legal advocacy, as well as providing support and medical accompaniment for forensic medical exams.

In accordance with the agreement, Transitions of Pennsylvania provides inmates incarcerated at FCC Allenwood with crisis intervention and advocacy services for victims of sexual abuse to include accompanying the victim during forensic exams and investigatory interviews, and follow-up crisis counseling on request. Additionally, Transitions of Pennsylvania provides FCC Allenwood inmates identified as sexual abuse victims, with contact information for written communication for support or advocacy services. Additionally, Transitions of Pennsylvania's website has a page dedicated to PREA and includes a PREA overview, list of correctional facilities which Transitions of Pennsylvania provides advocacy services to, and an explanation of services Transitions of Pennsylvania would provide upon receiving a referral from a participating facility.

The Lead Auditor conducted an interview with a victim advocate from Transitions of Pennsylvania, and she confirmed the existing agreement with the facility. She provided a detailed description of the advocacy services provided to the inmates at FCC Allenwood to include crisis intervention and emotional support services, accompany the victim during forensic exam and investigatory interviews, and follow-up crisis counseling upon request.

115.21 (e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states as requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

115.21 (f) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states to the extent the agency itself is not responsible for investigating allegations of sexual abuse, the agency shall request that the investigating agency follow the requirements of paragraphs (a) through (e) of this section.

115.21 (g) – The Lead Auditor is not required to audit this provision.

115.21 (h) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states for the purposes of this section, a qualified agency staff member or a qualified

community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

The Lead Auditor conducted an interview with the facility's Health Services Administrator who explained if a forensic medical examination is required, the inmate victim would be transported to the local hospital. The hospital has certified SANE/SAFE Examiners available to complete the forensic medical examination. The Health Services Administrator confirmed there were no forensic medical examinations completed for FCC Allenwood during the twelve-month auditing period. The Lead Auditor conducted additional interviews with the facility's Chief of Psychology Services, and the USP PCM separately, and each confirmed this information is correct.

The Lead Auditor interviewed random and specialized staff members regarding his/her role as a First Responder to an allegation of sexual abuse. The staff members provided specific details of their responsibilities as a First Responder. These responsibilities include separating the victim and abuser, preserving, and protecting the crime scene, requesting that the alleged victim not take any actions that could destroy physical evidence, ensuring the alleged abuser does not take any actions, which would destroy physical evidence, and to immediately notify the Shift Lieutenant and Psychology Services. In addition, each staff member acknowledged the importance of the agency's response protocol to a sexual abuse allegation as well as his or her role as a First Responder.

The Lead conducted targeted interviews with inmates who reported an incident of sexual abuse. The Lead Auditor inquired to each inmate, after reporting, did the facility allow him to contact anyone. Each inmate confirmed to the Lead Auditor, after reporting the incident, he was able to meet with Psychology Services and was provided with additional advocacy services information available from the Transitions of Pennsylvania.

Upon review of the policies, contracts and documentation with outside entities, the SANES/SAFEs Uniform Evidence Protocol, and observations made during the facility tour, and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

115.22 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations unless the allegation does not involve potentially criminal behavior. The agency shall publish such a policy on its website or make the policy available through other means. The agency shall document all such referrals.

115.22 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity. Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in prisons or jails shall have in place a policy governing the conduct of such investigations.

BOP publishes agency policy regarding the referral of allegations of sexual abuse or sexual harassment on the agency website https://www.bop.gov/inmates/custody_and_care/sexual_abuse_prevention.jsp

During the on-site phase of the audit, the Lead Auditor conducted an interview with the Agency Head Designee regarding how the agency ensures that an administrative or criminal investigation is completed for allegations of sexual abuse or harassment. The Agency Head Designee confirmed all allegations are investigated; the investigative process is initiated immediately following the receipt of an allegation of sexual abuse or sexual harassment. In general, the Office of the Inspector General (OIG) of the Department of Justice investigates potential criminal cases involving staff-on-inmate sexual abuse. The Office of Internal Affairs (OIA) of the Bureau of Prisons investigates administrative cases of staff-on-inmate sexual abuse or harassment. Institution investigative staff, the Special Investigative Services (SIS), investigates all other cases. When an inmate-on-inmate allegation of sexual abuse is deemed possibly criminal in nature, it is referred to the Federal Bureau of Investigation (FBI) for investigations. OIG, OIA, SIS, and FBI in general, review the allegation(s) and predating information. Substantiated allegations for administrative investigations or criminal prosecutions are based on corroboration of witnesses' and victim statements, predating information, along with physical evidence.

115.22 (c) – BOP Program Statement 5508.02, *Hostage Situations or Criminal Actions Requiring FBI Presence* states the FBI has the investigative responsibility for criminal activities at all Bureau facilities. Additionally, in accordance with the existing MOU between the BOP and the FBI, upon the occurrence of any incident that may involve a criminal act, the BOP will take immediate action to preserve the scene of the incident and immediately notify the appropriate designated FBI representative of the incident.

During the pre-on-site phase of the audit, the Lead Auditor reviewed the existing Memorandum of Understanding between the BOP and the Federal Bureau of Investigation. The MOU establishes interagency operational procedures and guidelines for the FBI and the BOP regarding violations of deferral criminal statutes occurring in BOP facilities, on BOP property, or which involve BOP staff. Additionally, the MOU defines the respective roles and responsibilities of the BOP and the FBI, to include policy, training, and practice compliance with regulations and standards. The MOU also establishes and in accordance with Title 28 CFR §115.21(g) (2), the FBI shall follow a uniform evidence protocol consistent with §115.21(a)-(f).

During the on-site phase of the audit, the Lead Auditor conducted an interview with a Special Investigative Agent (SIA) who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The SIA provided the Lead Auditor with a complete overview of the investigative process as it relates to sexual abuse and sexual harassment. In general, the Office of the Inspector General (OIG) of the Department of Justice investigates potential criminal cases involving staff-on-inmate sexual abuse. The Office of Internal Affairs (OIA) of the Bureau of Prisons investigates administrative cases of staff-on-inmate sexual abuse or harassment. Institution investigative staff, the Special Investigative Services (SIS), investigates all other cases. When an inmate-on-inmate allegation of sexual abuse is deemed possibly criminal in nature, it is referred to the Federal Bureau of Investigation (FBI) for investigations. During the pre-on-site phase of the audit, the Lead Auditor reviewed *DOJ/OIG PREA Training* curriculum and the FBI *Domestic Investigations and Operations Guide* that confirmed compliance with all investigatory requirements under the PREA standards.

Upon review of the policies, documentation and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

During the pre-on-site phase of the audit, the Lead Auditor reviewed training curriculum and electronic documentation verifying staff training comprehension and attendance. The training curriculum outlined the staff member's responsibilities in preventing, detecting, and response to inmate sexual abuse and sexual harassment. The curriculum also provided staff with communicating effectively and professionally with inmates, understanding that inmates have the right to be free from sexual abuse and sexual harassment.

The BOP PREA training curriculum provided to The Lead Auditor, titled *Sexually Abusive Behavior Prevention & Intervention Program* and *PREA Presentation*. The Lead Auditor reviewed both training curriculums and the confirmed the training included, but not limited to, an inmate's right to be free from sexual abuse and sexual harassment, reporting methods, First Responder responsibilities, responding appropriately to victims of sexual abuse, and administrative and criminal investigative processes. The training also included the appropriate method to introduce/announce "opposite gender" correctional officers and supervision staff into an all-male or all-female housing unit and how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates in a professional and respectful manner consistent with security correctional environments. The training curriculum was detailed with discussions of the required PREA standards and BOP policies and procedures.

During the on-site phase, the Lead Auditor requested an up-to-date facility staff roster depicting all staff members currently assigned to the facility and was organized by shift assignment and identified each staff member's current job assignment and rank. This allowed the Lead Auditor to select a random representation of staff members for the interview process as well as ensure the random representation

included all shifts, ranks, tenure, and various job assignments.

The Lead Auditor conducted random staff interviews, and each staff member articulated the agency's zero-tolerance policy on sexual abuse and sexual harassment, their role and responsibilities regarding sexual abuse and sexual harassment prevention, detection, reporting, and response, how to communicate effectively and professionally with inmates, and an inmate right to be free from sexual abuse and sexual harassment. All staff members acknowledged receiving the training every year during his/her Annual Training.

Upon review of the policies and training documentation listed above and previously discussed, and after completion of interviews, in addition to the files reviewed during the on-site visit, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Findings (By Provision):

115.33 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states during the intake process, inmates shall receive information explaining the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Bureau's Admission and Orientation (A&O) Pamphlet on Sexually Abusive Behavior Prevention and Intervention is provided to each inmate at intake screening. It describes the key elements of the program and informs inmates of the Bureau's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents of sexual abuse. It also provides inmates notice that male and female staff routinely work and visit inmate housing areas.

115.33 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states within 30 days of intake, the agency shall provide comprehensive education to inmates either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and incidents. During the A&O Program, a staff member designated by the Warden, present the *Sexually Abusive Behavior Prevention and Intervention Program*. This presentation must include:

- Definitions of sexually abusive behavior and sexual harassment;
- Prevention strategies the inmate can take to minimize his/her risk of sexual victimization while in BOP custody;
- Methods of reporting an incident of sexually abusive behavior against oneself, and for reporting allegations of sexually abusive behavior involving other inmates, including reporting procedures directly to Regional Staff, if desired.
- Methods of reporting an incident of sexual harassment against oneself, and for reporting allegations of sexual harassment involving other inmates.
- Treatment options and programs available to inmate victims of sexually abusive behavior and sexual harassment.
- Monitoring, discipline, and prosecution of sexual perpetrators.
- Notice that male and female staff routinely work and visit inmate housing areas.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states where inmates do not participate in a formal A&O Program (e.g., WITSEC, Pretrial, or SHU inmates), the Warden designates a staff member to ensure these inmates receive information on the Bureau's Sexually Abusive Behavior Prevention and Intervention Program within 30 days of intake. This is documented in the same manner as for inmates who participated during the regularly scheduled A&O session.

115.33 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states current inmates who have not received such education shall be educated within one year of the effective date of the PREA standards and shall receive education upon transfer to a different facility to the extent that the policies and procedures of the inmate's new facility differ from those of the previous facility.

115.33 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.

115.33 (e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall maintain documentation of inmate participation in these education sessions. The A&O forms are filed in the Inmate Central File or pretrial/holdover files.

115.33 (f) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states in addition to providing such education, the agency shall ensure that key information is continuously and readily available or visible to inmates through posters, inmate handbooks, or other written formats. In each housing unit, the following will be posted:

- A notice to inmates stating, *Male and female staff routinely work and visit inmate housing areas.*
- A poster reflecting the BOP's zero-tolerance for sexual abuse and harassment and contact information for inmate reporting of sexual abuse allegations.

The Lead Auditor conducted a tour of the facility and observed PREA informational bulletins. These PREA bulletins are posted in multiple languages, located inside every housing unit, as well as several informational bulletins were posted in common areas (educational and vocational buildings) throughout the compound. The bulletins display phone numbers and addresses for the victim advocate services and multiple reporting methods and are displayed in multiple languages.

During the facility tour, an inmate provided the Lead Auditor with a demonstration of TRULINCS, the inmate electronic messaging system. The Lead Auditor interviewed an inmate privately while touring the facility and requested the inmate to demonstrate the use of the TRULINCS. Although there are multiple services available for inmates within the TRULINCS, the demonstration confirmed to the Lead Auditor one method for inmates to report sexual abuse and sexual harassment, to include the option of reporting the incident anonymously.

During the on-site phase of the audit, the Lead Auditor conducted separate interviews with the USP PCM and Intake Staff Member and discussed the inmate comprehensive PREA orientation process. Both the USP PCM and Intake Staff Member provided specific details on the process of educating inmates including upon intake into the facility, and during the Admission & Orientation process. Additionally, both confirmed the multiple additional information provided to inmates through PREA informational pamphlets, BOP Inmate Admission & Orientation Handbook, and the signage posted throughout the facility.

The Lead Auditor interviewed targeted inmates that were Limited English Proficient (LEP), or inmates with physical, cognitive, hearing, or vision impairments. Each inmate acknowledged receiving PREA information during the Admission and Orientation process. Each inmate described receiving the comprehensive PREA orientation within a week after arriving at the facility. Additionally, each inmate acknowledged the information was provided to them in an accessible format specific to their individual needs. The Lead Auditor utilized the Language Line for the interview with the LEP inmate.

The Lead Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed the Lead Auditor to accurately select a random representation of inmates for the interview process. All inmate

interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Secondary Auditor conducted interviews with thirty-two random inmates and all thirty-two inmates interviewed recalled receiving both the initial PREA orientation and the comprehensive orientation during A&O. Each inmate also acknowledged the zero-tolerance policy on sexual abuse sexual harassment and the various ways to report such incidents.

Inmates referred to utilizing multiple PREA informational bulletins, TRULINCS, and brochures, which are posted throughout the facility, as a source of information. Twenty-four of the thirty-two inmates interviewed referred to utilizing TRULINCS or notifying a staff member as the most direct method to report or inquire about PREA information. All inmates interviewed also referred to calling a family member as their source outside the facility, with twenty-two of the thirty-two inmates interviewed confirming knowledge of third-party reporting. Twenty-two of the thirty-two inmates interviewed were aware of the availability of submitting an anonymous PREA report.

During the pre-on-site phase of the audit, the Lead Auditor reviewed documentation to include inmate PREA education curriculum and BOP Inmate *Acknowledgement of Receipt of PREA Orientation*. A review of the inmate education curriculum indicated inmates are educated on PREA definitions, zero-tolerance, reporting methods, prevention techniques, counseling opportunities available for victims of sexual abuse, and information on the investigative process.

During the on-site The Lead Auditor reviewed fifty *Inmate Acknowledgement of Receipt of PREA Orientation* forms from the inmates selected for random and targeted interviews, which provided further documentation of inmate attendance and acknowledgment of understanding (inmate signatures).

Upon review of the policy and documentation listed above and previously discussed, and after completion of interviews, in addition to the observations made throughout the on-site tour, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The MOU establishes interagency operational procedures and guidelines for the FBI and the BOP regarding violations of deferral criminal statutes occurring in BOP facilities, on BOP property, or which involve BOP staff. Additionally, the MOU defines the respective roles and responsibilities of the BOP and the FBI, to include policy, training, and practice compliance with regulations and standards. The MOU also establishes and in accordance with Title 28 CFR §115.21(g) (2), the FBI shall follow a uniform evidence protocol consistent with §115.21(a)-(f).

The Lead Auditor conducted an interview with a Special Investigative Agent (SIA) who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The SIA provided the Lead Auditor with a complete overview of the investigative process as it relates to sexual abuse and sexual harassment. In general, the Office of the Inspector General (OIG) of the Department of Justice investigates potential criminal cases involving staff-on-inmate sexual abuse. The Office of Internal Affairs (OIA) of the Bureau of Prisons investigates administrative cases of staff-on-inmate sexual abuse or harassment. Institution investigative staff, the Special Investigative Services (SIS), investigates all other cases. When an inmate-on-inmate allegation of sexual abuse is deemed possibly criminal in nature,

it is referred to the Federal Bureau of Investigation (FBI) for investigations. During the pre-on-site phase of the audit, The Lead Auditor reviewed *DOJ/OIG PREA Training* curriculum and the FBI *Domestic Investigations and Operations Guide* that confirmed compliance with all investigatory requirements under the PREA standards.

Additionally, the Special Investigative Agent (SIA) also confirmed attending and successful completion of the required specialized training curriculum from the National Institute of Corrections, *Specialized Training: Investigating Sexual Abuse in Confinement Settings*. The SIA clearly articulated the comprehensive training received which included investigating sexual abuse and harassment in confinement settings, understanding the impact of victim trauma, techniques for interviewing sexual abuse victims, preservation of crime scene and evidence collection, proper use of *Miranda* and *Garrity* and the importance of each, and criteria required for administrative action and prosecution referrals.

The Lead Auditor reviewed training documentation, which included the specialized training curriculum from the National Institute of Corrections, *Specialized Training: Investigating Sexual Abuse in Confinement Settings* and training certificates of completion verifying investigative staff that conduct sexual abuse investigations attended and completed the required specialized training.

Upon review of the policy and documentation listed above and previously discussed, and after completion of interviews, in addition to the observations made throughout the on-site visit, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

BOP PREA Intake Objective Screening Instrument

Interviews conducted with:

Staff Responsible for Risk Screening

Random sample of Inmates

PREA Coordinator

On-site Review Observations:

PREA Intake Objective Screening Instrument screening forms

Findings (By Provision):

115.41 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states all inmates shall be assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states all inmates entering an institution are screened as directed by Health Services, Psychology Services, and Unit Management policies. The following steps should be taken:

- Inmates with a history of sexual victimization while in BOP custody – when, during the intake screening process, staff identify inmates with a history of sexual victimization within BOP custody (e.g., from self-report or from review of available documents), they must refer the inmate to Psychology Services. If not previously documented on BOP records, staff must notify the Chief of Correctional Services of the inmate's report of victimization to ensure appropriate steps have been taken.
- Inmates with a history of sexual victimization while in a non-BOP setting – if victimization occurred in a non-BOP setting, staff should document information, and appropriate psychological treatment and monitoring will be provided if needed.
- Inmates with a history of sexual predation – when, during the intake screening process, staff identify inmates with a history of sexual predation (self-report or from review of available documents), staff must refer the inmate to Psychology Services. If incidents of sexual predation have not previously been documented on BOP records, staff must notify the Chief of Correctional Services of the inmate's history of predation to ensure appropriate steps have been taken.

115.41 (b, c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention*

Program states intake screening shall ordinarily take place within 72 hours of arrival at the facility. Such assessments shall be conducted using an objective screening instrument. The *PREA Intake Objective Screening Instrument* should be completed using only information available to staff at the time of intake, and with the purpose of referring the inmate for further assessment if needed.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if further assessment is needed after documenting and applying the criteria, an inmate is considered “at-risk” until a final determination is made by Psychology Services or Correctional Services. Referrals to Psychology Services or Correctional Services are documented at the local level.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates are encouraged to disclose as much information as possible for the agency to provide the most protection possible under this policy. If an inmate chooses not to respond to questions relating to his/her level of risk, he/she may not be disciplined.

115.41 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the intake screening shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization:

1. Whether the inmate has a mental, physical, or developmental disability;
2. The age of the inmate;
3. The physical build of the inmate;
4. Whether the inmate has previously been incarcerated;
5. Whether the inmate’s criminal history is exclusively nonviolent;
6. Whether the inmate has prior convictions for sex offenses against an adult or child;
7. Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
8. Whether the inmate has previously experienced sexual victimization;
9. The inmate’s own perception of vulnerability; and
10. Whether the inmate is detained solely for civil immigration purposes.

115.41 (e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the initial screening shall consider prior acts of sexual abuse, prior convictions for

violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive. In the case of inmates “at risk” for perpetration, Correctional Services should be notified by Psychology Services.

115.41 (f) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states within a set time, not to exceed 30 days from the inmate’s arrival at the facility, the facility will reassess the inmate’s risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening.

115.41 (g) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states an inmate’s risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness.

115.41 (h) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to questions asked pursuant to this standard.

115.41 (i) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. Any information related to sexual victimization or abusiveness, is limited to a need-to-know basis for staff, only for the purpose of treatment and security and management decisions (housing and cell assignments, work, education, and programming assignments).

During the pre-on-site phase of the audit, the Lead Auditor reviewed thirty-five *PREA Intake Objective Screening Instrument*, *Psychology Services Risk of Sexual Victimization*, and *Psychology Services Risk of Sexual Abusiveness* screening forms completed during this audit period. All forms were filled out completely and in accordance with the agency policy and the requirements of the PREA standard.

During the on-site phase of the audit, the Lead Auditor reviewed an additional fifty *PREA Intake*

Objective Screening Instrument screening forms completed during this audit period. The fifty *PREA Intake Objective Screening Instrument* forms reviewed were from the files of the inmates selected for the random and targeted inmate interviews. All forms, including the *PREA Intake Objective Screening Instrument*, *Intake Screening*, *Psychology Services Risk of Sexual Victimization*, *Psychology Services Risk of Sexual Abusiveness*, and the *Inmate Individualized Treatment Plan (28-day Risk Reassessment)*, were filled out completely and in accordance with the agency policy.

The Lead Auditor conducted an interview with a Staff Member responsible for conducting screenings for risk of victimization and abusiveness. The Staff Member provided the Lead Auditor with a complete overview of the inmate risk screening process to include how all inmates are screened the same day of arrival. The Staff Member confirmed that all risk screening interviews are conducted privately, and any information obtained in the interview is strictly used to determine an inmate's risk of sexual victimization or abusiveness and he confirmed such sensitive information is limited to staff for the purpose of security, management, and treatment decisions (housing, programming, work assignments, etc.).

The Lead Auditor inquired to the Staff Member what actions are taken against inmates who refuse to cooperate or answer questions in the risk screening process. The Staff Member responded that inmates are not required to provide answers. The Staff Member confirmed that inmates are not disciplined for refusing to cooperate or answer the questions in the risk screening process.

The Lead Auditor conducted interviews with inmates who disclosed prior sexual victimization. Each inmate confirmed to the Lead Auditor that they were offered the opportunity to meet with Psychology Services during the risk screening process; one of the inmates accepted the opportunity to meet with Psychology Services, and confirmed the meeting occurred within a couple of weeks. The remaining inmates declined the opportunity to meet with Psychology Services. The Lead Auditor was able to confirm the information provided by each inmate during the documentation review process.

During the on-site visit, the Lead Auditor requested an up-to-date facility inmate roster which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed the Lead Auditor to accurately select a random representation of inmates for the interview

process. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Secondary Auditor conducted thirty-two random inmate interviews, seventeen of the thirty-two inmates interviewed entered the facility twelve months or longer, therefore this interview question was not posed to them. Of the remaining fifteen inmates interviewed, thirteen of the fifteen inmates recalled the initial risk screening assessment interview, and nine of the thirteen inmates recalled the second risk assessment interview occurring with a Psychology Services staff member and within three to four weeks from the initial risk assessment.

An interview with the National PREA Coordinator was conducted and the question was posed to her how the facility protects sensitive information, in particular an inmate's risk assessment. The National PREA Coordinator explained the policy mandates such sensitive information is limited to staff who have a need to know and will vary depending on what is recommended within the risk assessment. The National PREA Coordinator provided the following example: If there is an elevated risk level with recommendations on cell assignment and work assignment, then the Correctional Counselor will be notified since that individual is responsible for those assignments. Executive staff are made aware in all instances due to security concerns.

Upon review of the policies, on-site file review, and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Staff Member responded that inmates are not required to provide answers. The Staff Member confirmed that inmates are not disciplined for refusing to cooperate or answer the questions in the risk screening process.

The Lead Auditor reviewed fifty *PREA Intake Objective Screening Instrument* screening forms from the files of the inmates selected for the random and targeted inmate interviews. All forms, to include the

PREA Intake Objective Screening Instrument, Intake Screening, Psychology Services Risk of Sexual Victimization, Psychology Services Risk of Sexual Abusiveness, and the Inmate Individualized Treatment Plan (28-day Risk Reassessment), were filled out completely and in accordance with the agency policy and the requirements of the PREA standard.

The Lead Auditor conducted an interview with the USP PCM on how the facility uses information obtained from the risk screening assessment interview to keep inmates from being sexually victimized or being sexually abusive. The USP PCM described the risk screening process and explained how depending upon the responses given by the inmate; the information obtained in the screening process is used to ensure inmates are properly referred for treatment and to ensure appropriate housing.

The Lead Auditor also inquired to the USP PCM how the facility determines housing and program assignments for transgender or intersex inmates. The inmate's safety as well as the safety and the security of facility will be taken into consideration when making the housing determination.

The Lead Auditor requested a list of inmates who self-reported as identifying as gay, bisexual, transgender, and intersex inmates to conduct targeted interviews. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Lead Auditor conducted separate interviews and inquired to each inmate whether they were placed in a housing area only for gay, bisexual, or transgender or intersex inmates. Each inmate acknowledged being housed in a general population housing area with inmates of the same level of classification. Each inmate explained that the classification levels are based on criminal history. Additionally, the Lead Auditor inquired to the inmates who identified as transgender if the facility provides the opportunity to shower alone, without other inmates and each transgender inmate confirmed to the Lead Auditor the facility provides the opportunity to shower alone. The Lead Auditor also inquired to each transgender incarcerated individual if staff met with them individually, to discussed housing and program decisions and to discuss safety within the facility. Each transgender incarcerated individual acknowledged meeting with staff privately and at a minimum of every six

months, or early if the need arises.

An interview with the National PREA Coordinator was conducted and the question was posed to her how the agency ensures against placing lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities or wings. The National PREA Coordinator confirmed that the Bureau of Prisons does not have any facilities, units, or wings, dedicated to lesbian, gay, transgender, or intersex inmates.

Upon review of the policies and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Interviews conducted with:

Warden

Findings (By Provision):

115.43 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

115.43 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document:

1. The opportunities that have been limited;
2. The duration of the limitation; and
3. The reasons for such limitations.

115.43 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.

115.43 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention*

Program states if an involuntary segregated housing assignment is made, the facility shall clearly document:

1. The basis for the facility's concern for the inmate's safety; and
2. The reason why no alternative means of separation can be arranged.

115.43 (e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.

The Lead Auditor conducted an interview with the Complex Warden regarding inmates at high risk of victimization. The Complex Warden explained that inmates at high risk for sexual victimization should not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. If the assessment cannot be completed immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours, or review for placement in one of our neighboring facilities while completing the assessment. Any limits on programming due to the involuntary segregated housing must be documented.

The Lead Auditor conducted an interview with a Facility Staff Member who supervises inmates in segregated housing. The Lead Auditor inquired to the Facility Staff Member if an inmate is placed in segregated housing for protection from sexual abuse or after having alleged sexual abuse, what restrictions are placed on the inmate. The Facility Staff Member articulated that inmates placed in the Special Housing Unit (SHU) do not have restrictions and retain the same privileges as inmates in general population housing, to include participating in programs and education opportunities. The Facility Staff Member explained if an inmate has restrictions, it would be limited, and the Chief of Correctional Services ensures that proper documentation exists reflecting the limitations, duration, and rationale for the limitations.

According to the information in the PAQ, the facility reported there were no inmates at risk of sexual victimization being assigned to involuntary segregated housing during the twelve-month auditing period. During the on-site phase of the audit, the Lead Auditor interviewed the Complex Warden and

the USP PCM and each confirmed the information previously provided by the facility in the PAQ. Therefore, inmates in this targeted category were not interviewed.

Upon review of the policy and documentation provided and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

115.51 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states during the intake process, inmates shall receive information explaining the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

115.51 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall provide multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates are encouraged to report allegations to staff at all levels, including local, regional, and Central Office. They are also currently provided with avenues of internal reporting, such as telephonically to a specific department (such as the Special Investigative Services Lieutenant), or by mail to an outside entity (Office of the Inspector General).

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall also provide at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. Inmates detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security. Inmates are provided with contact information and access to the

Office of the Inspector General (OIG) to make such reports.

115.51 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

115.51 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall provide a method for staff to privately report sexual abuse and sexual harassment of inmates. Staff may privately contact any supervisory staff at the local institution, Regional staff, or Central Office staff, including the Regional PREA Coordinators, and the National PREA Coordinator. Allegations involving staff members may also be reported to the Office of Internal Affairs or the Office of the Inspector General.

During the pre-on-site phase of the audit, the Lead Auditor reviewed provided documentation (booklet), *Sexually Abusive Behavior Prevention and Intervention: Information and How to Report, An Overview for Inmates*. This document, which is provided to all inmates that enter the facility, provides detailed information in the following sections:

- Overview of PREA
- Agency's Zero-tolerance policy
- What Can You do if You are Sexually Assaulted?
- How Do You Report an Incident of Sexually Abusive Behavior?
- Understanding the Investigative Process
- Counseling Programs for Victims of Sexually Abusive Behavior (includes contact information for Transitions of Pennsylvania)
- Management Program for Inmate Assailants
- Prohibited Acts
- Contact information for the BOP Regional Offices and for the U.S. Department of Justice, Office of the Inspector General.

Each section provides detailed information to include step-by-step instructions. The section titled, *How Do You Report an Incident of Sexually Abusive Behavior*, lists the multiple methods of reporting an allegation of sexual abuse or sexual harassment. Specifically within this section, details are provided

explaining how the Office of the Inspector General (OIG) is a component of the Department of Justice and is not a part of the Bureau of Prisons. Inmates may write the OIG to the address listed or inmates can e-mail directly to OIG through *TRULINCS, Request to Staff* tab, and select the Department Mailbox titled, *DOJ Sexual Abuse Reporting*. Inmates can request to remain anonymous in the e-mail to the OIG.

During the facility tour, an inmate provided the Lead Auditor with a demonstration of TRULINCS, the inmate electronic messaging system. The Lead Auditor interviewed an inmate privately while touring the facility and requested the inmate to demonstrate the use of the TRULINCS. Although there are multiple services available for inmates within the TRULINCS, the demonstration confirmed to the Lead Auditor one method for inmates to report sexual abuse and sexual harassment, to include the option of reporting the incident anonymously.

During the on-site visit, the Lead Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed the Lead Auditor to accurately select a random representation of inmates for the interview process. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Lead Auditor conducted thirty-two random inmate interviews and inquired how they would report an incident of sexual abuse or sexual harassment if it happened to them or another inmate. Inmates referred to utilizing multiple PREA informational bulletins, TRULINCS, and brochures, which are posted throughout the facility, as a source of information. Twenty-four of the thirty-two inmates interviewed referred to utilizing TRULINCS or notifying a staff member as the most direct method to report or inquire about PREA information. All inmates interviewed also referred to calling a family member as their source outside the facility, with twenty-two of the thirty-two inmates interviewed confirming knowledge of third-party reporting. Twenty-two of the thirty-two inmates interviewed were aware of the availability of submitting an anonymous PREA report.

The Lead Auditor-conducted interviews with random staff members and asked each staff member how an inmate can privately report sexual abuse and sexual harassment or retaliation by other inmates or

staff for previously reporting sexual abuse and sexual harassment. Each staff member interviewed was able to articulate the various methods an inmate may privately report an allegation of sexual abuse or sexual harassment (supervisory staff at the local institution, the Regional PREA Coordinators, or by notifying the Office of the Inspector General). Staff members also explained that reports concerning sexual abuse or sexual harassment, whether reported verbally or in writing, are considered confidential and must be documented immediately.

The Lead Auditor inquired to each staff member how he/she would report an allegation of sexual abuse or sexual harassment of inmates privately. Staff responses included either calling the Office of the Inspector General or telling his/her immediate supervisor. Staff members expressed confidence in reporting either to the OIG or privately to his/her supervisor and no one reported fear of retaliation.

The Lead Auditor conducted an interview with the USP PCM to verify reporting methods for sexual abuse or sexual harassment allegations that are available for inmates and staff. The USP PCM confirmed the multiple methods of reporting available for inmates and staff, to include that reports can be made either verbally, in writing, by a third party and may be done so in private or anonymously and all reports, no matter the method used to report, are confidential and handled promptly and professionally. The USP PCM confirmed that inmates could report anonymously through TRULINCS or by mailing the Office of the Inspector General.

During the on-site phase of the audit, the Lead Auditor conducted a tour of the facility and observed PREA informational bulletins posted in every housing area as well as various locations throughout the compound. These PREA bulletins (Zero-tolerance Policy bulletins) are posted in multiple languages, located throughout each unit, as well as several posted in common areas (food service, educational and vocational buildings) throughout the facility.

Upon review of the policies, contracts, employee handbook, BOP inmate handbook, and PREA bulletins and signs posted throughout the facility, and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

explanation of the types of resolution, informal and formal.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate, after reporting did the facility notify him of the final decisions made regarding the allegation and if such notification was in writing. Each inmate confirmed to the Lead Auditor he was notified by staff of the case disposition. The Lead Auditor verified the notifications while reviewing the investigative files and the inmate notification contained the date, case disposition, and inmate signature.

The PREA Zero-Tolerance bulletins contain information for reporting incidents as well as information related to counseling and advocacy services.

During the pre-on-site phase of the audit, the Lead Auditor reviewed the BOP Inmate Admissions & Orientation Handbook. The BOP Inmate Admission & Orientation Handbook provides information regarding victim advocacy services for inmates and all information provided will be kept confidential, except information that requires mandatory reporting.

During the pre-on-site phase of the audit, the Lead Auditor reviewed provided documentation, which included the SANEs/SAFEs evidence protocol, and the gratuitous service agreement between FCC Allenwood of the Bureau of Prisons and Transitions of Pennsylvania. The agreement uses clear and concise language, provides a thorough description of each party's responsibilities, and the reporting and documentation requirements for each.

The Lead Auditor conducted an interview with a victim advocate from Transitions of Pennsylvania, and she confirmed the existing agreement with the facility. She provided a detailed description of the advocacy services provided to the inmates at FCC Allenwood to include crisis intervention and emotional support services, accompany the victim during forensic exam and investigatory interviews, and follow-up crisis counseling upon request.

The Lead Auditor requested an up-to-date facility inmate roster which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed The Lead Auditor to accurately select a random representation of inmates for the interview process. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Secondary Auditor interviewed thirty-two random inmates and inquired to each inmate, were they informed of services available outside of the facility if needed, for dealing with sexual abuse. Fourteen of the thirty-two inmates interviewed stated there are services available as they were explained to them during the comprehensive PREA orientation (A&O) and referred to the informational bulletins posted in the unit as well as information in the Inmate A & O Handbook, which provides specific details. The Secondary Auditor further inquired to the eighteen inmates that if a need were to arise, would they know where to find such information. All eighteen inmates indicated they would either reach out to a staff member or review the Inmate Admission & Orientation Handbook.

The Lead Auditor reviewed documentation confirming that all thirty-two inmates interviewed received the BOP Inmate Admission & Orientation Handbook (documentation included inmate signatures). The BOP Inmate Admission & Orientation Handbook contains explanation of the victim advocacy services

availability as well as contact information. In addition, the facility posted an Inmate Notice, *Access to Confidential Rape Crisis Counseling & Victim Advocacy* bulletin on the TRULINCS system for all inmates to review. The bulletin included the information about Transitions of Pennsylvania, emotional support services and included contact information for Transitions of Pennsylvania.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate, after reporting, did the facility allow him to contact anyone. One inmate confirmed to the Lead Auditor, after reporting the incident, he was able to meet with Psychology Services and was provided additional information on advocacy services provided by the Transitions of Pennsylvania. The remaining inmate interviewed could not recall specific information related to being offered victim advocacy services or not, however, the inmate informed the Lead Auditor that his lack of memory does not imply the services were not offered.

Upon review of the policies and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Findings (By Provision):

115.54 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall establish a method to receive third-party reports of sexual abuse and sexual harassment and shall distribute publicly information on how to report sexual abuse and sexual harassment on behalf of an inmate.

During the on-site phase of the audit, the Lead Auditor conducted a tour of the facility and observed PREA informational bulletins posted. These PREA Zero-Tolerance bulletins are posted in multiple languages, located near the entrances into the housing unit, as well as several posted in common areas (educational and vocational buildings) throughout the compound. The bulletins display multiple reporting instructions to include telling any staff member, filing an administrative remedy, TRULINCS, or writing to the Office of the Inspector General.

During the on-site visit, the Lead Auditor requested an up-to-date facility inmate roster which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster also provides inmate characteristics such as age, gender, race, ethnicity, and housing assignments. This allowed the Lead Auditor to accurately select a random representation of inmates for the interview process. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Lead Auditor conducted thirty-two random inmate interviews, and all thirty-two inmates recalled receiving both the initial PREA orientation upon arrival and the comprehensive orientation during the Admission & Orientation process. Each inmate also acknowledged the zero-tolerance policy on sexual abuse sexual harassment and the various ways to report such incidents. When questioned about third party reporting, twenty-two of the thirty-two inmates interviewed acknowledged how to submit a third-party report. In addition, several of the inmates referred to the PREA bulletins posted throughout the facility or utilizing TRULINCS as each contain directions on how to submit a third-party report.

During the pre-on-site phase of the audit, the Lead Auditor visited the agency's website and confirmed the availability for the public to submit a report of sexual abuse or sexual harassment on behalf of an inmate. The report may also be submitted anonymously.

Upon review of the policies and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Secondary Auditor conducted interviews with random staff members, and each staff member articulated the agency's zero-tolerance policy on sexual abuse and sexual harassment, their role and responsibilities regarding sexual abuse and sexual harassment prevention, detection, reporting, and response, how to communicate effectively and professionally with inmates, and an inmate right to be free from sexual abuse and sexual harassment. Staff members also acknowledged that reports concerning sexual abuse or sexual harassment, whether reported verbally or in writing, are considered confidential and must be documented immediately.

The Lead Auditor conducted interviews with Health Services and Psychology Services staff members regarding responsibilities to disclose to inmates the confidentiality limitations and reporting incidents of sexual abuse or sexual harassment. Agency Head Designee

Complex Warden

Random sample of Staff

Findings (By Provision):

115.62 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states when an agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, it shall take immediate action to protect the inmate.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states in cases where the alleged perpetrator is another inmate, the Operations Lieutenant is notified immediately and immediately safeguards the inmate (which will vary depending on the severity of the alleged sexually abusive behavior and could include monitoring the situation, changing housing assignments, changing work assignment, placing alleged victim and perpetrator in Special Housing, etc.). The Operations Lieutenant promptly refers all inmates reported or suspected of being the victim of sexually abusive behavior to Psychology Services for assessment of vulnerability and treatment needs. The Operations Lieutenant also notifies the Institution PREA Compliance Manager (IPCM).

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if the alleged perpetrator is a staff member, all options for safeguarding the inmate should be considered. The decisions made to safeguard the inmate should take impact on staff members into account, in accordance with the Master Agreement. Removal from the facility is an extreme measure, and other options include reassignment to another unit or post, or other measures that will effectively separate the staff member from the inmate.

The Secondary Auditor conducted interviews with random staff members and inquired about his/her actions if they received information that an inmate was in imminent risk of sexual abuse. Each staff member articulated the agency's response protocol to receiving such information and all staff members interviewed confirmed the priority is ensuring the safety of the inmate. Staff indicated that once the inmate who was at risk is secured, they would immediately notify the Operations Lieutenant and PCM.

The Lead Auditor conducted an interview with the Complex Warden and inquired as to what action is taken upon learning that an inmate is subject to a substantial risk of imminent sexual abuse. The Complex Warden informed the Lead Auditor that if staff determine an inmate is subject to a substantial risk of imminent sexual abuse, the inmate will be safeguarded and notifications will be made, to include PCM, Operations Lieutenant, SIS, Medical (Health Services), and Psychology Services for appropriate follow-up, investigation, and care.

The Lead Auditor conducted an interview with the Agency Head Designee regarding what action is taken upon learning that an inmate is subject to a substantial risk of imminent sexual abuse. The Agency Head Designee stated if an inmate is at risk of imminent sexual abuse the first thing staff will be responsible for is safeguarding the inmate by separating him from the potential danger. Our actions vary depending on the severity of the threat. If the possible threat is by another inmate, we may change the inmate's housing assignment, work assignment, or possibly place the inmate in the Special Housing Unit. If the possible threat is from a staff member, other options exist in addition to these, to include a change in the staff member's work assignment or removal from the facility while the investigation is conducted.

Upon review of the policy, observations made during the on-site facility tour, and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and

the requirements that complies with the PREA standard.

Findings (By Provision):

115.63 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states upon receiving an allegation that an inmate was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of the facility or appropriate office of the agency where the alleged abuse occurred.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states in cases where there is an allegation that sexually abusive behavior occurred at another Bureau facility, the Warden (or his/her designee) of the victim's current facility reports the allegation to the Warden of the identified institution. In cases alleging sexual abuse by staff at another institution, the Warden of the inmate's current facility refers the matter directly to the Office of Internal Affairs.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states for non-Bureau secure privatized facilities, jails, juvenile facilities, and Residential Reentry Centers, the Warden will contact the appropriate office of the facility and notify the Privatization Management or the Residential Reentry Management Branches, as appropriate. For non-Bureau facilities, the Warden (or his/her designee) contacts the appropriate office of that correctional agency.

115.63 (b - d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states such notification shall be provided as soon as possible, but no later than 72 hours after receiving the allegation. The agency shall document that it has provided such notification. The facility head or agency office that receives such notification shall ensure that the allegation is investigated in accordance with these standards.

In the twelve months prior to the audit, FCC Allenwood reported receiving two allegations of sexual abuse from another facility and FCC Allenwood reported receiving no allegations from FCC Allenwood

inmates alleging he was a victim of sexual abuse while confined at other facilities. During the Lead Auditor's documentation review, she was able to confirm the Warden-to-Warden notifications were completed in accordance with agency policy and the provision of this standard.

The Lead Auditor conducted an interview with the Complex Warden and asked what the process is when your facility receives an allegation from another facility or Bureau that an incident of sexual abuse or sexual harassment occurred at the facility. The Complex Warden assured the Lead Auditor that the allegation would be investigated in accordance with PS 5324.12 and the institution supplement.

The Lead Auditor conducted an interview with the Agency Head Designee and inquired if another agency or facility refers allegations of sexual abuse or sexual harassment that occurred within one of your facilities, is there a designated point of contact. The Agency Head Designee explained that typically, other agencies make the referral directly to the institution, specifically to the Warden. On other occasions, the agencies contact the Bureau of Prisons National PREA Coordinator if they are unsure how to contact the institution directly. In these cases, the National PREA Coordinator will forward the referral directly to the Warden of the institution. For notifications involving a facility within the agency, if the notification does not go directly to the Warden of the institution, the staff who receive the notification immediately forward it to the Warden so that the allegation can be appropriately investigated. The Warden determines whether the allegation(s) can be investigated locally or if it should be referred to the Office of Internal Affairs (OIA). The Lead Auditor inquired to the Agency Head Designee if there are examples of such allegations being reported from another facility or agency. The Agency Head Designee explained that each institution tracks referrals made to them by other facilities and/or agencies. Our agency would contact the other facility and work together to conduct the investigation to include interviews, statements, and evidence collection. All information and evidence would be provided to the facility responsible for completing the investigation.

Upon review of the policy, documentation, and investigative files, and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The investigation, in coordination with the agency to which the case may be referred, must follow the guidance given in agency policies and practices concerning evidence gathering and processing procedures.

The Secondary Auditor conducted random and specialized staff interviews regarding his/her role as a First Responder to an allegation of sexual abuse. Each staff member provided specific details of their responsibilities as a First Responder. These responsibilities include separating the victim and abuser, safeguarding the inmate victim, preserving, and protecting the crime scene, requesting that the alleged victim not take any actions that could destroy physical evidence, ensuring the alleged abuser does not take any actions, which would destroy physical evidence, and to immediately notify the Operations Lieutenant.

Findings (By Provision):

115.65 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states all staff report incidents of sexual abuse to the Operations Lieutenant. The Operations Lieutenant immediately safeguards the inmate. The Operations Lieutenant promptly refers all inmates reported or suspected of being the victim of sexually abusive behavior to the Health Services for physical assessment and documentation of injuries and to Psychology Services for assessment of vulnerability and treatment needs.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Operations Lieutenant ensures that the SIS, Chief of Correctional Services, Institution PREA Compliance Manager (IPCM), and Warden are notified.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the Institution PREA Compliance Manager (IPCM) will review relevant factors and make a determination whether or not to proceed with full activation of the *Response Protocol*. Once the Institution PREA Compliance Manager (IPCM) determines that the intervention should continue, a sensitive and coordinated response is necessary. Services will be provided in an environment that meets both security and therapeutic needs.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the full *Response Protocol*, monitored by the Institution PREA Compliance Manager (IPCM), involves the following components:

- Correctional Services safeguard the inmate; engage in evidence collection and preservation at the institution, including inmate clothing and footwear; investigate cases involving inmate perpetrators; arrange for outside medical trips if necessary; and ensure that STG categories for victims and predators are entered into SENTRY.
- Psychologists are responsible for crisis intervention, assessment of treatment needs, documentation of the evaluation results, treatment, psychiatric referral, and other treatment options related to the alleged victim. Psychologists also notify the qualified agency staff member or the outside victim advocate, if necessary, to assist the inmate.
- Properly trained Health Services clinicians are responsible for assessment, examination, documentation, and treatment of inmate injuries arising from incidents of sexual abuse, including testing when appropriate for pregnancy, HIV, and other sexually transmissible infections (STIs). Where indicated, medical staff, trained in the collection of sexual assault evidence should conduct an examination for physical evidence that may be used later in formal investigations, or refer the inmate to trained health care professionals from the local community or the local community facility equipped to evaluate and treat sexual assault victims.

During the pre-on-site phase of the audit, the Lead Auditor reviewed the above *FCC Allenwood Response Protocol*. The plan is detailed, provides systematic instructions, and outlines the roles and responsibilities for all staff, to include first responders, Health Services, Psychology Services, investigators, and facility leadership, responding to an incident of sexual abuse.

The Lead Auditor conducted an interview with the Complex Warden and inquired as to the implementation of the *FCC Allenwood Response Protocol*. The Complex Warden provided a detailed description of the response plan which outlines the local coordinated actions among staff first responders, medical and mental health practitioners, investigators, and facility leadership in response to an incident of sexual abuse.

Upon review of the policies and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Interviews conducted with:

Designated Member Charged with Monitoring Retaliation

Complex Warden

Agency Head Designee

On-site Review Observations:

Investigative files (9)

Findings (By Provision):

115.67 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* the agency shall establish a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation

by other inmates or staff and shall designate which staff members or departments are charged with monitoring retaliation.

115.67 (b) – Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall employ multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

115.67 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states for at least 90 days following a report of sexual abuse, the agency shall monitor the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff and shall act promptly to remedy any such retaliation.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states items the agency should monitor include any inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

115.67 (d, e) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states in the case of inmates, such monitoring shall also include periodic status checks. If any other individual who cooperates with an investigation expresses a fear of retaliation, the agency shall take appropriate measures to protect that individual against retaliation.

115.67 (f) – The Lead Auditor is not required to audit this provision.

The Lead Auditor conducted an interview with the designated staff member required to monitor staff and inmates who have reported sexual abuse allegations to protect them from retaliation. The Staff Member monitors inmates and staff to ensure there is no retaliation for alleging or reporting sexually abusive behavior. For inmates, this monitoring (90 days) includes housing and cell assignments, work assignments, programming changes, and disciplinary action. For staff, the monitoring (90 days) includes

reassignment of work, posts, performance evaluations, and shift changes. If there is a concern that potential retaliation might occur beyond the 90 days, the Staff Member would continue to monitor conduct and treatment until the issue or threat is resolved.

The Lead Auditor reviewed nine investigative files and noted that each file contained forms showing the retaliation monitoring interviews that were conducted with inmates who previously alleged sexual abuse or sexual harassment. Each form provided a detailed explanation of the interview, statements from the inmate, and comments from the PCM. The monitoring interviews were conducted on the 30-, 60-, and 90-day review dates. In addition to these reviews, periodic checks were also documented in real time in-between the 30-, 60-, and 90-day reviews to document housing or work assignment changes.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate if he feels protected against possible revenge from staff or inmates for reporting an incident of sexual abuse. Each inmate acknowledged feeling safe within the facility and if there was a need or concern, he would report to a staff member.

The information provided by the facility in the PAQ indicated there were no incidents of retaliation reported by inmates during the 12-month auditing period. The Lead Auditor further verified this information during documentation review and through her interview with the USP PCM who confirmed the information previously provided by the facility. Therefore, inmates in this targeted category were not interviewed.

The Lead Auditor conducted an interview with the Complex Warden and inquired on the different measures taken to protect inmates and staff from retaliation for reporting allegations of sexual abuse or sexual harassment. The Complex Warden confirmed appropriate measures would be taken to protect inmate victims if retaliation is suspected, such as a review of housing, work, and program assignments to aid with their protection. For staff victims where retaliation is suspected a thorough review of performance and assignment to aid with their protection would occur. For the suspected perpetrators of retaliation, investigations would take place, and disciplinary measures would be pursued when appropriate.

The Lead Auditor conducted an interview with the Agency Head Designee and inquired how the agency protects inmates or staff from retaliation for sexual abuse or sexual harassment allegations. The Agency Head Designee explained the IPCM monitors inmates and staff to ensure there is no retaliation for alleging or reporting sexually abusive behavior. For inmates, this monitoring includes housing and cell assignments, work assignments, programming changes, and disciplinary action. For staff, the monitoring includes reassignment of work, posts, performance evaluations, and shift changes. In addition, to ensure their mental and emotional wellbeing is cared for, the staff members being monitored will be offered psychological services.

The Lead Auditor inquired to the Agency Head Designee if an individual cooperates with an investigation expresses a fear of retaliation, what measures the Bureau takes to protect that individual against retaliation. The Agency Head Designee explained the individual would be monitored in the same manner as the individual who reported the allegation and would be protected against such retaliation. The protection can take the form of changing housing or work assignments, transfers, changing work supervisors, or other actions that prevent retaliation. In addition, to ensure their mental and emotional wellbeing is cared for, the staff members being monitored will be offered psychological services.

Upon review of the policy and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program*

BOP Form BP-A1002, *Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation*

Interviews conducted with:

Complex Warden

Findings (By Provision):

115.68 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states any use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse shall be subject to the requirements of §115.43.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs,

privileges, education, or work opportunities, the facility shall document:

1. The opportunities that have been limited;
2. The duration of the limitation; and
3. The reasons for such limitations.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days. If an involuntary segregated housing assignment is made, the facility shall clearly document:

1. The basis for the facility's concern for the inmate's safety; and
2. The reason why no alternative means of separation can be arranged.

BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.

The Lead Auditor conducted an interview with a Facility Staff Member who supervises inmates in segregated housing. The Lead Auditor inquired to the Facility Staff Member if an inmate is placed in segregated housing for protection from sexual abuse or after having alleged sexual abuse, what restrictions are placed on the inmate. The Facility Staff Member articulated that inmates placed in the Special Housing Unit (SHU) do not have restrictions and retain the same privileges as inmates in general population housing, to include participating in programs and education opportunities. The Facility Staff Member explained if an inmate has restrictions, it would be limited, and the Chief of Correctional Services ensures that proper documentation exists reflecting the limitations, duration, and rationale for the limitations.

During the 12 months prior to the audit, the facility reported there were no inmates who reported sexual abuse, being assigned to involuntary segregated housing. During the on-site phase of the audit, the Lead Auditor reviewed the investigative files and confirmed the inmates who reported sexual abuse were not placed into involuntary segregated housing. The Lead Auditor also confirmed this information in interviews with facility staff. Therefore, inmates in this targeted category were not interviewed.

The Lead Auditor conducted an interview with the Complex Warden regarding inmates who alleged sexual abuse. The Complex Warden explained that inmates at high risk for sexual victimization or who have alleged sexual abuse shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. Additionally, the Complex Warden explained the use of the Special Housing Unit (SHU) for involuntary protective custody due to risk of sexual abuse victimization or to provide protective custody to an alleged victim of sexual abuse will occur as a last resort. If an assessment cannot be completed immediately, and if it is safe to do so, the inmate would be held in the SHU for less than 24 hours while completing the assessment. Any limits on programming due to involuntary segregated housing would be documented.

Upon review of the policy and documentation provided and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

BOP Program Statement 5508.02, *Hostage Situations or Criminal Actions Requiring FBI Presence* states the FBI has the investigative responsibility for criminal activities at all Bureau facilities. Additionally, in

accordance with the existing MOU between the BOP and the FBI, upon the occurrence of any incident that may involve a criminal act, the BOP will take immediate action to preserve the scene of the incident and immediately notify the appropriate designated FBI representative of the incident.

During the pre-on-site phase of the audit, the Lead Auditor reviewed the existing Memorandum of Understanding between the BOP and the Federal Bureau of Investigation. The MOU establishes interagency operational procedures and guidelines for the FBI and the BOP regarding violations of deferral criminal statutes occurring in BOP facilities, on BOP property, or which involve BOP staff. Additionally, the MOU defines the respective roles and responsibilities of the BOP and the FBI, to include policy, training, and practice compliance with regulations and standards. The MOU also establishes and in accordance with Title 28 CFR §115.21(g) (2), the FBI shall follow a uniform evidence protocol consistent with §115.21(a)-(f).

During the on-site phase of the audit, the Lead Auditor conducted an interview with a Special Investigative Agent (SIA) who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The SIA provided the Lead Auditor with a complete overview of the investigative process as it relates to sexual abuse and sexual harassment. In general, the Office of the Inspector General (OIG) of the Department of Justice investigates potential criminal cases involving staff-on-inmate sexual abuse. The Office of Internal Affairs (OIA) of the Bureau of Prisons investigates administrative cases of staff-on-inmate sexual abuse or harassment. Institution investigative staff, the Special Investigative Services (SIS), investigates all other cases. When an inmate-on-inmate allegation of sexual abuse is deemed possibly criminal in nature, it is referred to the Federal Bureau of Investigation (FBI) for investigations. During the pre-on-site phase of the audit, the Lead Auditor reviewed *DOJ/OIG PREA Training* curriculum, and the FBI *Domestic Investigations and Operations Guide* that confirmed compliance with all investigatory requirements under the PREA standards.

The Lead Auditor reviewed nine investigations thoroughly and systematically to ensure each investigation contained all the correct procedures, completed documentation, and that all processes were completed as required, including the report findings. The investigations were selected and reviewed based upon the initial reporting method, the outcome or investigation status (closed or open), and the Lead Auditor's requirement to review all the required steps and processes to verify

compliance with multiple PREA Standards. Each investigation reviewed by the Lead Auditor contained all documented reports for that specific incident, inmate notifications, a description of the physical and testimonial evidence, the reasoning behind credibility assessments and the investigative facts and findings. Additionally, the report included an assessment as to whether staff actions or a failure to act on the part of staff contributed to the abuse.

The Lead Auditor found each investigation contained all the appropriate documentation, and determined that the incidents were investigated promptly, thoroughly, and objectively by a qualified Special Investigative Agent who has received training and education and has the authority to conduct such investigations. The Lead Auditor noted each file contained documentation to include but not limited to the initial incident report, SIS report, PREA OneSource Checklist, Memorandums, Institution Medical Assessment, Psychology Report, Hospital Report (if applicable), 30-Day Sexual Abuse Incident Review, 90-day Retaliation Checks, Photographs, Crime Scene log, Chain of Custody, SENTRY documentation, and Victim Notification.

Upon completion of reviewing the investigative files, the Lead Auditor determined that the facility (to include but not limited to Staff First Responders, Operations Lieutenant, PREA Compliance Manager, Health Services, Psychology Services, and Facility Leadership, etc.) followed the required steps and processes for reported allegations. At the time of the Lead Auditor's review, there were no investigations referred to prosecution.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate, did the facility require them to submit to a polygraph test as a condition for proceeding with the investigation. Each inmate informed the Lead Auditor that no one required them to complete a polygraph test as a condition of proceeding with the investigation.

Upon review of the policies and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Interviews conducted with:

Investigative Staff

Findings (By Provision):

115.72 (a) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states the agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. The BOP applies this section in accordance with its disciplinary/adverse action process and collective bargaining

agreement, and applicable laws, rules, and regulations.

The Lead Auditor conducted an interview with a Special Investigative Agent (SIA) who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The SIA provided the Lead Auditor with a complete overview of the investigative process as it relates to sexual abuse and sexual harassment. The Special Investigative Agent or SIA is responsible for conducting administrative sexual abuse investigations within the facility.

The SIA articulated the investigative process beginning with initial notification, investigation of the allegation, understanding the impact of victim trauma, techniques for interviewing sexual abuse victims, preservation of crime scene and evidence collection, proper use of *Miranda* and *Garrity*, and criteria required for administrative action and prosecution referrals. The Lead Auditor inquired to the SIA what standard of evidence is required to substantiate allegations of sexual abuse or sexual harassment. The SIA explained that the agency should impose no standard higher than a preponderance of the evidence.

Upon review of the policy and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Special Investigative Services Lieutenant provides all notifications to inmates required under this provision.

115.73 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if the agency did not conduct the investigation, it shall request the relevant information from the investigative agency in order to inform the inmate.

115.73 (c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states, following an inmate's allegation that a staff member has committed sexual abuse against the inmate, the agency shall subsequently inform the inmate (unless the agency has determined the allegation is unfounded) whenever:

The Lead Auditor conducted an interview with the Special Investigative Agent (SIA) and inquired about the agency's notification procedures, to an alleged victim of sexual abuse, when the case is closed and

whether the allegation has a final determination of substantiated, unsubstantiated, or unfounded. The SIA confirmed such notifications were completed by the Special Investigative Lieutenant, which is documented, and the notification is retained in the case file.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate, if the facility notified him of the final decisions made regarding the allegation and if such notification was in writing. Each inmate interviewed confirmed to the Lead Auditor he was notified by staff of the case disposition. The Lead Auditor verified the notification while reviewing the investigative files and the inmate notification contained the date, case disposition, and inmate signature.

During the on-site phase of the audit, the Lead Auditor reviewed nine investigative files from the twelve-month auditing period. The investigative files that were closed included a final disposition and contained an inmate notification form documenting the outcome of the case (substantiated, unsubstantiated, or unfounded) with the signature of the inmate documented on the notification.

The Lead Auditor conducted an interview with the Complex Warden and inquired regarding how the facility notifies an inmate who makes an allegation of sexual abuse when the case is closed and a determination as to either substantiated, unsubstantiated, or unfounded. The Complex Warden confirmed that the Special Investigative Services Lieutenant would complete the victim notification process.

Upon review of the policies and upon completion of the interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

115.81 (a, c) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if the screening pursuant to §115.41 indicates that a prison inmate or jail inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.

115.81 (b) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states if the screening pursuant to §115.41 indicates that a prison inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.

115.81 (d) – BOP Program Statement 5324.12, *Sexually Abusive Behavior Prevention & Intervention Program* states any information relating to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, state, or local law.

The Lead Auditor reviewed fifty *PREA Intake Objective Screening Instrument* screening forms from the

files of the inmates selected for the random and targeted inmate interviews. Each file contained the initial risk screening form as well as the 30-day reassessment form; all were filled out completely and in accordance with the facility's policy.

The Lead Auditor conducted an interview with a Staff Member responsible for conducting screenings for risk of victimization and abusiveness. The Staff Member provided the Lead Auditor with a complete overview of the inmate risk screening process to include how all inmates are screened the same day of arrival. The Staff Member confirmed that all risk screening interviews are conducted privately, and any information obtained in the interview is strictly used to determine an inmate's risk of sexual victimization or abusiveness and he confirmed such sensitive information is limited to staff for the purpose of security, management, and treatment decisions (housing, programming, work assignments, etc.).

The Lead Auditor inquired to the Staff Member what actions are taken against inmates who refuse to cooperate or answer the questions in the risk screening process. The staff member responded that inmates are not required to provide answers. The staff member confirmed that inmates are not disciplined for refusing to cooperate or answer the questions in the risk screening process.

The Lead Auditor conducted interviews with staff members from Health Services and Psychology Services and inquired to each if an inmate has disclosed experiencing prior sexual victimization upon intake into the facility or if records indicate an inmate has perpetrated sexual abuse, are follow-up meetings provided to each inmate. Each staff member confirmed that such meetings are offered to inmates who have previously experienced prior sexual victimization, whether it is in an institutional setting or in the community. Each staff member also confirmed that inmates who have perpetrated sexual abuse are also offered these services as well; it is at the discretion of the inmate whether to participate.

The Lead Auditor conducted interviews with inmates who disclosed prior sexual victimization. Each inmate confirmed to the Lead Auditor that they were offered the opportunity to meet with Psychology Services during the risk screening process; one of the inmates accepted the opportunity to meet with Psychology Services, and confirmed the meeting occurred within a couple of weeks. The remaining inmates declined the opportunity to meet with Psychology Services. The Lead Auditor was able to

confirm the information provided by each inmate during the documentation review process.

Upon review of the policy, documentation, and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Lead Auditor conducted interviews with Health Services and Psychology Services staff members at the facility. Each staff member confirmed that inmate victims are provided immediate access to medical treatment as well as crisis intervention, therapy, and counseling services. The Psychology Services staff member explained the services provided at the facility include one-on-one counseling, and support groups. These services are offered for victims of sexual abuse or sexual harassment as well as offenders of sexual abuse.

The Secondary Auditor conducted interviews with random staff members. Each staff member interviewed articulated the agency's zero-tolerance policy on sexual abuse and sexual harassment, their role and responsibilities regarding sexual abuse and sexual harassment prevention, detection, reporting, and response, how to communicate effectively and professionally with inmates, and an inmate right to be free from sexual abuse and sexual harassment. Staff members also acknowledged that reports concerning sexual abuse or sexual harassment, whether reported verbally or in writing, are considered confidential and must be documented immediately.

The Lead Auditor conducted targeted interviews with inmates who reported an incident of sexual abuse and inquired to each inmate, after reporting, did the facility allow him to contact anyone. One inmate confirmed to the Lead Auditor, after reporting the incident, he was able to meet with Psychology Services and was provided additional information on advocacy services provided by the Transitions of Pennsylvania. The remaining inmate interviewed could not recall specific information related to being offered victim advocacy services or not, however, the inmate informed the Lead Auditor that his lack of memory does not imply the services were not offered.

Upon review of the policy, secondary medical documentation, and upon completion of interviews, FCC Allenwood demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.
