As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.	25
<b>Number of inmate housing units:</b>  Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.	18

*Targeted Inmate/Resident/Detainee Interviews*

33. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:  <i>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.</i>  <i>For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed.</i>  <i>If a particular targeted population is not applicable in the audited facility, enter "0".</i>	20

<b>Site Review and Documentation Sampling</b>	

### Site Review

*PREA Standard 115.401(h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.*

59. Did you have access to all areas of the facility? ☒ Yes ☐ No

a. If no, explain what areas of the facility you were unable to access and why. N/A

Was the site review an active, inquiring process that included the following:

### Documentation Sampling

*Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.*

65. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation? ☒ Yes ☐ No

<b>66. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b>  <i>Note: as this text will be included in the audit report, please do not include any personally identifiable information or other information that could compromise the confidentiality of any persons in the facility.</i>	N/A

All Yes/No Questions Must Be Answered by The Auditor to Complete the Report

#### 115.11 (a)

- Does the agency have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment? ☒ Yes ☐ No
- Does the written policy outline the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment? ☒ Yes ☐ No

#### 115.11 (b)

- Has the agency employed or designated an agency-wide PREA Coordinator? ☒ Yes ☐ No
- Is the PREA Coordinator position in the upper-level of the agency hierarchy? ☒ Yes ☐ No
- Does the PREA Coordinator have sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities?  
☒ Yes ☐ No

#### 115.11 (c)

- If this agency operates more than one facility, has each facility designated a PREA compliance manager? (N/A if agency operates only one facility.) ☒ Yes ☐ No ☐ NA
- Does the PREA compliance manager have sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards? (N/A if agency operates only one facility.)  
☒ Yes ☐ No ☐ NA

#### Auditor Overall Compliance Determination

- ☐ **Exceeds Standard** (*Substantially exceeds requirement of standards*)

#### Documents:

1. Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program

2. Institution Supplement CRW 5324.12c, Sexually Abusive Behavior Prevention and Intervention Program
3. Federal Bureau of Prisons Organizational Chart

Interviews:

1. PREA Coordinator
2. PREA Compliance Manager

Findings (by provision):

115.11 (a): The agency has a comprehensive PREA policy: PS 5324.12, *Sexually Abusive Behavior Prevention and Intervention Program*. Institution Supplement CRW 5324.12c, further supplements the agency's policy. The agency has a zero-tolerance policy towards all forms of sexual abuse and sexual harassment which is outlined on page 1 of PS 5324.12. The policies outline the strategies on preventing, detecting and responding to such conduct and include definitions of prohibited behavior. Agency policies address preventing sexual abuse and sexual harassment through the designation of a PREA Coordinator (PC); criminal history background checks for staff, contractors and volunteers; training for staff, contractors and volunteers; staffing levels, intake/risk screening for inmates, inmate education and posting of PREA information. The policies address detecting sexual abuse and sexual harassment through training (staff, volunteers and contractors), and intake / risk screening of inmates. The policies address responding to allegations of sexual abuse and sexual harassment through reporting, investigations, victim services, medical and mental health services, disciplinary sanctions for staff and inmates, incident reviews and data collection. This policy is consistent with the PREA standards and outlines the agency's approach to sexual safety.

115.11 (b): The agency's organizational chart reflects that the PC position is an upper-level position with agency-wide oversight. The PC reports to the Assistant Director, Reentry Services Division. The PC provides guidance through six regional PREA Coordinators and 120 PREA Compliance Managers (ICPMs). The PC was interviewed during the Agency Audit and stated that she has sufficient time and authority in her position to accomplish PREA responsibilities for the agency.

115.11 (c): The facility has designated an Associate Warden as the staff member responsible for ensuring PREA compliance. The PAQ indicated that the PREA Compliance Manager (PCM) has sufficient authority and time to coordinate the facility's PREA efforts. The facility's organizational chart confirms that the Associate Warden is responsible for PREA compliance and that she reports directly to the Warden. The interview with the acting Associate Warden, who is also the PREA Compliance Manager, indicated that she has sufficient time to coordinate the facility's PREA compliance.

Based on the review of the PAQ and related documents, it is evident that the agency has a PREA policy. The agency has designated an upper-level PC as verified through the organizational chart and each institution / facility has a PREA Compliance Manager which is also evidenced in the organizational chart. PREA implementation is determined to comply with the standard. The preparation for the audit and overall incorporation of institutionalized PREA

standards demonstrate that the PC and the PCM have sufficient time and authority to accomplish PREA responsibilities for the agency and the facility.

## Standard 115.12: Contracting with other entities for the confinement of inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

### 115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☐ Yes ☐ No ☒ NA

### 115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☐ Yes ☐ No ☒ NA

### Auditor Overall Compliance Determination

### Documents:

1. Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program
2. BOP Program Review Division, Assistant Director Memorandum

### Interviews:

1. none

### Findings (by provision):

115.12 (a): The agency provided a Memorandum from the BOP Assistant Director. The BOP has moved away from contracting with private prisons per the President's Executive Order on Reforming Our Incarceration System to Eliminate the Use of Privately Operated Criminal Detention Facilities on January 26, 2021. As such, no new contracts have been executed and

previously existing contracts with privately operated detention facilities have expired. Pursuant to the memo, the auditor was not provided further information from the Bureau's Contract Administrator. Based on this analysis, the auditor finds the institution in compliance with this provision.

115.12 (b): Pursuant to the memo, the auditor was not provided further information from the Bureau's Contract Administrator. Based on this analysis, the auditor finds the institution in compliance with this provision.

Findings (By Provision):

115.13 (a): In the PAQ, the agency provided PS 5324.12, Sexually Abusive Behavior Prevention and Intervention Program. This policy states that the Human Resource Management Division and Administration Division must consider PREA factors and safety, in general, when allocating overall staffing resources. The staffing plan takes into consideration generally accepted detention practices, any judicial findings of inadequacy, any finding of inadequacy from federal investigative agencies, any finding of inadequacy from internal or external oversight bodies, all components of the facility's physical plant, the composition of the inmate population, the number and placement of supervisory staff, the institutional programs occurring on a particular shift, any applicable state or local laws, the prevalence of substantiated and unsubstantiated incidents of abuse and any other relevant factors.

The PAQ indicated that the current staffing is based on the average daily number of inmates since the last PREA audit, which is 1133. The facility employs 420 staff. The Memorandum

regarding the PREA annual Assurance audit states that an assessment was conducted during the Annual Salary / Workforce Utilization Committee Meeting held October 28, 2024. As of the date of this meeting, the staffing percentage was 92%.

Interviews with the Warden and the PCM confirmed that the facility has a staffing plan which provides adequate staffing levels and that they refer with the plan on a regular basis. The PCM indicated that each BOP facility receives a quarterly report which lists a summary of all program review deficiencies. These reports are reviewed to determine if there are any necessary changes to policies procedure and practices. The PCM also indicated that they review the National PREA Coordinator reports to monitor any trends and make appropriate modifications. The PCM indicated that the plan is reviewed quarterly and also during any monthly program reviews. The Warden indicated that the facility reviews the plan and the facility to eliminate any blind spots, to place staff in high traffic areas and areas that have special populations. The Warden indicated that staff review the population to include aggressors and victims and determine any areas of weakness at the facility for these individuals. The Warden also indicated that posts are not authorized to be unmanned, and overtime or mandatory overtime would be utilized, if necessary.

115.13 (b): The PAQ stated that each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. The facility provided a Memo from the Warden regarding Deviation from Staffing Plan. The most common reasons for deviating from the staffing plan in the past 12 months were: retirement, promotion, separation, funding, hiring and over hiring.

The Warden indicated in the interview that the facility will pay overtime or mandate mandatory overtime. He also indicated they could augment with non-custody staff, if needed.

115.13 (c): The staffing plan is reviewed quarterly by the Salary/Workforce Utilization Committee. The plan was reviewed to assess, determine and document whether any adjustments were needed to the staffing plan, the deployment of video monitoring technologies and/or the resources available to commit to ensuring adherence to the staffing plan. The PC confirmed in the interview that she is consulted annually with regard to a review of the staffing plans for institutions. She indicated that the Human Resource Management Division and the Administration Division allocates overall staffing resources.

115.13 (d): PS 5324.12 indicates that the Institution Duty Officer (IDO) is required to make weekly unannounced rounds on all shifts to identify and deter sexual abuse and sexual harassment. These rounds are required to be documented and forwarded to the PCM for retention. Additionally, the Institutional Supplement indicates that unannounced rounds by supervisory staff conducted with the intent of identifying and deterring sexual abuse and sexual harassment are conducted every week.

A review of the PAQ supplemental documentation indicated that unannounced rounds are being conducted weekly by the IDO in all locations at the facility as well as by the Shift Lieutenant(s). Additionally, PS 5324.12 prohibits staff from alerting other staff members that the supervisory rounds are occurring, unless such announcement is related to legitimate operational functions of the facility. A review of documentation of unannounced rounds in each

housing unit for the Shift Lieutenant indicated that rounds were conducted at least once on each shift in each of the housing units. During the interviews, supervisory staff indicated that they deviate their times and vary locations from unit to unit instead of in a consistent pattern in order to prevent staff from alerting other staff that rounds are occurring.

Based on a review of the Pre-Audit Questionnaire (PAQ), PS 5324.12, CRW-5324.12c, the staffing plan, memorandums, annual reviews, documentation of unannounced rounds, observations made during the site review and interviews with supervisory staff, the Warden, the PC, and the PCM, the standard is determined to be compliant.

2. Random Inmates
3. Transgender Inmates

#### Site Review Observations:

1. Individual Showers in Housing Units with Visibility Barriers

#### Findings (By Provision):

115.15 (a): PS 5521.06 discusses visual searches and body cavity searches. This policy indicates that visual searches are to be conducted by staff of the same gender as the inmate, except where circumstances indicate that such a delay would mean the loss of contraband. In

such a case, this exception would be documented in the inmate's central file. This policy also indicates that body cavity searches are only conducted by qualified health personnel upon the approval of the Warden or Acting Warden and such searches are documented in the inmate's central file. The PAQ indicated that no searches of this kind were conducted at the facility over the past twelve months.

115.15 (b): The PAQ indicated that the facility does not permit cross-gender pat-down searches of female inmates, absent exigent circumstances. Additionally, the PAQ indicated that the facility does not restrict female inmates' access to regularly available programming or other out-of-cell opportunities in order to comply with the provision. PS 5521.06, page 3, states that cross-gender pat-down searches of female inmates are not permitted, absent exigent circumstances. As a result, male staff are not permitted to pat search female inmates, unless exigent circumstances exist. This institution does house female inmates.

115.15 (c): PS 5521.06 discusses visual searches and body cavity searches. Page 4 indicates that visual searches are to be conducted by staff of the same gender as the inmate, except where circumstances indicate that such a delay would mean the loss of contraband. In such a case, this exception would be documented in the inmate's central file. Page 5 indicates that body cavity searches are only conducted by qualified health personnel upon the approval of the Warden or Acting Warden and such searches are documented in the inmate's central file. The PAQ indicated that no cross-gender searches have been conducted in the previous twelve months.

115.15 (d): PS 5324.12 specifies policies and procedures which enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The memorandum regarding Cross Gender Viewing and Searches stated that as of the dates of the on-site audit, there have been no exigent circumstances at the facility requiring cross gender viewing of an inmate by a staff member.

Interviews with random inmates and interviews with random staff indicated that inmates have privacy when showering, using the restroom, and changing clothes. Interviews also confirm that staff of the opposite gender announce their presence when entering a housing unit and an announcement is routinely made over the loudspeaker. During the site review, the auditor heard the opposite gender announcement being made. The auditor observed that all housing units had individual showers with a curtain which allowed coverage of inmates from the shoulders to the knees. Toilets in these housing units are not in full view of staff but were private with individual stalls with doors.

115.15 (e): A memorandum from the PREA Compliance Manager indicated that a staff member shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. The PAQ indicated that there had been no searches of this nature within the past twelve months. Interviews with staff indicated that these types of searches were not authorized to be conducted by staff. Interviews with transgender inmates at this facility and interviews with random staff indicated that searches of this nature were not conducted at this facility.

115.15 (f): The Sexually Abusive Behavior Prevention and Intervention Program Annual Training Curriculum indicated that staff are trained on conducting cross gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner on the first day of the annual training. A review of the training curriculum confirms that the training covers cross gender pat-searches and searches of transgender and intersex inmates. The PAQ indicated the 100% of staff had received this training. A review of a random sample of training records indicated that the staff reviewed had received the search training, which included a video on searches. Interview with a random sample of staff indicated that they all had received this training during the previous year.

Based on a review of the PAQ, PS 5521.06, PS 5324.12, the Sexually Abusive Behavior Prevention and Intervention Program training curriculum, the Memorandum from the Warden, a random sample of staff training records, observations made during the site review of housing units to include bathrooms with individual showers with privacy curtains, the opposite gender announcement as well as information from interviews with random staff and transgender inmates and female inmates indicate that this standard is compliant.

115.16 (a): PS 5324.12, page 19 and CRW-5324.12c, establishes guidelines to providing disabled inmates an equal opportunity to benefit from all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The PCM is responsible for reaching out to local disabilities assistance offices to ensure the facility is providing effective communication accommodations when needed. A review of PREA signage, PREA directives and inmate informational materials confirmed that information is provided in a manner which is in large font, bright colors and has accompanying pictures to the word directives. The interview with the Agency Head Designee indicated that inmates receive PREA information in a format that they can understand. The Memorandum Regarding Inmates with Disabilities stated that inmates who are hearing impaired are provided with written materials for PREA information or provided the information through the VRS system. Visually impaired inmates or those with limited reading abilities are given verbal PREA information. Inmates who are not proficient in English are provided Spanish PREA information or, if not Spanish speaking, inmates are provided service through the language line service contract.

During the on-site visit, the auditor was able to interview inmates with limited reading proficiency and LEP inmates. These inmates' files indicated that they received PREA

information and they understood the information. During the site review, the PREA signage was observed to be in large text and in bright colors as well as in English and Spanish.

115.16 (b): PS 5324.12, page 20 and CRW-5324.12c, establishes the procedure to ensure meaningful access to all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment to inmates who are Limited English Proficient (LEP). The PCM is responsible for reaching out to available interpretation services to ensure the facility is providing effective communication accommodations. The facility has several staff who are bilingual and assist in translation, when needed. The agency has a contract with Language Line Solutions to provide translation services for inmates who are LEP. This is a service the facility can call which will translate information between the staff member and LEP inmate. A review of PREA posters, the inmate handbook, PREA directives and inmate educational information, confirmed that information is available in both English and Spanish. Interviews with the Agency Head designee and inmates who are LEP indicated that inmates received PREA information in a format that they can understand. Additionally, the auditor was able to utilize staff interpreters during the audit. A review of a sample of files for LEP inmates indicated that they received PREA information and they understood the information. During the site review, it was observed that PREA signage was posted throughout the facility in English and Spanish.

115.16 (c): PS 5324.12, page 20 and CRW-5324.12c, page 4, prohibits the use of inmate interpreters, readers or any other type of inmate assistants for allegations of sexual abuse and sexual harassment, except in limited circumstances where an extended delay could compromise the inmate's safety. The PAQ indicated that there were no instances where an inmate was utilized to interpret, read or provide other types of assistance. Interviews with a random sample of staff indicated that inmates are not utilized to translate for PREA purposes. Interviews with LEP inmates indicated that other inmates were not utilized, however, they did receive assistance from staff related to understanding PREA documents and the information contained in them.

Based on a review of the PAQ, PS 5324.12, CRW-5324.12c, the Language Line Solutions contract, a review of PREA signage and information, the inmate handbook, observations made during the site review to include PREA signage as well as interviews with the Agency Head Designee, random staff, and LEP inmates indicates that this standard is compliant.

115.17 (b): PS 5324.12 states that the agency shall consider any incidents of sexual harassment in determining whether to hire or promote anyone or to enlist the services of any contractor, who may have contact with inmates.

115.17 (c): PS 5324.12 states that before hiring new employees who may have contact with inmates, the agency shall perform a criminal background record check and consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. The PAQ indicated that all of those hired in the past twelve months that may have contact with inmates had received a criminal background check and prior institutional employers were contacted. A review of personnel files of staff hired in the previous twelve months indicated that 100% had a criminal background check completed and all prior institutional employers contacted. Additionally, all staff are fingerprinted, and any future arrest is automatically reported to the agency through the National Background Investigations Bureau. Human Resource staff indicated that all staff are required to have a criminal background check before they are hired, institutional checks, neighborhood checks and numerous other checks are part of the background investigation process.

115.17 (d): PS 5324.12 states the agency shall also perform a criminal background record check before enlisting the services of any contractor who may have contact with inmates. The PAQ indicated that there have been 8 contracts at the facility within the past twelve months. A review of current contractor personnel files indicated that a criminal background check had been conducted. Human Resource staff indicated that all contractors have a criminal background check completed prior to enlisting their services.

115.17 (e): PS 5324.12 states the agency shall either conduct criminal background records checks at least every five years of current employees and contractors who may have contact with inmates or have in place a system for otherwise capturing such information for current employees. The PAQ indicated that the agency requires either criminal background checks to be conducted at least every five years for current employees and contractors or have a system in place for otherwise capturing such information for current employees. The agency utilizes the National Background Investigations Bureau. All employees are fingerprinted, and all subsequent FBI criminal arrest information is forwarded back to the agency. Additionally, Security and Background Investigation Section (SBIS) tracks the timeline of background investigations for the Bureau. Mass emails are sent to each staff member as well as the Human Resource staff at the facility where the staff works to initiate the re-investigation

process for the five-year background check. Staff are required to take the appropriate steps to complete the process by a due date to ensure the background check is completed on time. The interview with the Human Resource staff confirmed that all staff and contractors have a criminal background check completed every five years.

115.17 (f): PS 5324.12 states the agency shall ask all applicants and employees who may have contact with inmates directly about previous misconduct in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct. The PAQ indicates that the agency will ask all applicants and employees who have contact with inmates directly about whether they have: engaged in sexual abuse in prison, jail, lockup or any other institution, been convicted of engaging or attempting to engage in sexual activity in the community or been civilly or administratively adjudicated to have engaged in sexual abuse by force, overt or implied threats of force or coercion through a written application, during any interviews or through any written self-evaluations as part of a review of current employees. A review of the eligibility questions on the USAJobs application indicated that the three questions are required to be answered electronically for all applicants. A review of personnel files for staff who were hired in the previous twelve months indicated that all had completed an application and were required to answer the eligibility questions. All staff had a background check completed which included their criminal history, credit history and other record inquiries. Additionally, the interview with Human Resource staff confirmed that these questions are contained on the eligibility questions section on the USAJobs Application, which is required for all applicants.

115.17 (g): The PAQ indicates that material omissions regarding sexual misconduct or the provision of materially false information is grounds for termination. The Questionnaire for Public Trust Positions indicates that falsifying or concealing facts is a felony which can result in fines and up to five years in prison. Human Resource staff confirm that any false information or omissions would result in an employee or contractor being terminated.

115.17 (h): The Memorandum for Human Resource Managers documented that the agency provides information related to substantiated allegations of sexual abuse or sexual harassment involving a former employee to institutional employers for whom the employee has applied to work. Specifically, the memo indicates that all request should be forwarded to the Office of Internal Affairs and that this office will respond to all requests. Human Resource staff indicated that this information would be provided when requested.

Based on a review of the PAQ, the Agency PREA Audit, PS 5324.12, the Eligibility Questions, a review of personnel files for staff and contractors and information obtained from the Human Resource staff interview indicates that this standard is compliant.

Interviews with medical staff while on-site indicated that in the event that a forensic exam is needed, medical staff will contact the local hospital to determine if a SANE is available before transporting the inmate.

Institutional Supplement CRW 5324.12c, p. 8, states, “if the incident occurs during business hours, the inmate’s attending physician shall notify the Emergency Room of the local hospital to alert them of the inmate’s allegation. The PAQ stated that during the previous twelve months, there were three (3) forensic exams conducted, and these exams were performed by SANE/SAFEs.

115.21 (d): The PAQ indicated that the agency attempts to make available to the victim a victim advocate from a rape crisis center and if a rape crisis center is not available, a qualified staff member from a community-based organization or a qualified agency staff member. The memo from the Regional Director stated that the facility has a Memorandum of Understanding with The Women’s Center in Fort Worth, Texas. This MOU is to provide offender victims with confidential emotional support services related to sexual violence as required by PREA regulations. The MOU was provided and reviewed by the auditor.

Qualified staff members are also available to serve as victim advocates. The facility provided documentation of staff course completions for “Forensic Medical Exams: and Overview for Victim Advocates”. Twenty-five (25) staff were listed as having completed this training to serve as qualified agency staff members who are able to provide victim advocacy services to inmate victims of sexual abuse.

Interviews with random staff and inmates who had reported sexual harassment/abuse indicated that an advocate would be contacted and provided in the event of a sexual abuse. #### Findings (By Provision):

115.33 (a): PS 5324.12, pages 26-27, outlines the requirement for inmates to receive PREA education. Page 26 specifically states that inmates receive information on the agency's zero tolerance policy and how to report incidents or suspicion of sexual abuse or sexual harassment via the A&O pamphlet on Sexually Abusive Behavior Prevention and Intervention.

The PAQ indicated that 1185 inmates received information at the time of intake during the past twelve months on the zero-tolerance policy and how to report. A review of inmate records indicate that they had received PREA information at intake. During the site review, the auditor observed the intake area and was provided an overview of the intake process. Inmates are provided the inmate handbook and were also asked the risk screening questions during this time. The interview with intake staff indicated that the facility provides inmates information related to the zero-tolerance policy and reporting mechanism via the A&O handbook. Inmates that were interviewed indicated that they received information the agency's sexual abuse and sexual harassment policies.

115.33 (b): PS 5324.12, pages 26-27, outlines the requirement for inmates to receive PREA education. Page 27 specifically discusses the comprehensive education that is provided to the inmates. The policy indicates that during the A&O program, a designated staff member will present the Sexually Abusive Behavior Prevention and Intervention Program. A review of the training document (available in English and Spanish) indicated that inmates are educated on definitions, the zero-tolerance policy, ways to prevent sexual abuse, how to report, information on the investigative process, counseling programs for victims and management programs for abusers.

The PAQ indicated that 1152 inmates received comprehensive PREA education within 30 days of intake. A review of inmate records indicate that they had received comprehensive PREA education within 30 days of inmate. Interviews with inmates indicated that they received information on the agency's sexual abuse and sexual harassment policies. Interview with intake staff indicated that inmates receive comprehensive training regarding PREA through a video presentation which is coupled with staff instruction. Inmates sign a form acknowledging they have received PREA education. Documentation of these forms was provided to the auditor.

115.33 (c): The PAQ indicated that all current inmates at the facility had been educated on PREA. Additionally, PS 5324.12, page 27, indicates that the agency requires that all inmates who are transferred from one facility to another be educated regarding their rights under PREA to the extent that the policies and procedures of the new facility differ from those of the previous facility. All inmates are typically educated upon transfer, whether policies and procedures differ or not. The interview with the intake staff indicated that all inmates who arrive at the facility go through R&D, receive the handbook and then go through A&O orientation.

115.33 (d): The PAQ indicated that PREA education is available in accessible formats for disabled and Limited English Proficient (LEP) inmates. CRW-5324.12c, p. 2 states that the handout entitled "Sexually Abusive Behavior Prevention and Intervention, an Overview for Offenders" will be provided to inmates at intake screening and they shall receive comprehensive education on their rights to be free from sexual abuse and sexual harassment and A&O.

The memorandum from the Associate Warden (acting) regarding Inmate Education states that FMC Carswell provides the following to ensure inmates understand and can utilize information about sexual abuse and sexual harassment:

- Printed copies of A&O handbooks in English and Spanish
- The Director's video on sexual abuse prevention in English and Spanish
- Language Line translator services
- The SecureVRS, hearing impaired telecommunication device, which is located in the hospital building near radiology
- Individualized intake screenings reviewing sexual abuse prevention information with a psychologist during the intake screening process
- Psychology services provides information regarding sexual assault prevention and intervention to inmates during the Admission and Orientation lecture.

The facility has staff members who are fluent in Spanish to provide accommodations for inmates who are LEP. Additionally, the agency has a contract with Language Line Solutions to provide translation services for inmates who are LEP. This is a service the facility can call which will translate information between the staff member and the LEP inmate. The A&O pamphlet as well as the Sexually Abusive Behavior Prevention and Intervention Program is available in English and Spanish. The SecureVRS product guide was included in the PAQ information, as well.

An interview with the Warden indicated that information is provided to deaf and hard of hearing inmates and that information is verbally provided to inmates with cognitive disabilities and literacy issues. PREA education is given to inmates through video and written material in both English and Spanish. Information is posted throughout the facility which is also in English and Spanish. The inmates interviewed stated that they were provided education on PREA policies and that they understood. An interview was also conducted with LEP inmates through a staff translator. These inmates stated that they were provided PREA information in Spanish and were assisted by staff to help them understand the PREA information. A review of LEP inmate files indicated that all received PREA information in a format they could understand.

115.33 (e): Inmate PREA education is documented on the Institution A&O Program Checklist (Form BP-A0518) and the Unit A&O Program Checklist (Form BP-A0597). A review of inmate files indicate that they were documented to have received PREA education. Thirty (30) of the signed acknowledgement forms were included in the PAQ, as well, which documents the inmate participation in these education sessions.

115.33 (f): The PAQ indicated that information is continuously available through posters, inmate handbooks or other written forms for the inmate population. A review of documentation indicated that the facility had PREA information via the orientation handbook, the A&O pamphlet and through PREA signage. During the site review, the auditor observed the PREA signage in each housing unit and in common areas.

Based on a review of the PAQ, PS 5324.12, CRW-5324.12c, the A&O pamphlet, the orientation handbook, the SecureVRS Product Guide, the memo from the Associate Warden (acting), the Blanket Purchase Agreement for Language Line Services, a review of inmate records, observations made during the site to include the availability of PREA information via signage and documents as well as information obtained during interviews with intake staff and random inmates indicate that this standard is determined to be compliant.

##### Site Review Observations:

1. Risk Screening Area
2. Locations of Inmate File Storage

##### Findings (By Provision):

115.41(a): PS 5324.12, pages 29-32 describe the risk screening process. It indicates that inmates will be assessed during the intake screening for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. PS 5324.12 further states that if an inmate is determined to be at risk of being sexually victimized by or being sexually abusive toward other inmates, they will be referred to Psychology Services for a reassessment. During the site review, the auditor observed the inmate area. The risk screening is conducted in private offices in intake. Interviews with random inmates confirm that they were asked questions either the same day or the next day after their arrival at the facility. The interview with the staff responsible for the risk screening indicated that inmates are screened using the screening instrument.

115.41 (b): PS 5324.12, page 39, indicates that all inmates will be assessed within 72 hours of arrival at the facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. The PAQ indicated that inmates are screened within this timeframe and that 1179 inmates were screened within 72 hours over the previous twelve months. This indicates that 100% of those whose length of stay was for 72 hours or more received the risk screening within 72 hours. A review of a sample of inmate records confirmed that they were all screened within 72 hours.

115.41 (c): Program Statement P5290.15, Intake Screening, specifies the process for interviewing inmates upon their arrival to the facility prior to the inmate's placement in general population.

The PAQ indicated that the risk screening is conducted using an objective screening instrument. A review of the Intake Screening Form indicated that inmates are asked "yes" or "no" questions and a few of these questions are then utilized on the PREA Intake Objective Screening Instrument. The screening instrument includes sections that are determined based on the inmate's history (which can be found in the inmate's institutional file). A memo provided by the warden to the auditor stated that during the social intake process, the interviewer reviews the PSI and the Inmate Central File for documentation indicating the inmate has a history of sexually aggressive behavior or has recently been the victim of sexual assault. Staff ask questions from the PREA Intake Objective Screening Instrument. Staff annotate any specific information in the comment section applicable to victimization or abusiveness. The Intake Screening Form is then forwarded to Psychology Services for appropriate follow-up and/or assessment. Mental Health staff maintain secondary materials documenting inmates who were determined at risk of sexual victimization, or at risk of sexually abusing other inmates and ensures they were offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening referral. Within 28 days of arrival, unit team will conduct an inmates' initial program review (team). The inmate's reassessment for risk of sexual abusiveness or sexual victimization is conducted at this time and documented on the

Individualized Needs Plan. The inmate's risk level is reassessed when warranted due to a referral, request, incident or sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

The PAQ included thirty (30) inmate intake screening forms for the auditor to review. The auditor also reviewed an additional fifteen (15) intake forms for some of the inmates interviewed onsite. The auditor also reviewed five (5) Individualized Needs Plans included in the PAQ and fifteen (15) for inmates interviewed during the on-site audit. The auditor also reviewed Psychology Services Risk of Sexual Abusiveness for thirty (30) additional inmates.

115.41 (d): A review of the PREA Intake Objective Screening Instrument indicates that the intake screening considers the following criteria to assess inmates for risk of sexual victimization: whether the inmate has a mental, physical or developmental disability; the age of the inmate; the physical build of the inmate; whether the inmate was previously incarcerated; whether the inmate's criminal history is exclusively nonviolent; whether the inmate has prior convictions for sex offenses against an adult or child; whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex or gender non-conforming and whether the inmate is detained solely for civil immigration purposes. The Intake Form takes into consideration whether the inmate has previously experienced sexual victimization and the inmate's own perception of vulnerability. The Intake Form information is then transferred over to be included in the PREA Intake Objective Screening Instrument. Interviews with staff who perform the risk screening indicated that the required components are included and that the majority of the questions are yes or no format, with a few that are open ended.

115.41 (e): A review of the PREA Intake Objective Screening Instrument confirms that the intake screening considers the following: prior acts of sexual abuse, prior convictions for violent offenses and prior institutional violence or sexual abuse known to the facility. Interviews with intake staff confirm that these criteria are considered and utilized to determine if the inmate is a potential predator and how to house accordingly. Interviews with staff who perform the risk screening indicated that the required components are included and that the majority of the questions are yes or no format, with a few that are open ended.

115.41 (f): PS 5324.12, page 32 indicates that inmates would be reassessed for the inmate's risk of victimization or abusiveness within 30 days from their arrival by facility staff, ordinarily Psychology Services and Unit Management staff. The PAQ indicated that the facility requires inmates to be reassessed within 30 days of their arrival and that in the previous 12 months, 1152 inmates were reassessed for risk of sexual victimization or risk of sexually abusing other inmates within 30 days of their arrival at the facility. Interviews with staff responsible for the risk screening indicated that inmates are reassessed within 30 days. An interview was conducted with a unit manager who explained the process and stated that inmates are reassessed every six months and are reviewed for housing, program, and work opportunities. Interviews with random inmates indicated that some did not remember a reassessment. A review of a sample of inmate files, however indicated that inmates were reassessed within the 30-day timeframe.

115.41 (g): PS 5324.12, page 32, indicates that inmates would be reassessed for their risk of victimization or abusiveness when warranted due to a referral, request, incident of sexual

abuse or receipt of additional information that bears on their risk of sexual victimization or abusiveness. This reassessment would be completed by Psychology Services staff. Interviews with staff indicated that any inmate who alleged sexual abuse would be administered a reassessment during their mental health evaluation. The necessary information would then be passed on to unit management staff to review. Interviews with staff responsible for risk screening indicated that inmates are also reassessed when warranted. The interviews with random inmates indicated that some did not remember the risk assessment being conducted after the initial time. A review of a sample of inmate files indicated that inmates were reassessed when warranted.

115.41 (h): PS 5324.12, page 32, indicates that inmates would not be disciplined for refusing to answer the following questions during the risk screening: whether or not the inmate has a mental, physical or developmental disability; whether or not the inmate is perceived to be gay, lesbian, bisexual, transgender, intersex or gender nonconforming; whether or not the inmate previously experienced sexual victimization and the inmate's own perception of vulnerability. The PAQ indicated that inmates are not disciplined for refusing to answer. The interview with the staff responsible for risk screening indicated that inmates are not disciplined for refusing to answer any of the questions in the risk screening.

115.41 (i): PS 5324.12, page 32 as well as the PAQ indicated that the agency has implemented appropriate controls on the dissemination of the screening information to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates. Specifically, the policy states that information is disseminated on a need-to-know basis for staff. Interviews with the PREA Coordinator, PREA Compliance Manager and staff responsible for the risk screening indicate that the information obtained during the risk screening is limited to staff who have a need to know. This would include the Unit Team and those individuals who determine housing and work assignments.

Based on a review of the PAQ, PS 5324.12, PS 5290.15, the Intake Screening Form, the Individualized Needs Plan, the PREA Intake Objective Screening Instrument, the memo from the Associate Warden (acting), the Psychology Risk Assessment, a review of inmate files and information from interview with the PREA Coordinator, PREA Compliance Manager, staff responsible for conducting the risk screenings and random inmates, this standard is determined to be compliant.

2. Housing Assignments of Inmates
3. Shower Area in Housing Units

Findings (By Provision):

115.42 (a): PS 5324.12, page 33 and CRW-5324.12c indicate that the agency uses the information from the risk screening to recommend housing, bed, work, education and program assignments with the goal of keeping separate inmates at high risk of being sexually abused from those at high risk of being sexually abusive. Specifically, the policies indicate that Psychology Services maintain a "PREA at Risk" list which is utilized to make decisions and enhance monitoring of those inmates at an increased risk. Policy indicates that the list is utilized to make housing, work and program decisions for these inmates.

The memo from the Associate Warden (acting) stated that information from the PREA Intake Objective Screening Instrument is used to inform housing, bed, work, education and other program assignments with the goal of keeping separate those inmates at high risk of being sexually abusive. Individualized determinations are made by staff to ensure the safety of each inmate and serious consideration is given to every inmate's perspective regarding their personal safety when making determinations about housing assignments, particularly to transgender or intersex inmates. The facility conducts meetings regarding housing of inmates and those identified as at a higher risk regarding sexual victimization or perpetration are included for discussion of appropriate placement.

The interview with the PCM indicated that information is given to Psychology Services and if they have any concerns, a decision would be made regarding the need for more appropriate housing. The Unit Manager reviews the list of inmates to ensure inmates are housed appropriately.

The interviews with the staff responsible for the risk screening indicated these lists of inmates are reviewed and a list is updated weekly which is used to determine housing, work and program assignments. The staff members indicated they would also check periodically to ensure that the recommendations for housing, program and work assignments are being followed. A review of inmate files and of inmate housing and work assignments confirmed that inmates at high risk of victimization and inmates at high risk of being sexually abusive are not housed together. Additionally, they do not work together or attend education or other programs together, to the extent possible.

115.42 (b): PS 5324.12 and the PAQ indicated that the agency makes individualized determinations about how to ensure the safety of each inmate. The interview with the staff

responsible for the risk screening indicated that the Unit Manager will review the lists of inmates to ensure that inmates are housed appropriately.

115.42 (c): PS 5324.12 states that housing and program assignments for transgender and intersex inmates are considered on a case-by-case basis to ensure the inmate's health and safety, and whether the placement would present management or security problems.

The PAQ indicated that this practice is taking place within the agency. The memo from the Associate Warden (acting) states that the facility makes individualized determinations about how to ensure the safety of each inmate, and makes appropriate, case-by-care determinations regarding housing and program assignments for transgender or intersex inmates assigned to the facility. The interview with the PCM indicated that the agency male and female housing unit determinations are made on a case-by case basis by the Executive Staff. The local facility housing determinations for transgender inmates are also on a case-by-case basis.

Interviews with transgender inmates during the on-site portion of the audit indicated that their own views of their safety were considered in making housing determinations.

115.42 (d): PS 5324.12 indicates that housing and program assignments for transgender and intersex inmates are reassessed at least twice each year to review any threats to the inmate's safety. The interview with the PCM and staff responsible for the risk screening indicated that transgender and intersex inmates are reassessed at least twice a year. Documentation was provided and reviewed of the Individualized Needs Plan for transgender inmates interviewed on-site and this review indicated that the inmates are reassessed at least twice a year by the Unit Team.

115.42 (e): PS 5324.12 indicates that the transgender or intersex inmate's own views with respect to his or her safety is given serious consideration. The interview with the PCM and staff responsible for the risk screening indicated that transgender and intersex inmates are asked about their safety during the assessments and the information is given serious consideration. The interviews with transgender inmates indicated that they were asked about their safety by staff at the facility during intake and during their meeting with psychology and the unit team.

115.42 (f): PS 5324.12 indicates that transgender and intersex inmates are given the opportunity to shower separately. During the on-site review, it was confirmed that all inmates are provided privacy while showering. The facility housing units all contain multiple single person showers with curtains which provide privacy. The interview with the PCM and the staff responsible for risk screening confirmed that transgender and intersex inmates can shower separately. Interviews with random inmates indicated that they are all able to shower separately from other inmates.

115.42 (g): PS 5324.12, the PAQ and a review of housing assignments indicate that all of the housing units are the same. The interviews with PC and PCM confirmed that LGB inmates are not placed in one specific housing unit. The interviews with random inmates indicated that they were not housed in a unit specifically due to their identification status.

Based on a review of the PAQ, PS 5324.12, CRW-5324.12c, the Individualized Needs Plans, a review of inmate housing assignments, the memo from the Associate Warden (acting), and information from interviews with the PREA Compliance Manager, staff responsible for conducting risk screenings, random inmates and transgender inmates, this standard is determined to be compliant.

#### Site Review Observations:

1. Observations of the Facility

#### Findings (By Provision):

115.43 (a): PS 5324.12 indicates that the agency does not place inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and no alternative is available to separate the inmate victims from likely abusers.

The PAQ indicated there have been no instances where inmates have been placed in involuntary segregated housing due to their risk of sexual victimization within the last 12 months. The memo from the Associate Warden (acting) as well as the interview with the Warden indicated that inmates are not placed in involuntary segregated housing unless there is no alternative housing available, and then, only until a more suitable placement can be made.

115.43 (b): PS 5324.12 indicates that if an inmate were placed in segregated housing, that they would have access to programs, privileges, education and work opportunities to the extent possible and all limitations would be documented with the indication of the reason and length of time of the limitation. The policy indicates that the Chief of Correctional Services is responsible for documenting any such limitations, duration and rationale. The interviews with random staff and with staff who supervise inmates in segregated housing were conducted and indicated that inmates would have access to everything except a work assignment.

115.43 (c): PS 5324.12 indicates that if an inmate were placed in segregated housing due to risk of victimization they would only be placed in this status until an alternative means of separation from likely abusers could be arranged, and such assignment would not ordinarily exceed 30 days. The policy indicates that the Warden would review, complete and sign BP-A1002 form and place a copy in the inmate's central file. The PAQ indicated that there have been no instances where inmates have been placed in involuntary segregated housing due to their risk of sexual victimization. The interview with the Warden indicated that inmates would only be placed in involuntary segregated housing until an alternative means of separation could be arranged. There were no inmates in segregated housing for risk of sexual victimization or who allege to have suffered a sexual abuse at the time of the on-site audit.

115.43 (d): PS 5324.12 indicates that if an involuntary segregated housing assignment is made, the facility will clearly document the basis for the concern for the inmate's safety and the reasons that no alternative means of separation can be arranged. Additionally, policy indicates that the inmate will receive mental health services at least every 30 days. The PAQ indicated there have been no instances where inmates have been placed in involuntary segregated housing due to their risk of sexual victimization.

115.43 (e): PS 5324.12 and the PAQ indicate that if an inmate were placed in segregated housing due to risk of victimization, they would be reviewed every 30 days to determine if there was a continued need for the inmate to be separated from the general population. Specifically, policy indicates that inmates would be reviewed weekly at the Special Housing Unit Meeting.

There were no inmates housed in segregated housing for risk of sexual victimization or who allege to have suffered sexual abuse during the time of the on-site audit. Staff who supervise inmates in segregated housing were interviewed and stated that if there was an inmate housed in segregated housing for more than 30 days, their status would be reviewed to determine if

there was a continuing need for separation from the general population. A memo was provided from the associate warden which stated that if an involuntary segregated housing assignment is made, the facility affords each inmate a review every 30 days to determine whether there is a continuing need for separation from general population. This facility has not had any incidences of involuntary segregated housing for PREA related issues that extend beyond 30 days.

Based on a review of the PAQ, PS 5324.12, the memo from the Associate Warden (acting), observations from the site review, as well as information from the interview with the Warden and segregation staff, this standard is determined to be compliant.

#### Site Review Observations:

1. Observation of PREA Reporting Information in Housing Units

#### Findings (By Provision):

115.51 (a): PS 5324.12 indicates that the agency provides multiple ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for

reporting sexual abuse or sexual harassment and staff neglect or violation of responsibilities that may have contributed to such incidents. A review of additional documentation to include the Sexually Abusive Behavior Prevention and Intervention inmate education and PREA signage and CRW-5324.12c indicated that there are multiple ways for inmates to report. These methods include to any employee, contractor or volunteer via a “drop-note” or other written communication; via a grievance (administrative remedy); to the OIG either via a written letter or via the inmate’s TRULINCS email. Additionally, inmates can report via third-party. The third-party can call, write or email. They are also able to voice a concern on the agency website at: <https://www.bop.gov/inmates/concerns.jsp>.

During the on-site review, it was observed that information pertaining to how to report PREA allegations was posted in all housing units. Interviews with a sample of inmates confirm that they are aware of the methods to report sexual abuse and sexual harassment and that they were informed of these methods. Most inmates indicated that they would tell a staff member, do it through the computer (copout or email) or via inmate phone (hotline). Interviews with random staff confirm that they take all allegations seriously and that inmates have multiple ways (written, verbal, electronic, anonymous and third party) to report sexual abuse and sexual harassment.

115.51 (b): PS 5324.12 indicates that the agency has a way for inmates to report abuse or harassment to a public or private entity that is not part of the agency, and that the entity can immediately forward the information to agency officials. Inmates can report to the OIG via their TRULINCS email or via a written letter. Additionally, third parties can contact the OIG on behalf of the inmate. During the on-site review, it was observed that information pertaining to how to report PREA allegations was posted in all housing units. All inmates have access to the computer email system and can send a confidential email directly to the Office of the Inspector General. The memo from the Associate Warden (acting) states that inmates are able to submit a report to the Office of the Inspector General (OIG) from their personal email or through legal mail procedures. These emails are untraceable at the institutional level.

The interview with the PCM indicated that the outside information is located on posters and they can send information to the OIG. The PCM indicated that the information would be forwarded back to the facility investigator or to SIS if it involved staff. Interviews with inmates confirm that most are aware of the email reporting mechanism and that the information is posted in their housing area.

115.51 (c): PS 5324.12, notes that staff are required to accept all reports made verbally, in writing, anonymously and from a third-party and will promptly document any verbal reports. The memo from the Associate Warden (acting) stated that staff are required to accept and report all allegations of sexual assault and harassment made verbally, in writing, anonymously, and from third parties. All allegations are reported to the Operations Lieutenant and PREA Compliance Manager, and processed according to the Institutional Supplement, and Program Statement 5324.12.

Interviews with inmates confirm that they are aware of the methods available for reporting. Interviews with staff indicate they accept all allegations of sexual abuse and sexual

harassment, and they immediately report any allegation to the Operations Lieutenant and fill out the form on the computer.

115.51 (d): PS 5324.12 describes that the agency provides a method for staff to privately report sexual abuse and sexual harassment of inmates. The PAQ and policy indicate that staff can privately report to the Office of the Inspector General, Office of Internal Affairs or any supervisory staff. Additionally, staff are informed of the way to report via BOP PREA Notices. Interviews with a sample of staff indicate that they can privately report sexual abuse and sexual harassment of inmates to facility leadership or through the form on the computer.

Based on a review of the PAQ, PS 5324.12, CRW-5324.12c, the Sexually Abusive Behavior Prevention and Intervention – an Overview for Offenders, the Memos from the Associate Warden (acting), PREA signage, observations from the facility site review related to PREA signage and posted information and interviews with the PCM, random inmates and random staff, this standard is determined to be compliant.

☒ Yes ☐ No ☐ NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? 115.52 (b): PS 1330.18 describes the grievance process for allegations of sexual abuse and sexual harassment. Specifically, page 4 indicates that the agency does not impose a time limit

on when an inmate may submit a grievance regarding an allegation of sexual abuse. Page 4 also discusses that the agency does not require an inmate to use the informal grievance process, or attempt to resolve with staff, an alleged incident of sexual abuse. A review of the Sexually Abusive Behavior Prevention and Intervention education, page 3 discusses administrative remedy procedures.

115.52 (c): PS 1330.18 outlines the grievance process for allegations of sexual abuse and sexual harassment. Pages 6 and 14 specifically state that the inmate may submit a grievance without submitting it to the staff member who is the subject of the complaint and grievances will not be referred to staff members who are the subject of the complaint. A review of the Sexually Abusive Behavior Prevention and Intervention education, page 3 discusses administrative remedy procedures. The memo from the Associate Warden (acting) stated that during the past 12 months, there have been no instances in which a final decision related to an inmate sexual abuse grievance was not reached in 90 days.

115.52 (d): PS 1330.18, page 14, section d, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specifically, the policy states that the agency would issue a final decision on grievances related to sexual abuse within 90 days of the initial filing. The 90 days does not include the time used by the inmate to prepare any administrative appeal. The agency may claim an extension up to 70 days if the normal time period for response is insufficient to make an appropriate decision. The inmate must be notified in writing of the extension and be provided a date by which the decision will be made. The policy also indicates that if the inmate does not receive a response within the allotted timeframe, the inmate will consider the absence of a response to be a denial.

The memo from the Associate Warden (acting) stated that during the past 12 months, there have been no grievances alleging sexual abuse in the past 12 months and no instances in which a written notification of a time frame extension was necessary.

115.52 (e): PS 1330.18, page 14, section e, outlines the grievance process for third-party allegations of sexual abuse and sexual harassment. Specifically, the policy states that third parties are permitted to assist inmates in filing requests for administrative remedies for sexual abuse and are permitted to file such requests on behalf of the inmate. In addition, the policy states that if a third-party files a report on behalf of an inmate, the agency may require the alleged victim to agree with the request prior to filing and if the inmate declines, the inmate will be required to complete a sworn affidavit stating that he does not want the grievance to proceed. The PAQ indicated that there have not been any third-party grievances filed in the previous twelve months.

115.52 (f): PS 1330.18, page 14, section f, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specifically, the policy states that the agency provides inmates the opportunity to file an emergency grievance alleging substantial risk of imminent sexual abuse and the grievance will be addressed immediately. The policy indicates that an initial response will be provided within 48 hours and that a final decision will be made within five calendar days. The final decision will document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The PAQ indicated that there have been zero emergency grievances

alleging substantial risk of imminent sexual abuse filed in the previous twelve months. A review of the grievance log indicated that there was no emergency grievances filed related to PREA in the previous 12 months.

115.52 (g): PS 1330.18, page 16, indicates that inmates may be disciplined for filing a grievance in bad faith. The PAQ indicated that no inmates have been disciplined for filing a grievance in bad faith in the previous twelve months.

Based on a review of the PAQ, PS 1330.18, Sexually Abusive Behavior Prevention and Intervention – An Overview for Offenders, memos from the Associate Warden (acting) and interviews with random inmates, this standard is determined to be compliant.

2. Inmates Who Reported Sexual Abuse

#### Findings (By Provision):

115.53 (a): PS 5324.12, page 36 and CRW-5324.12c, page 8, indicates that the agency provides access to outside victim advocates for emotional support related to sexual abuse by giving inmates mailing addresses and telephone numbers to victim advocates or rape crisis organizations and enables reasonable communication in as confidential a manner as possible. The PAQ indicated that inmates were provided mailing addresses and phone numbers and that they enabled reasonable communication with these services in as confidential a manner as possible. The Sexually Abusive Behavior Prevention and Intervention inmate education indicates that inmates can contact the services by telephone or by sending a letter. FCM Carswell has a MOU with The Women's Center of Fort Worth for confidential emotional support services. The CRW-5324.12c and the Sexually Abusive Behavior Prevention and Intervention: Information on How to Report – an Overview for Individuals in BOP Custody directs inmates on how to seek outside resource services for emotional support. Psychology Services also provide inmates with advocacy services, as needed. Interviews with random inmates and inmates who reported sexual abuse and sexual harassment indicated that most were familiar with the services provided by Psychology Services and The Women's Center of Fort Worth. Interviews with random inmates and inmates who reported sexual abuse or sexual harassment indicated that most of these were aware of the availability of outside emotional

support services. Information regarding these services was posted throughout the facility and also available on the TRULINCS system.

115.53 (b): PS 5324.12, page 36, indicates that prior to giving inmates access to outside support services, they are informed of the extent which communication will be monitored as well as any mandatory reporting rules and limits to confidentiality. Policy indicates that confidential is different from privileged communication and such communication is monitored consistently with security practices. Interviews with random inmates and inmates who reported sexual abuse and sexual harassment indicated that most were familiar with the advocacy information and stated that information is provided to them in their packet of information they are given at intake and orientation. Most inmates indicated that any contact with these services would be confidential. Inmates are not detained solely for civil immigration purposes at this facility, therefore, that part of the provision does not apply.

115.53 (c): The facility has a Memorandum of Understanding with The Women's Center of Fort Worth to provide emotional support services to inmates for issues related to sexual abuse. This MOU was provided and reviewed by the auditor.

Based on a review of the PAQ, PS 5324.12, CRW-5324.12c, the Sexually Abusive Behavior Prevention and Intervention – An Overview for Offenders, the memo from the Regional Director regarding the MOU with The Women's Center of Fort Worth, observations from the facility site review related to PREA signage and posted information and interviews with inmates, this standard is determined to be compliant.

2. Inmates Who Reported a Sexual Abuse
3. Random Staff

#### Findings (By Provision):

115.64 (a): PS 5324.12, page 40, describes staff first responder duties. Specifically, it requires that upon learning that an inmate was sexually abused, the first responder custody staff member will: separate the alleged victim and the alleged perpetrator, preserve and protect any crime scene until evidence can be collected and if the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim and ensure that the alleged perpetrator not take any action to destroy physical evidence, including washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating. #### Interviews:

2. Warden
3. Designated Staff Member Charged with Monitoring Retaliation
4. Inmates Who Reported Sexual Abuse

#### Findings (By Provision):

115.67 (a): PS 5324.12, pages 42-43, outline the agency's method for protection against retaliation. It addresses that the agency will protect all inmates and staff who report sexual abuse and sexual harassment from retaliation by other inmates and staff and has designated staff responsible for monitoring. The PAQ indicated that the facility has a policy and that the PREA Compliance Manager is responsible for monitoring retaliation.

115.67 (b): PS 5324.12, page 42, addresses the multiple measures that the facility will take to protect inmates and staff. These measures include housing changes or transfers for inmate victims, removal of the alleged staff abuser from contact with the victim and emotional support services for inmates or staff who fear retaliation for reporting. A review of investigative reports and monitoring documents indicated that there have been no allegations of retaliation nor any reported fear of retaliation. Interviews with the Agency Head Designee, Warden and staff responsible for monitoring retaliation all indicated that protective measures would be taken if an inmate or staff member expressed fear of retaliation. The interview with the Agency Head Designee indicated that the PCM would monitor the inmate and monitoring would include housing and cell reassignments, work reassignments, programming changes and disciplinary action. The Agency Head Designee indicated for staff it could include reassignment of work posts, performance evaluations and shift changes. The Warden and staff responsible for monitoring indicated inmates would be reviewed for up to 90 days for retaliation and that staff could be removed from the area or facility and the inmates could be moved to another facility. Interviews with inmates who had reported sexual harassment indicated that they felt safe.

115.67 (c): PS 5324.12, page 43, addresses that the facility will monitor the inmate for at least 90 days following a report of sexual abuse and will monitor the conduct and treatment of the inmate or staff to see if there are any changes that may suggest possible retaliation and will act promptly to remedy any retaliation. The policy requires that the process include monitoring any inmate disciplinary reports, housing or program changes or any negative performance reviews or reassignments of staff. The policy indicates that monitoring can extend beyond 90 days if the initial monitoring indicates a need to continue. The policy states that the PREA Compliance Manager is responsible for monitoring. The PAQ indicated that the facility monitors for retaliation and that it does so for at least 90 days.

The PAQ indicated that there has been one (1) instance of retaliation in the previous twelve months. Interviews with the Warden and staff responsible for monitoring retaliation all indicated that the inmate would be safeguarded and an investigation would be initiated. Monitoring staff indicated that they would monitor the inmate for at least 90 days and would spot check every few weeks. She indicated that housing changes, job changes, progress reviews, disciplinary reports and unreasonable incident reports would be reviewed for possible retaliation. During the on-site audit and review of the monitoring documentation for the sexual abuse and sexual harassment allegations, it was verified that inmates were being monitored for retaliation which continued for the full 90 days and beyond, if warranted. Inmates were interviewed by the auditor who had previously reported sexual abuse and the inmates stated that the PCM had checked in with them regularly and asked if they felt safe or retaliated against.

115.67 (d): PS 5324.12, page 43, states that the facility will monitor the inmate and such monitoring includes periodic status checks. In instances where monitoring was required, staff stated that they would monitor an inmate who alleged sexual abuse or sexual harassment for 90 days. This monitoring would include status checks. The interview with staff responsible for monitoring indicated that she would monitor the inmate for at least 90 days and that this would include status checks.

115.67 (e): P5324.12, page 43, states that if any other individual who cooperates with an investigation expresses fear of retaliation, the agency shall take appropriate measures to protect that individual against retaliation. Interviews with the Agency Head Designee and the Warden indicated that they would employ the same protective measures as stated previously related to staff and inmates to include removal of inmates or staff, protective protocols, counseling and an investigation.

115.67 (f): The auditor is not required to audit this provision.

Based on a review of the PAQ, PS 5324.12, investigative reports, monitoring documents and interviews with the Agency Head Designee, the Warden, inmates who reported sexual abuse, and the staff charged with monitoring retaliation, this standard is determined to be compliant.

Findings (By Provision):

115.68 (a): PS 5324.12, page 43, indicates any use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse will be subject to the requirements of 115.43. Pages 33-34 of PS 5324.12 reference the requirements under 115.43 in policy. The PAQ indicated that there were no inmates involuntarily segregated for zero to 21 hours or longer than 30 days. During the site review, it was observed that the special housing unit at this facility did not currently house any inmates who were alleged to have suffered sexual abuse.

The BP-A1002 (sample) for inmates indicates the statement based on of the facility's concern for the inmate safety as well as the reason why there were no alternative housing available. The interview with the Warden indicated that inmates who alleged sexual abuse would only be placed in involuntary segregated housing until an assessment of all available alternatives had been made and a determination was made that no available alternative means of separation from likely abusers existed. The Warden indicated this would typically not exceed 30 days and the status of the inmate would be reviewed at least every 30 days by staff. Interviews with inmates who reported a sexual abuse and staff also indicated that inmates are not housed in segregated housing unless there is no other alternative and then it is for a very short period of time.

The Memorandum from the Associate Warden (acting) stated that in the past 12 months, the facility has not had any instances where an inmate has been placed into the Special Housing Unit following allegations of being sexually abused to ensure their protection.

Based on a review of the PAQ, P5324.12, BP-A1002, the Memo from the Associate Warden (acting), and interviews with the Warden, random staff and inmates who reported sexual abuse, this standard is determined to be compliant.

## 6. Agency Head Designee

### Findings (By Provision):

115.71 (a): PS 5324.12, page 43, states that when an agency conducts its own investigations into allegations of sexual abuse and special harassment, it shall do so promptly, thoroughly and objectively for all allegations. The policy indicated that when it is an inmate-on-inmate allegation that the Special Investigative Services (SIS) is contacted and for an allegation that is staff-on inmate, the OIA and OIG are contacted. There were forty-six (46) total allegations reported at the facility for the previous 12 months. The interview with the investigators confirmed that in these and any allegation of sexual abuse or sexual harassment, an investigation would be initiated immediately and promptly. The investigators indicated that all investigations (administrative and criminal) are completed promptly, thoroughly and objectively.

115.71 (b): PS 5324.12, page 44, indicates that when sexual abuse is alleged, the agency shall use investigators who have received specialized training pursuant to 115.34. A review of training records revealed that facility staff have completed the NIC training and are compliant with all PREA investigatory standards to include 115.34 and 115.71. The interview with the investigators (2) indicated that they received specialized training and complete the NIC training annually.

115.71 (c): PS 5324.12, page 44, describes the criminal and administrative investigation process. Specifically, it states that investigators shall gather and preserve direct and circumstantial evidence including physical, DNA, electronic monitoring data and interviews. It also indicates that they will review prior complaints and reports of sexual abuse involving the alleged perpetrator. There were forty-six (46) total allegations of sexual harassment and sexual abuse reported at the facility for the previous twelve months. The interviews with investigative staff indicated that in these allegations, and any allegations, they would ensure the victim was safeguarded and begin the investigation. This would include interviews, evidence collection, photographs, medical assessments, mental health assessments, report writing and facts and finds. The investigators indicated that the investigation from start to finish would typically take about five days.

115.71 (d): PS 5324.12, page 44, describes the criminal and administrative investigation process. Specifically, it states that when evidence appears to support criminal prosecution, that the agency will conduct compelled interviews only after consulting with prosecutors. The interview with the investigators (2) confirmed that they would only conduct compelled interviews after consulting with the FBI or prosecutors.

115.71 (e): PS 5324.12, page 44, describes the criminal and administrative investigation process. Specifically, it states that the credibility of the alleged victim, perpetrator and/or witness will be assessed on an individual basis and will not be determined based on the individual's status as an inmate or staff member. Additionally, it indicates that inmates would not be required to submit to a polygraph examination or any other truth-telling device as a condition for proceeding with the investigation. The interview with the investigators (2) confirmed that the agency does not utilize polygraph tests or any other truth-telling devices on inmates who allege sexual abuse. Interviews were conducted with inmates who had reported

sexual abuse, and they indicated that they were not required to submit to a polygraph examination or any other truth-telling device.

115.71 (f): PS 5324.12, pages 44-45, describes the criminal and administrative investigation process. Specifically, it states that all administrative investigations will include an effort to determine whether staff actions or failure to act contributed to the abuse and shall be documented in a written report that includes a description of the physical and testimonial evidence, the reasoning behind credibility assessments and investigative facts and findings. Additionally, the policy indicates that the investigation should also include information as to whether other factors such as physical layout, staffing patterns and institutional operations contributed to the abuse. There were forty-six (46) total administrative investigations regarding allegations of sexual harassment and sexual abuse completed in the previous twelve months at this facility. The interview with investigative staff confirmed that administrative investigations are documented in written reports and include all facts and findings. The reports contain a memorandum, photos (if any), interviews, summary, initial allegation and a conclusion. The investigator indicated that they review any evidence, TRUSCOPE logs and rosters to determine if staff actions or failure to act contributed to the abuse. A review of the investigations indicates that all of this information was included.

115.71 (g): PS 5324.12, page 45, indicates that criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial and documentary evidence and attaches copies of all documentary evidence where feasible. There forty-six (46) total allegations of sexual abuse and sexual harassment in the previous 12 months. None of these were criminal investigations. The interviews with investigative staff confirmed that criminal investigations would be documented in written reports and include all factual findings as well as the conclusion of the findings. Staff indicated they would have all the same components as an administrative investigation except there may be additional information as it relates to staff to include phone calls and emails.

115.71 (h): PS 5324.12, page 45 and the PAQ indicated that substantiated allegations of conduct that appear to be criminal will be referred to prosecution. The PAQ indicated that there have not been any allegations referred for prosecution since the last PREA audit. The interview with the investigator confirmed that if fact finding led to a belief that the allegation occurred, it would be referred by the FBI or OIG for prosecution.

115.71 (i): PS 5324.12, page 45 describes that all written reports referenced in (f) and (g) will be retained for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. A review of a sample of historic investigations confirmed that the retention requirement is being met.

115.71 (j): PS 5324.12, page 45, indicates that the departure of the alleged victim or alleged abuser from employment or custody of the agency does not provide a basis for terminating an investigation. The interviews with the investigators confirmed that any and all investigations are completed no matter if staff leave/resign or if inmates depart the facility or agency's custody.

115.71 (k): The auditor is not required to audit this provision.

115.71 (I): The Office of the Inspector General and the Federal Bureau of Investigation are responsible for conducting criminal sexual abuse investigations at all BOP facilities. The auditor received a written interview response from the National PREA Coordinator. The PREA Coordinator stated that the majority of the sexual abuse investigations are conducted internally. If the Office of the Inspector General is conducting the investigation, they provide updates to the institution. At the conclusion of their investigation, they inform the Office of Internal Affairs of the outcome.

Based on a review of the PAQ, PS 5324.12, training records and information from interviews with the Agency Head Designee, Warden, PREA Coordinator, PREA Compliance Manager, inmates who reported sexual abuse, and investigative staff, this standard is determined to be compliant.

#### Findings (By Provision):

115.73 (a): PS 5324.12, page 45 and the Sexually Abusive Behavior Prevention and Intervention Program, describes the process for reporting investigative information to inmate. Specifically, it states that following an investigation into an inmate's sexual abuse allegation, the facility will inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated or unfounded. The policy indicates that the Special Investigative Services Lieutenant is responsible for all notifications under this standard. The PAQ indicated that there were forty-six (46) investigations completed within the previous

twelve months. The interview with the Warden and investigative staff confirmed that inmates are informed for the outcome of the investigation into the inmates' allegations. The interview with an inmate who reported sexual abuse as well as a review of the investigative files indicated that inmates were advised of the outcome of the investigations.

115.73 (b): PS 5324.12, page 46 indicates that if the agency does not conduct the investigation, that it shall request the relevant information from the investigating agency in order to inform the inmate. The OIG and FBI are responsible for criminal sexual abuse investigations. These agencies provide relevant information to the facility in order to inform inmates about the outcome of their investigations. The PAQ indicated that there were no investigations completed within the previous twelve months by an outside agency.

115.73 (c): PS 5324.12, page 46 and the Sexually Abusive Behavior Prevention and Intervention Program describe the process for notifying the outcome of the investigation to inmates. Specifically, it states that following an investigation into an inmate's sexual abuse allegation against a staff member, the agency will inform the inmate as to whether the staff member is no longer posted within the inmate's unit, the staff member is no longer employed at the facility, if the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. The policy further indicates that these notifications may not be appropriate in all cases and that all notifications are made in accordance with the Freedom of Information Act/Privacy Act. The facility reported that there were four (4) investigations regarding sexual misconduct of staff on inmate in the previous 12 months of the audit. There were four (4) staff on inmate sexual abuse allegations / investigations and fifteen (15) staff on inmate sexual harassment allegations / investigations. A review of the investigative files indicated that notifications were made to the inmates of the outcome of the investigation, with the exception of investigations still open as of the dates of the onsite audit.

115.73 (d): PS 5324.12, page 45 and the Sexually Abusive Behavior Prevention and Intervention Program describe the process for reporting investigative information to inmates. Specifically, it states that following an investigation into an inmate's sexual abuse allegation by another inmate, the agency will inform the inmate as to whether the alleged abuser has been indicted on a charge related to sexual abuse within the facility or if the alleged abuser has been convicted on a charge related to sexual abuse within the facility. The PAQ indicated that there were thirty (30) investigations completed by the agency / facility in the past 12 months and that ten (10) of the inmates were notified of the outcome. Seventeen (17) of the investigations were on-going and (2) inmates had been released from the agency custody. Notifications made during the audit period were documented in the investigation files with the exception of the investigations which were on-going.

115.73 (f): The auditor is not required to audit this provision.

Based on a review of the PAQ, PS 5324.12, the Sexually Abusive Behavior Prevention and Intervention Program, information from interviews with the Warden, investigative staff and an inmate who reported sexual abuse, as well as documentation provided in the investigation files, this standard is found to be compliant.

The memo from the Associate Warden (acting) indicated that there were two (2) terminations, resignations or other sanctions against staff for violating the agency sexual abuse and sexual harassment policies.

115.76 (c): PS 5324.12 describes the process for disciplinary sanctions against staff. Specifically, it illustrates that disciplinary sanctions for violations of the agency's sexual abuse and sexual harassment policies shall be commensurate with the nature and circumstances of the act, the staff members disciplinary history and the sanctions imposed for comparable offenses by other staff members who were disciplined, short of termination, for violating the sexual abuse and sexual harassment policies within the previous twelve months.

115.76 (d): PS 5324.12 indicates that staff who are terminated for violating the sexual abuse or sexual harassment policies, or staff who resign prior to being terminated, will be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. The PAQ indicated that there have not been any staff members reported to law enforcement or relevant licensing bodies.

Based on a review of the PAQ, PS 5324.12 and the memo related to staff discipline, this standard is determined to be compliant.

#### Findings (By Provision):

115.77 (a): PS 3420.12 describes the process for corrective action for volunteers and contractors. Volunteers and contractors fall under the same category of staff and as such, any violation of sexual abuse or sexual harassment policies may result in up to termination from the facility. The policy states that engaging in this activity is a violation of Title 18, US Code Chapter 109A and that it may result in up to life in prison. Additionally, PS 5324.12 states that any contractor or volunteer who engages in sexual abuse is prohibited from contact with inmates and will be reported to law enforcement, unless the activity was clearly not criminal, and to relevant licensing bodies. The PAQ and the memo from the Associate Warden (acting) indicated that there has been one (1) sexual abuse case involving a contractor or volunteer within the previous twelve months.

115.77 (b): PS 5324.12 and the PAQ indicated that the agency takes remedial measures and considers whether to prohibit further contact with inmates in the case of any other violation of sexual abuse or sexual harassment policies. The interview with the Warden indicated that any violation of the sexual abuse and sexual harassment policies would result in the volunteer or contractor no longer being allowed in the facility. He also indicated that they may be referred to the FBI for prosecution.

Based on a review of the PAQ, PS 3420.11, PS 5324.12, the memos from the Associate Warden (acting) and information from the interview with the Warden, this standard is determined to be compliant.

#### **Auditor Overall Compliance Determination**

- ☐ **Exceeds Standard** (*Substantially exceeds requirement of standards*)
- ☒ **Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

#### **Documents:**

2. Program Statement 5324.12, Sexually Abusive Behavior Prevention and Intervention Program
3. Memorandum from the Associate Warden (acting) regarding Disciplinary Sanctions

#### **Interviews:**

1. Warden
2. Medical and Mental Health Staff

#### **Findings (By Provision):**

115.78 (a): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it states that inmates will be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a finding of guilt from a criminal investigation. The PAQ indicated there have been no (0) administrative findings of inmate-on-inmate sexual abuse (administrative case), and no criminal findings of guilt for inmate-on-inmate abuse within the previous twelve months.

115.78 (b): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it indicates that the sanctions will be commensurate with the nature and circumstances of the abuse committed, the inmates' disciplinary history and sanctions imposed for comparable offenses by inmates with similar histories. The PAQ indicated there have been no (0) substantiated findings of inmate-on-inmate sexual abuse (administrative case) and there been no criminal findings of guilt for inmate-on-inmate abuse within the previous twelve months. There has not been any discipline administered. The interview with the Warden indicated that if the allegation were not criminal that a disciplinary hearing would take place and sanctions could include loss of good conduct, disciplinary special housing, transfer to another facility or transfer to a higher level of security. If the conduct were criminal, it would be referred for prosecution.

115.78 (c): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it indicates that the disciplinary process will consider whether the inmate's mental illness or

mental disability contributed to the behavior when determining what sanctions, if any, should be imposed. The interview with the Warden indicated that the inmate abuser's mental health would be considered in the disciplinary sanctions hearing.

115.78 (d): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it indicates that the agency will offer therapy, counseling and other interventions to correct underlying reasons or motivations for the abuse and will consider whether to require the abuser to participate in these interventions as a condition of access to programming and other benefits. Interviews with medical and mental health staff indicated that they do offer therapy, counseling and other services designed to address and correct underlying issues and that it is voluntary. They indicated that they do not require the inmate to participate as a condition of access to programming and other benefits.

115.78 (e): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it indicates that the agency may discipline an inmate for sexual contact with staff only upon finding that the staff member did not consent. The memo from the Associate Warden (acting) stated that there have been no instances where inmates have been disciplined for sexual contact with staff.

115.78 (f): PS 5324.12, page 48 describes the disciplinary process for inmates. Specifically, it indicates that inmates will not be disciplined for reporting sexual abuse in good faith based upon reasonable belief that the alleged conduct occurred, even if an investigation does not establish sufficient evidence to substantiate the allegation. The policy further states that the maintenance of an effective sexual abuse prevention policy requires inmates to be held responsible for manipulative behavior and making false allegations. There have been no instances during the previous twelve months of the audit where inmates have been disciplined for falsely reporting an incident of sexual abuse or sexual harassment.

115.78 (g): PS 5324.12, page 48, describes the disciplinary process for inmates. Specifically, it indicates that the agency may, in its discretion, prohibit all sexual activity between inmates and may discipline inmates for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it is determined that the activity is not coerced.

Based on a review of the PAQ, PS 5324.12, the memo from the Associate Warden (acting) and interviews from the Warden and medical and mental health care staff, this standard is determined to be compliant.

3. Inmates Who Disclosed Sexual Victimization at Risk Screening

Site Review Observations:

1. Risk Screening

Findings (By Provision):

115.81 (a): PS 5324.12, pages 49, describes medical and mental health screenings related to sexual abuse. Specifically, it states that inmates who indicate during the risk screening that they have experienced prior sexual victimization will be offered a follow-up with medical or mental health practitioners within fourteen (14) days of the screening. PS 5324.12, pages 29, 30 and 32 indicate the requirements for the risk screening. All inmates who are identified during the risk screening to have experienced prior sexual victimization are referred to Psychology Services. The PAQ indicates that 100% of inmates who reported prior victimization within the previous 12 months were offered a follow-up meeting with a medical or mental health practitioner. The memo from the Associate Warden (acting) stated that all inmates at the facility who disclose any prior sexual victimization during a screening are offered a follow-up meeting with a medical or mental health practitioner. The PAQ also indicated that medical and mental health practitioners maintain documents related to compliance with these services. The auditor was provided documentation of secondary materials documenting compliance with this standard. Interviews with inmates who disclosed sexual victimization at risk screening indicated that they were offered follow-up services with medical and mental health staff.

115.81 (b): PS 5324.12, page 49, describes medical and mental health screenings related to sexual abuse. Specifically, it states that inmates who indicate during the risk screening that they have previously perpetrated sexual abuse will be offered a follow-up with medical or mental health staff within fourteen (14) days of the screening. PS 5324.12, pages 29, 30 and 32 indicate the requirements for the risk screening. All inmates identified during the risk screening to have previously perpetrated sexual abuse are referred to Psychology Services. The PAQ indicated that medical and mental health staff maintain documents related to compliance with these services in these instances. Secondary documentation provided was reviewed by the auditor and indicated that inmates who were identified as at risk for perpetrating sexual abuse received a meeting with medical and mental health staff within the required time frame.

115.81 (c): This provision does not apply as the facility is not a jail, but rather a federal prison.

115.81 (d): PS 5324.12, page 49, states that information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and

mental health practitioners and other staff, necessary, to inform treatment plans and security management decisions, including housing, bed, work, education and program assignments. During the site review, it was noted by the auditor that inmate medical files are maintained electronically, and inmate classification files are kept behind locked doors with limited access by staff. A memo provided to the auditor from the Associate Warden (acting) stated that information related to sexual victimization or abusiveness that occurred in an institutional setting is strictly limited to medical and mental health professionals, some tracking information and/or safeguarding information may be seen by custody and non-health care personnel. If an inmate is deemed to be “at risk” for abusiveness or victimization, non-healthcare personnel would have access to this designation. Additionally, if an inmate has a Security Threat Group designation, this designation information would also be available to non-healthcare personnel.

115.81 (e): PS 5324.12, page 50, states that medical and mental health staff are required to obtain informed consent from inmates prior to reporting information about prior sexual victimization that did not occur within an institutional setting, unless the inmate was under eighteen (18) years of age. The memo from the Associate Warden (acting) stated that there have not been any instances where medical and mental health staff reported prior sexual victimization that did not occur in an institutional setting. If an instance should occur that involved the need to report such information, informed consent would be obtained prior to disclosure of that information. Interviews with medical and mental health staff indicate that they obtain informed consent prior to reporting any sexual abuse that did not occur in an institutional setting, that they disclose their duty to report and that they have not had any instances of this in the previous twelve (12) months. Additionally, they indicated that victims under eighteen (18) years of age and vulnerable adults fall under mandatory reporting laws, and they would be required to report any allegations from these individuals.

Based on a review of the PAQ, PS 5324.12, the memos from the Associate Warden (acting), medical and mental health documents and information from the interviews with staff who perform risk screening, medical and mental health staff, and inmates who disclosed sexual victimization at risk screening, this standard is determined to be compliant.

#### Site Review Observations:

1. Observations of Medical and Mental Health Areas

#### Findings (By Provision):

115.82 (a): PS 5324.12, pages 50-51, describes inmates' access to emergency medical and mental health treatment. Page 50 states that inmate victims of sexual abuse receive time and unimpeded access to emergency medical treatment and crisis intervention services as determined by the medical and mental health staff.

A memo provided by the Associate Warden (acting) states that medical and mental health staff maintain secondary materials in BEMR which document the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis.

The PAQ indicates that medical and mental health staff maintain secondary materials documenting the timeliness of services. During the site review, the auditor noted that all medical and mental health areas consisted of an emergency room, numerous exam rooms and offices. All areas were private and consisted of solid doors that allowed for adequate confidentiality. Interviews with medical and mental health staff confirm that inmates receive timely services, typically immediately. They also advised that services are based on their professional judgement.

Interviews with inmates who reported a sexual abuse indicated that they were seen by medical and mental health staff and received treatment as appropriate.

115.82 (b): PS 5324.12, page 51 and the PAQ indicates that if no qualified medical or mental health practitioners were on duty at the time of a report of recent abuse, the Operations Lieutenant would take preliminary steps to protect the victim and notify the appropriate medical and mental health services. Procedure confirms that inmate victims of sexual abuse would be transported to the local hospital for a forensic medical examination. The interviews with first responders indicated that the inmates would be immediately separated, that evidence on the inmates would be preserved, the crime scene would be secured, and the Operations Lieutenant would be contacted.

115.82 (c): PS 5324.12, pages 50-51, describe inmate's access to emergency medical and mental health treatment. Page 51 states that inmate victims of sexual abuse will receive timely access to emergency contraception and sexually transmitted infection prophylaxis. When the inmate is transported for the forensic examination, these services are typically rendered at the time, and the facility would continue any follow-up medication, education or services. The interviews with inmates who reported a sexual abuse indicated that they were seen by medical immediately following the reporting of the incident and they received an examination.

115.82 (d): PS 5324.12, pages 50-51, describe inmates' access to emergency medical and mental health treatment. Page 51 states that inmate victims of sexual abuse will receive treatment services without financial cost and regardless of whether the victim names the alleged abuser or cooperates with any investigation. The policy indicates that the policies related to co-pays do not apply to sexual abuse victims.

Based on a review of the PAQ, PS 5324.12, the memo from the Associate Warden (acting), a review of medical and mental health documents and information from interviews with medical and mental health care staff and inmates who reported sexual abuse, this standard is determined to be compliant.

### Findings (By Provision):

115.86 (a): PS 5324.12, pages 52-53, outlines information related to sexual abuse incident reviews. Specifically, page 53 states that the facility will conduct sexual abuse incident reviews at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. Policy indicates that Executive Staff review the incident and that the PCM documents the recommendation and forwards them to the Warden for implementation. If the allegation is substantiated, a copy of the review is forwarded to the Regional PC. The PAQ indicated that the incidents of reported sexual abuse were followed up with a sexual abuse incident review at the conclusion of the investigation. The auditor reviewed the completed sexual abuse investigations during the onsite phase of the audit from the previous 12 months. All of these contained the sexual abuse incident review with the exception of those which were determined to be unfounded.

115.86 (b): PS 5324.12, pages 52-53, outlines information related to sexual abuse incident reviews. Specifically, page 53 states that the review shall ordinarily occur within 30 days of the conclusion of the investigation. The PAQ indicated that the reviews were conducted within 30 days of the completion of the investigations for the reported allegations from the previous twelve months. A review of the documentation of these reviews indicated that all were completed within the 30-day timeframe.

115.86 (c): PS 5324.12, pages 52-53, outlines information related to sexual abuse incident reviews. Specifically, page 53 states that the review team will consist of upper management officials, with input from line supervisors, investigators and medical and mental health staff. The interview with the Warden confirmed that these reviews would be completed and they

include upper management officials, mental health and medical staff and the investigator, in the event of a reported incident. A review of the documentation confirmed that the incident review team included line supervisors, investigators and medical and mental health practitioners.

115.86 (d): PS 5324.12, page 53, states that the review team shall: consider whether the allegation or investigation indicates a need to change policy or practice; consider whether the incident or allegation was motivated by race, ethnicity, gender identity or sexual preference (identified or perceived), gang affiliation, or if it was motivated by other group dynamics; examine the area where the incident allegedly occurred to assess whether there were any physical barriers; assess the staffing levels; assess video monitoring technology and prepare a report of its findings to include any recommendations for improvement. Policy indicates that Executive Staff review the incident and that the PCM documents the recommendation and forwards them to the Warden for implementation. Interviews with the Warden, PCM and incident review team member confirmed that these reviews are completed and include all the required elements in the event of a reported incident. The staff will determine if anyone needed to be moved, if there are any flaws in security practices, any issues with the physical plant and if there are any recommendations or needed corrective action. A review of the incident review team documentation indicates that all of the required elements under this standard are completed.

115.86 (e): PS 5324.12, page 53, outlines information related to sexual abuse incident reviews. Specifically, it states that the facility will implement the recommendations for improvement or document the reasons for not doing so. Policy also states that all recommendations must comply with current collective bargaining agreements.

Based on a review of the PAQ, PS 5324.12, information from interviews with the Warden, the PCM and member of the sexual abuse incident review team, as well as a review of the investigation files which included a review of the sexual abuse incident reviews, this standard is determined to be compliant.
