Physical Plant

<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	21
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	16

--	--

<p>33. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p> <p><i>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.</i></p> <p><i>For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed.</i></p> <p><i>If a particular targeted population is not applicable in the audited facility, enter "0".</i></p>	<p>23</p>

Site Review and Documentation Sampling

Site Review

PREA Standard 115.401(h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

<p>65. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
--	---

<p>66. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p> <p><i>Note: as this text will be included in the audit report, please do not include any personally identifiable information or other information that could compromise the confidentiality of any persons in the facility.</i></p>	<p>During the onsite inspection, the auditor conducted informal interviews with inmates and staff in various sections, including the main building, the jail, and the camp. Inmates interviewed expressed overall satisfaction with the facility, with many comparing it favorably to other BOP facilities. They demonstrated knowledge of procedures for reporting incidents of sexual abuse and harassment, whether through written reports, verbal communication, or using devices such as telephones or tablets. Most inmates indicated that female staff members appropriately ensured privacy by making necessary announcements while they were in living quarters. They also expressed satisfaction with the pat-down and visual searches conducted by staff, and did not report any concerns about inappropriate cross-gender searches. Staff members interviewed were cooperative and willing to discuss their roles in reporting responsibilities, acting as first responders, and accessing employee assistance programs when needed. Female staff members were aware of and adhered to protocols for announcing their presence when entering inmate housing areas.</p>

- Standard procedures are in place to detect and prevent sexually abusive behavior and sexual harassment at all Bureau facilities;
- Victims of sexually abusive behavior and sexual harassment receive timely and effective responses to their physical, psychological, and security needs;
- Allegations of sexually abusive behavior and sexual harassment receive timely intervention upon report, and

Given the sensitivity required when defining and reporting cases as substantiated, a background in investigations is preferred when selecting a Regional PREA Coordinator. Additional evidence supporting compliance with this

provision of the standard is exhibited in the Memorandum of Understanding authored by the Assistant Director, Correctional Programs Division. The MOU outlines the responsibilities assigned to the National PREA Coordinator, which include:

- Serving as the agency’s point of contact regarding all PREA related matters;
- Providing consultation and guidance to regional and field staff with respect to PREA implementation and monitoring; Providing PREA training oversight;

Findings (By Provision):

115.12 (a) – BOP Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program states a public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards.

115.12 (b) – BOP Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program states any new contract or contract shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards. The Bureau must ensure its contracts with secure privatized facilities, jails, juvenile facilities, and Residential Reentry Centers include their obligation to adopt and comply with the PREA standards. Privatization Management Branch and Residential Reentry Management Branch field staff must include PREA compliance monitoring within their scheduled contract monitoring activity.

The Auditor reviewed the Memorandum dated October 28, 2024, regarding contracting with other entities for the confinement of inmates. The BOP has moved away from contracting with private prisons per the President's Executive Order on Reforming Our Incarceration System to Eliminate the Use of Privately Operated Criminal Detention Facilities on January 26, 2021. As such, no new contracts have been executed and previously existing contracts with privately operated detention facilities have expired.

Upon review of the policy and upon completion of interviews, the Federal Bureau of Prisons demonstrated practices that are consistent with policy and the requirements that complies with the provisions of the PREA standard.

Findings:

115.13 (a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states that the PREA factors and safety must be considered when allocation staffing resources. The facility provided the auditor the Salary Workforce Utilization Committee Meeting Minutes which serves as the facility's staff plan. The meeting minutes discussed the (11) standard provisions, staffing including deviations, and upgrades to video surveillance. The meetings involved the warden, associate wardens, human resource manager, business administrator/contract specialist, captain, and budget analyst, and they are scheduled quarterly. Interviews with the warden and his administrative team confirmed that staffing has been challenging, but all shifts are adequately covered with overtime, and no deviations from coverage have occurred. During the onsite inspection of the facility, the auditor observed sufficient staff in each inmate housing area, work area, programming areas, and recreational areas. There were no unstaffed areas observed where inmates were left unsupervised. The auditor finds this facility compliant with this provision of the standard.

115.13 (b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states deviations are documented in the remarks section of the Salary/Workforce Utilization Committee Meeting Minutes. According to the facility's PAQ, there were no deviations noted from the staffing plan. The warden and his administration explained that overtime is used to address any staffing shortages as needed. The auditor received copies of the facility's Staffing and Strength Report along with shift rosters, confirming that adequate coverage was maintained throughout the facility. The auditor finds this facility compliant with this provision of the standard.

115.13 (c) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states at a minimum, the most recent Salary/Workforce Utilization Committee Meeting Minutes (which include a review of the staffing

plan) are annually compiled by the Regional PREA Coordinator by May 1, and submitted to the National PREA Coordinator by June 1. The auditor received the BOP PREA Coordinator's written response, confirming annual consultation on staffing plans for institutions, and the allocation of overall staffing resources by the Human Resource Management and Administration Divisions. Additionally, the auditor was provided with the Salary Workforce Utilization Committee Meeting Minutes, which covered (11) standard provisions, staffing considerations including deviations, upgrades to video surveillance, and the use of overtime to address staffing shortages. These documents were signed by all parties involved, including the warden, associate warden (PCM), human resource manager, business administrator/contract specialist, captain, and budget analyst. The auditor finds this facility compliant with this provision of the standard.

115.13 (c) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states that the Institutional Duty Officer will conduct unannounced rounds with the intent of identifying and deterring sexual abuse and sexual harassment are conducted every week, including all shifts and all areas. The IDO will document the rounds at the end of the tour week the is forwarded to the Institution PREA Compliance Manager for retention. The auditor received copies of the Institutional Duty Officer (IDO) Unannounced Institutional Rounds Attachment G forms, completed weekly by the IDO, documenting the departments and shifts visited. During onsite inspections, targeted supervisors confirmed that unannounced rounds are regularly conducted in every department and during at least one shift. Randomly interviewed staff members stated they are explicitly prohibited from informing others about unannounced rounds by supervisors. The auditor finds this facility compliant with this provision of the standard.

Onsite Observations:

Inmate Housing
Inmate Work Area
Inmate Education
Health Services

Findings:

115.15 (a) PS 5521.06 Searches of Housing Units, Inmates, and Inmate Work Areas provides guidance for BOP staff to perform inmate searches. The policy states searches are to be conducted by same gender staff except during exigent circumstances are such that delay would mean the likely loss of contraband. When staff of the opposite gender conduct a visual search, the search is documented with the reasons for the search in the inmate's central file. The facility reported no instances of opposite gender strip searches or visual body cavity searches in the previous year. Staff interviewed during the onsite inspection affirmed that the opposite gender staff are not authorized to conduct strip or visual cavity searches of inmates without proper authorization. Although no pat, strip or visual searches were witnessed, staff in the intake/receiving area provided details on how strip searches are conducted to ensure inmate privacy while undressing. During interviews with both targeted and random inmates, it was confirmed that strip searches are conducted privately by the same gender staff, away from the presence of other inmates or opposite-gender staff. The auditor finds the facility compliant with this standard provision.

115.15 (b) The Devens FCI does not house female inmates. The facility is exempt from this standard provision.

115.15 (c) PS 5521.06 Searches of Housing Units, Inmates, and Inmate Work Areas provides guidance for BOP staff to perform inmate searches. The policy states searches are to be conducted by same gender staff except during exigent circumstances are such that delay would mean the likely loss of contraband. When staff of the opposite gender conduct a visual search, the search is documented with the reasons for the search in the inmate's central file. The facility reported no instances of opposite gender strip searches or visual body cavity searches in the previous year. Staff interviewed during the onsite inspection affirmed that the opposite gender staff are not authorized to conduct strip or visual cavity searches of inmates without proper authorization. Although no pat, strip or visual searches were witnessed, staff in the intake/receiving area provided details on how strip searches are conducted to ensure inmate privacy while undressing. During interviews with both targeted and random inmates, it was confirmed that strip searches are conducted privately by the same gender staff, away from the presence of other inmates or opposite-gender staff. The auditor finds the facility compliant with this standard provision.

115.15 (d) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* outlines various ways for notifying inmates of the presence of opposite-gender staff members entering an inmate housing area. Opposite gender staff must announce themselves when entering the inmate housing area; notices are posted on bulletin boards that opposite gender staff frequently work and visit inmate housing areas; opposite gender unit staff supervisors with offices in the inmate housing areas schedules are posted in the unit for inmate notification. During the onsite inspection of the facility, the auditor observed separate inmate shower and toilet stalls with doors allowing privacy that prevent staff and other inmates viewing an inmate while undressed. The auditor observed the opposite gender staff announcing themselves when entering inmate housing areas. There were signs on bulletin boards notifying inmates that opposite gender staff routinely work and visit the housing areas, allowing inmates to cover up in the presence of the opposite gender. Formal interviews with staff and inmates revealed there had been no issues with opposite gender staff viewing while fully undressed, as inmates are not allowed to be fully undressed in the housing areas outside of the shower or restroom areas. During the onsite inspection, the auditor requested that the doors for wheelchair-accessible inmate toilet areas be extended to prevent cross-gender viewing. The auditor finds the facility compliant with this standard provision.

115.15 (e) Informal and formal interviews with intake staff, medical, and security staff indicated that transgender and intersex inmates are not subjected to searches to determine genital status. Instead, medical records and medical history are referenced as necessary. In formal interviews, transgender inmates expressed that they have not been subjected to searches aimed at determining their genital status. The auditor finds the facility compliant with this standard provision.

115.15 (f) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program and Escort Procedures* states transgender inmates may request an exception for gender specific searches. The Warden, Health Services, Psychology Services, Unit Management and Correctional Service will review and approve the request. The exception will identify the staff gender required for the search. The information is provided to the inmate via personal carrying card and entered on the inmate's personal file. The inmate is required to present the card when a search is required. Two transgender inmates presented the auditor their cards outlining the procedures. The auditor obtained copies of the Annual Staff Escort Procedures training curriculum, which includes Inmate Search Procedures. The training outlines the procedure for staff to conduct pat-searches using the bladed technique, specifically between and under the breasts to detect contraband. It emphasizes the importance of conducting

searches professionally, respectfully, and with minimal intrusion. Informal and targeted interviews with staff confirmed that searches of transgender inmates are consistently carried out in a professional manner, adhering to agency protocols. The auditor finds the facility compliant with this standard provision.

115.16 (a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the PREA Standard language and requires the PCM reach out to local disabilities assistance offices, as a resource, to ensure the facility is providing effective communication accommodations when a need for such an accommodation is known. Additionally, requirements that staff take reasonable action to ensure that available methods of communication are provided to all inmates with disabilities for complete access to its efforts of preventing, detecting, and responding to sexual abuse and sexual harassment. During the onsite inspection, the auditor observed PREA postings, educational materials, and informational displays in both English and Spanish prominently displayed throughout the facility. The auditor was provided with a Language Line Agreement designed to assist non-English or Spanish speaking inmates. Inmate education documents, such as the Inmate Orientation Handbook, were reviewed by the auditor. These materials inform inmates about accessing local disability assistance and interpretation services during PREA education sessions. The handbook also outlines accommodations available for visually or hearing-impaired inmates, as well as those with Limited English Proficiency (LEP) during Admissions & Orientation. Based on these findings, the auditor determined that the facility complies with this standard provision. During interviews with non-English speaking inmates conducted onsite, staff were available to provide interpretation services. A targeted interview with a wheelchair-bound inmate revealed that he had not experienced any issues related to sexual abuse or harassment. He expressed confidence in reporting concerns to security staff or facility counselors, indicating comfort with the facility's provisions. The auditor finds the facility compliant with this standard provision.

115.16 (b) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* reiterates the PREA Standard language and requires the PCM reach out to local disabilities assistance offices, as a resource, to ensure the facility is providing effective communication accommodations when a need for such an accommodation is known. Additionally, requirements that staff take reasonable action to ensure that available methods of communication are provided to all inmates with disabilities for complete access to its efforts of preventing, detecting, and responding to sexual abuse and sexual harassment. During interviews with the facility warden and PREA Compliance Manager (PCM), it was confirmed that the facility has established processes to facilitate Limited English Proficiency (LEP) inmates' participation in PREA education. This education informs inmates about different reporting avenues and available emotional and support services. The facility warden, PCM, administrative

investigator and random staff informed the auditor that inmate interpreters are not utilized during investigative procedures. Instead, staff interpreters or the language line are used to assist inmates during interviews. Medical and mental health staff stated that staff interpreters or the language line are utilized during medical assessments and examinations. During interviews, the auditor spoke with inmates representing various conditions: one inmate in a wheelchair, one identified as hard of hearing, one Spanish-speaking inmate, and one with a cognitive disability. Each inmate conveyed to the auditor that PREA education had been presented in a manner they could understand. They were all knowledgeable about the different ways to report potential PREA incidents, as well as the availability of medical, mental health services, and emotional support services. The auditor finds the facility compliant with this standard provision.

115.16 (c) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* reiterates the PREA Standard language. The facility PAQ reported the no inmate interpreters, readers, or other inmate assistants used during investigations. The facility warden, PCM and SIS investigators interviewed conveyed that inmate interpreters are not used for other inmates during sexual abuse or sexual harassment investigations. The auditor finds the facility compliant with this standard provision.

The following information was obtained from the Agency Audit Report:

Documents:

BOP Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program

Interviews conducted with:

Agency Head Designee

Findings (By Provision):

115.18 (a) – BOP Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program states when designing or acquiring any new facility and in planning any substantial expansion or modification of

existing facilities, the agency shall consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse.

115.18 (b) – BOP Program Statement 5324.12, Sexually Abusive Behavior Prevention & Intervention Program states when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency shall consider how such technology may enhance the agency's ability to protect inmates from sexual abuse.

The Auditor conducted an interview with the Agency Head Designee and discussed if the Bureau considers how modifications or expansions to a facility effects the ability to protect inmates from sexual abuse. The Agency Head Designee explained consideration is given to all new facility designs and technology upgrades may enhance the Bureau's ability to protect against sexual abuse. In existing institutions, all substantiated and unsubstantiated cases of inmate sexual abuse are reviewed to determine if modifications to design or the addition or upgrade of technology would help prevent a similar occurrence in the future.

Additionally, the Agency Head Designee explained that institution reviews are ongoing to determine if upgrades or additions to existing technology would enhance the protection of inmates from incidents of sexual abuse. The technology serves as a deterrent but also allows the agency to identify unreported victims and perpetrators of sexually abusive behavior as well as aid in successful criminal prosecutions.

Upon review of the policy and upon completion of interviews, the Federal Bureau of Prisons demonstrated practices that are consistent with policy and the requirements that complies with the provisions of the PREA standard

When the FBI

does not initiate a criminal investigation, the BOP will assume primary responsibility to conduct an administrative investigation. An additional FCI Devens and FBI Memo requires that personnel follow a uniform evidence protocol for administrative and criminal investigations. The auditor finds the facility compliant with this standard provision.

115.21 (b) *Memorandum of Understanding Between the Federal Bureau of Investigation and Federal Bureau of Prisons on Violations of Federal Criminal Statutes* requires evidence collection in accordance with the standards set forth in "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents." The auditor finds the institution in compliance with this provision.

115.21 (c) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states that when a report of suspicion of inmate sexual abuse has occurred, the victim will be provided and opportunity for a forensic medical examination (FME) as soon as possible. Physical evidence may be collected from the suspected perpetrator(s). Interviews with PCM, SIS, and health services staff revealed that inmates receive a Forensic Medical Examination (FME) at a local hospital, where a Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) is available. Additionally, a Victim Intervention Program (VIP) representative is accessible to all sexual assault victims brought to UMASS Chan Medical School Memorial Hospital. SIS, and the Chief Psychologist reported that inmates requiring an FME are transported to UMASS Chan Medical School in Boston Massachusetts, for the examination. According to the Pre-Audit Questionnaire (PAQ), no FMEs were required during the audit timeframe. The auditor attempted to contact the Senior Operations Manager for the Justice Health & Equity Program ForHealth Consulting at UMass Chan Medical School, but calls were unanswered, the auditor finds the facility compliant with this standard provision.

115.21 (d- (h) FCI Devens facility provided the auditor with a copy of a Memorandum of Understanding- Gratuitous Service Agreement (GSA) UMASS Chan Medical School Rape Crisis Center. The GSA provides inmates with confidential and emotional support service related to sexual violence and victim advocate while at a local hospital. In a memo provided to the auditor, FCI Devens outlines the procedures for inmates who request a victim advocate, the facility will provide a qualified staff member. The facility provided copies of the background checks and qualification records for the victim advocates. The facility psychologist staff are also listed as qualified agency staff to represent an inmate during FME and initial emotional support services if needed. Interviews with four inmates who reported sexual abuse indicated their awareness of the availability of victim advocates for emotional support during Forensic Medical Exams (FMEs) and investigatory interviews, although they stated they had not requested these services. However, all inmates expressed comfort with meeting with the facility psychologists. The auditor was provided with the senior operations manager's business number for verification of the services. The auditor finds the facility compliant with this standard provision.

Accommodations are available to ensure inmates who are visually impaired, and limited English proficient have access to methods of communication in order to understand information about Sexually Abusive Prevention and Intervention is provided during A&O and the pamphlets in English and Spanish are provided during intake screening. The FCI Devens Memorandum further details the methods of communication; Non-English or Non-Spanish speaking inmates are given access to the Advanced Language Systems International for interpretation services, inmates who cannot read or have limited reading skills are presented the information verbally, inmates who are hearing impaired are given written materials and if necessary ASL services, inmates who are visually impaired are presented the information verbally. The auditor interviewed one inmate with a physical disability (wheelchair), one inmate identified as hard of hearing, one Spanish speaking inmate, one inmate with cognitive disability. All inmates communicated to the auditor that PREA education was presented to them in a way they understood. All inmates were aware of various ways of reporting possible PREA incidents, medical and mental health services and emotional support services that are available. The auditor finds the facility compliant with this provision of the standard.

115.33 (e) During the onsite inspection of the FCI Devens facility, the audit reviewed inmate Admission & Orientation records verifying inmates received PREA education and materials. The PCM provided the auditor with copies of electronic inmate A&O records for the verification. The auditor finds the facility compliant with this provision of the standard.

115.33 (f) During the onsite inspection of the FCI Devens facility, the auditor observed PREA related posting throughout the facility. Posting for reporting, and emotional support services information was identified in inmate housing areas, intake, treatment, education/vocational, health services, work areas, visitation, chapel, and maintenance areas. Postings could be easily read by inmates and presented in English and Spanish. The emotional support service posting needed updating to reflect the correct contact number. The facility provided the audit with the correct flyer postings. All inmate education materials were available to inmates via personal tablets. The

auditor observed and inmate pull of external reporting entry via the tablet. The target inmates interviewed who had physical disabilities, blind, deaf, or hard of hearing, LEP and cognitive disability indicated they had no issues with understanding or access to PREA related information. The auditor finds the facility compliant with this provision of the standard.

5321.09 Unit Management and Inmate Program Review
Attachment A: PREA Intake Objective Screening Instrument Form
Federal Bureau of Prisons: Inmate Intake Screening Form
Bureau of Prison Psychology Services Risk of Sexual Abusiveness Form

Interviews:

PREA Compliance Manager (PCM)
Psychology Services Staff
Health Services Staff
Intake Staff
Unit Managers
Targeted and Random Inmates

Findings:

115.41 (a) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states inmates are screened by Health Services, Psychology Services, and Unit Management staff for risk of sexual victimization and sexual abusiveness. During the onsite inspection, the auditor toured the Receiving and Discharge Building and held informal interviews with two R&D staff. Since there were no incoming inmate intakes during the inspection, the R&D staff detailed the intake process. Both staff members confirmed that the process is consistently completed for all inmates received at the facility. Additionally, a facility psychologist and counselor reported during the inspection that inmates are assessed within the required 72-hour timeframe. They explained that each department is responsible for completing a portion of the screening for sexual victimization and conducting any necessary reassessments based on additional information. Throughout the interview process, the auditor reviewed initial assessment and reassessment files of 34 targeted and random inmates. All inmates affirmed being questioned about their previous experiences of sexual victimization and abuse, as well as their gender and vulnerability status. The auditor determined that the facility is compliant with this standard provision.

115.41. (b) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states the inmate screening will take place within 72 hours of arrival at the facility. The Pre-Audit Questionnaire (PAQ) documented that 998 inmates were received at the facility in the 12 months preceding the audit, all of whom were assessed within 72

hours of arrival. Random and targeted inmates interviewed confirmed that assessments were typically finalized within one to three days of their admission. The auditor meticulously examined the assessment dates of each inmate to verify compliance with the 72-hour requirement. The auditor determined that the facility is compliant with this standard provision.

115.41 (c)(h) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states staff are required to follow the Program Statement Intake Screening protocols to take during the intake screening process. The *PREA Intake Objective Screening Instrument (Attachment A)* encompasses all criteria necessary to evaluate an inmate's risk of sexual victimization or abusiveness. The Unit Management is responsible for documenting and making referrals based on the information available and the inmate's responses on the *Intake Screening Form*. Referrals must include relevant comments regarding the inmate's likelihood of experiencing sexual victimization or being abusive. If no criteria are applicable, staff will indicate that no PREA criteria are met. When further assessment is necessary, staff will mark the inmate's file as "At Risk" until Psychology Services and Correctional Services make a determination. The assessment process requires screening staff to encourage inmates to disclose as much information as possible to ensure appropriate classification and protection. Inmates are not obligated to respond to assessment questions, and they will not face disciplinary action for choosing not to do so. The auditor finds the facility compliant with this standard provision.

115.41 (d) The auditor was provided with three documents utilized for inmate assessment screening: the *PREA Intake Objective Screening Instrument Form*, the *Federal Bureau of Prisons Inmate Intake Screening Form*, and the *Bureau of Prison Psychology Services Risk of Sexual Abusiveness Form*. These forms were reviewed by the auditor during interviews with 34 targeted and random inmates. The objective screening tool includes each of the PREA criteria for evaluating inmates' risk of sexual victimization. It also contains sections for counselors and psychologists to provide additional comments based on their observations of the inmates. Inmates are afforded the opportunity to identify as LGBTI and share their own perception of vulnerability. The auditor determined that the facility is compliant with this standard provision.

115.41 (e) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states that during the intake screening process, when staff identify inmates with a history of sexual victimization within BOP custody by self-report or from review of available documents, such as judgment and commitment orders, criminal records, pre-sentence investigation reports, Inmate Central File data, etc., inmate must be referred to Psychology Services. If not previously documented on BOP records, staff must notify the Chief of Correctional Services of the inmate's report of victimization to ensure that appropriate steps (investigation, documentation, CIMS concerns, etc.) have been taken. The auditor reviewed files where inmates were referred to for the psychology department for additional assessment and/or counseling. A clinical assessment is made to determine whether the inmate has a Low Risk or Elevated Risk of abusiveness. Random and targeted inmate risk assessment files were reviewed to determine identified risks to assess risk levels and ensure appropriate measures were taken. Due to the FCI Devens's mission of providing sex offender treatment programs, most inmates had prior convictions for sex offenses against adults and children. Despite these serious convictions, most risk assessments were identified as low risk. The auditor finds the facility compliant with this standard provision.

115.41 (f) 5321.009 *Unit Management and Inmate Program Review* states that an inmate's risk of sexual victimization or abusiveness at the initial classification and program review. Using the PREA risk factors identified in the PREA Intake Objective Screening Instrument, available on the Correctional Programs intranet page or in the Program Statement Sexually Abusive Behavior Prevention and Intervention Program employees will reassess the inmate's risk of sexual victimization or abusiveness using the PREA risk factors. The reassessment will be documented on the Program Review Report, and if additional risk factors are identified, unit employees will notify

Psychology Services. During the onsite inspection, the auditor conducted interviews with both targeted and randomly selected inmates, asking them if they had been questioned about concerns regarding victimization or abuse since arriving at the facility. Out of the 38 inmates interviewed, five reported that they had not been asked about these concerns. However, upon reviewing their assessment documents, the auditor found evidence indicating that these interviews had actually been completed 21 days later. The auditor finds the facility compliant with this standard provision.

115.41 (g) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states Psychology Services staff reassess the inmate's risk level whenever warranted based upon receipt of additional relevant information (e.g., incident of sexual abuse, protective custody request, recent diagnosis of gender dysphoria, etc.). During the onsite inspection, the facility psychologist and counselor confirmed that inmates undergo assessment for all instances of sexual abuse and sexual harassment. They explained that each of them is tasked with completing a portion of the screening for sexual victimization, as well as conducting any necessary reassessments. These reassessments are prompted by additional information, referrals, requests, or incidents of sexual abuse, or if there's information suggesting an inmate is at risk of sexual victimization or abusiveness. The auditor reviewed assessments related to inmate-reported incidents of sexual abuse as part of the inspection process. The auditor finds the facility compliant with this standard provision.

115.41 (h) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states that if an inmate refuses to respond or elects not to disclose information that only to questions about disabilities; Gay, Lesbian, Bisexual, Transgender, Intersex (GLBTI) status; gender nonconformance; previous sexual victimization; and the inmate's self-perception of vulnerability, he/she may not be disciplined. The assessment process mandates screening staff to encourage inmates to disclose as much information as possible to guarantee suitable classification and protection. However, inmates are not mandated to respond to assessment questions, and they will not face disciplinary action if they choose not to do so. During interviews with targeted and random inmates, it was reported that none were informed of potential disciplinary sanctions for not responding to assessment questions. Similarly, interviews with assessment staff (psychologists and counselors) revealed that inmates are not obliged to respond to assessment questions, and disciplinary sanctions are not enforced for non-cooperation. The auditor finds the facility compliant with this standard provision.

115.41 (i) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states any information related to sexual victimization or abusiveness, including the information entered the comment section of the Intake Screening Form, is limited to a need-to-know basis for staff, only for the purpose of treatment, security and management decisions, such as housing and cell assignments, as well as work, education, and programming assignments. The facility warden, PCM, chief psychologist, and counselor informed the auditor that inmate screening records are electronically stored, with access restricted to staff with a need-to-know basis. Specifically, access is granted to those responsible for counseling, treatment, security management, education, programming, work, and housing assignments. It was emphasized that not all staff members have access to inmate assessment information. The auditor finds the facility compliant with this standard provision.

115.42 (d – g) These provisions are not applicable to the audit (agency).

The Auditor conducted an interview with the National PREA Coordinator and inquired how the agency ensures against placing lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities or wings. The National PREA Coordinator confirmed that the Bureau of Prisons does not have any facilities, units, or wings, dedicated to housing lesbian, gay, transgender, or intersex inmates, and that all housing assignments, program placement, and work assignments are made on a case-by-case basis. The National PREA Coordinator also explained that the agency considers on a case-by-case basis whether this placement would ensure the inmate’s health and safety, and whether the placement would present management or security problems.

Upon review of the policies and upon completion of the interviews, the Federal Bureau of Prisons demonstrated practices that are consistent with policy and the requirements that complies with the provisions of the PREA standard.

115.42 (d-g) The provisions of this standard were completed during the audit.

PREA Compliance Manager (PCM)
Psychology Services Staff
Health Services Staff
Unit Managers
Targeted and Random Inmates

115.42(d) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* states that assignments for transgender or intersex inmates shall be reassessed at least twice each year to review any threats to the inmates' safety. The auditor interviewed the PCM and Chief Psychologist during the onsite inspection of the facility. They both confirmed that transgender inmates are reviewed by the Unit Team and the PCM every quarter. Transgender and intersex inmates are allowed to report their concerns as it relates to their safety and treatment at the facility. Any concerns noted would be addressed and appropriate changes are made. The auditor finds the facility compliant with this standard provision.

115.42(e) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* reiterates the standard language that transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration. The Transgender Resource Guide/ An Aid for People in the Custody of the Federal Bureau of Prisons states that an individual in custody have the right to make decisions about their care in collaboration with mental health and medical providers. Three transgender inmates interviewed indicated they asked if they had concerns about their sexual safety during the initial intake and during the six-month reviews. The auditor reviewed each inmate's Intake Screening Form. The form gives inmates an opportunity to express any concerns or feelings about their own vulnerabilities. This could include fears related to physical safety, mental health, or other forms of abuse and harassment. The auditor finds the facility compliant with this standard provision.

115.42(f) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* During reiterates the standard language that transgender or intersex be given an opportunity to shower separately from other inmates. During the onsite inspection of the facility, the auditor observed separate shower stalls with doors allowing sufficient privacy that prevent viewing from other inmates or opposite gender staff. Three transgender inmates interviewed state they have privacy during showers and when using the restroom and had no issues. During the inspection of several housing areas, unit managers interviewed stated transgender and intersex inmates are given the opportunity to shower separately from other inmates. The auditor finds the facility compliant with this standard provision.

115.42(g) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* states that lesbian, gay, bisexual, transgender, or intersex inmates will not be placed into dedicated facilities, units, or wings, solely based on their identification or status. The auditor was provided with written responses to the interview questions from the Agency PREA coordinator. She noted that the Bureau of Prisons does not have any facilities, units, or wings dedicated to lesbian, gay, bisexual, transgender, or intersex inmates. The three transgender inmates interviewed

during the onsite inspection of the facility stated that they had not been housed in housing specifically based on their transgender status and that they were not aware of the facility having any specific wings or looks like they're units dedicated for LGBTI inmates. During the inspection of the facility the auditor visited every housing unit, and none were identified as designated housing for LGBTI inmates. The auditor finds the facility compliant with this standard provision.

PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program
BP-A1002 Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation

Interviews:

Warden
Staff Who Supervise Inmates in Segregated Housing
Inmates Who Reported Sexual Abuse or Sexual Harassment

Findings:

115.43 (a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states inmates are placed in administrative detention in accordance with the Program Statement Special Housing Units. The auditor spoke with staff members responsible for supervising inmates in segregated housing about the requirements of this standard. They explained that inmate victims who report sexual abuse or harassment are generally not placed in the Segregated Housing Unit (SHU) unless they request protective custody. Inmates assigned to the SHU due to a risk of sexual abuse undergo reviews by the Segregation Review Official (SRO) at the three, seven, and thirty-day intervals. During these reviews, the BP-A1002 form is completed to document the available safeguarding options and assess the lack of alternative means of separating the inmate from potential abusers. The facility reported two inmates were placed in the SHU within the last year; however, upon further review, it was determined that these inmates had requested protective custody, so the placement should not be considered involuntary. Interviews with inmates who reported sexual abuse indicated they were not assigned to segregated housing, and to their knowledge, the alleged perpetrator was housed separately, either in a different unit or in segregated housing. The auditor also reviewed the BP-A1002 Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form, which is used when a sexual abuse victim is placed in segregated housing. Based on this information, the auditor concluded that the facility is in compliance with this provision of the standard.

115.43 (b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states when an inmate is placed in special housing involuntarily, access to programs, privileges, education, or work should not be interrupted, to the extent possible. If they are limited, the Chief of Correctional Services ensures that documentation exists reflecting the limitation, duration, and rationale for limitation. The facility warden stated during the onsite inspection that inmates that report sexual abuse are removed from the imminent threat, but not placed in segregated housing unless the inmate requests protective custody (voluntary). Should the risk assessment deem the inmate need to be assigned to segregated housing the COC will follow the protocols of PS 5324 Sexually Abusive Behavior Prevention and Intervention Program. Investigations are reviewed weekly, and a threat assessment is completed within 30 days. The auditor finds the facility compliant with this provision of the standard.

115.43 (c) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program state when determining an appropriate method of safeguarding the inmate assigned “at risk” for victimization, the Warden ensures all options are considered by completing, signing, and dating form BP-A1002, Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation. The warden should evaluate the least restrictive methods for separation of the alleged victim and alleged perpetrator. The completed BP-A1002 is stamped “FOI EXEMPT” and placed in the Privacy Section of the Inmate Central File to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. If information gathered leads to an investigation, BP-A1002 becomes part of the investigative file. The completed form is e-mailed to BOP-CPD/PREA COORDINATOR and filed with the investigative case. The PAQ lists zero instances of inmates that reported sexual abuse being placed in involuntary segregation. During the audit, two inmates reported sexual abuse but requested to be voluntary housing in the segregated housing unit. The auditor was provided a copy of the BP-A1002 Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form as an example. The auditor finds the facility compliant with this provision of the standard.

115.43 (d) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states the facility warden will ensure all options are considered and evaluated to provide the least restrictive methods for separation of the alleged victim and perpetrator the information is documented on the BP—A1002 form and placed in the inmate’s central file. When an investigation is initiated the BP-A1002 becomes a part of the investigative file and provided

to the BOP-CPD-PREA Coordinator and filed with the investigative case. Psychologists will provide ongoing crisis intervention, assessment, treatment needs and documenting the results, referrals, and additional treatment options related to inmate's risks. The auditor was provided with a sample of the BP-A1002 form for review. The auditor finds the facility compliant with this provision of the standard.

115.43 (e) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states the inmate's status is reviewed during weekly Special Housing Unit meetings. The facility warden reported that the risk assessment should deem the inmate need to be assigned to segregated housing. The COC will follow the protocols of PS 5324. Investigations are reviewed weekly, and a threat assessment is completed within 30 days. The auditor finds the facility compliant with this provision of the standard.

 Federal Bureau of Prisons Sexually Abusive Behavior Prevention and Intervention Pamphlet
 Program Statement Standards of Employee Conduct

Interviews:

Random and Targeted Inmates
 Random Staff

Observations:

Housing Unit Postings
 Officers Break and Dining Hall

115.51 (a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states the Bureau inmates are encouraged to report allegations to staff at all levels, including local, regional and Central Office. Inmates are currently offered various internal reporting avenues, including telephonic reporting to specific departments (such as the Special Investigative lieutenant) or by mail to an external entity. Inmates are informed about these reporting mechanisms as outlined in section 115.33. During the onsite audit inspection, 22 random inmates were

interviewed, and they reported being aware of different ways to report PREA-related incidents. Most stated that they would report to a unit supervisor, the Special Investigative Services (SIS) Lieutenant, and OIG as an option for anonymous reporting. Additionally, the auditor toured every inmate housing unit, the jail units, and trusty camp areas of the facility, where flyers were posted listing multiple ways for inmates to report abuse and neglect. The auditor finds the facility compliant with this provision of the standard.

115.51 (b) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* states Inmates are provided with contact information and access to the Office of Inspector General to make such reports. During the audit inspection, the auditor noticed postings displaying the Office of the Inspector General (OIG) mailing address and hotline information, where inmates can make reports. In random interviews with inmates, it was found that all were aware of the option to report anonymously to the OIG through the hotline or in writing. This reporting information is readily available in the inmate educational materials, such as the FCI Devens Admissions & Orientation Information Handbook and the Federal Bureau of Prisons Sexually Abusive Behavior Prevention and Intervention Pamphlet, which are provided to inmates during intake. The auditor finds the facility compliant with this provision of the standard.

115.51 (c) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* states for the purpose of this section, information received anonymously refers to “kites” or other written communication. Non-investigatory staff do not offer anonymity to inmates. During interviews with sixteen randomly selected staff members, it was revealed that they are mandated to accept inmate reports of sexual abuse or harassment and promptly report them to a supervisor or a facility SIS investigator. Staff members clarified that they cannot accept inmates' verbal requests to remain anonymous, as all reports must be forwarded to a supervisor or SIS investigator. However, inmates have the option to report incidents anonymously to an SIS investigator, PCM, or OIG. The auditor finds the facility compliant with this provision of the standard.

115.51 (d) *PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program* states Staff reporting requirements are addressed in the Program Statement Standards of Employee Conduct. For the purposes of this section, staff may contact any supervisory staff at the local institution, regional staff, or Central Office staff, including the Regional PREA Coordinators and the National PREA Coordinator. Allegations involving staff members may also be reported to the Office of Internal Affairs or the Office of Inspector General, as appropriate. The fifteen randomly selected staff members indicated that they could privately report incidents of sexual abuse and harassment to a supervisor and choose to remain anonymous to OIA or OIG. Additionally, the auditor noted postings regarding staff reporting in the officers' break and dinner areas. The auditor finds the facility compliant with this provision of the standard

- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? 115.52 (e)

Interviews:

Specialized staff
Targeted inmates

Findings:

115.52(a) The Federal Bureau of Prisons is not exempt from this standard. The agency has an inmate administrative grievance procedure. *PS 1330.18 Administrative Remedy Program* provides inmates the opportunity to seek a formal review of issues relating to any aspect of his or her confinement. The auditor finds the facility compliant with this standard provision.

115.52(b). *PS 1330.18 Administrative Remedy Program* states administrative remedies regarding allegations of sexual abuse may be filed at any time. Accordingly, administrative remedies regarding an allegation of sexual abuse shall not be rejected as untimely. When an inmate includes multiple unrelated issues on a single form, the portion of the administrative remedy regarding allegations of sexual abuse should be accepted and processed. The inmate shall be advised to use a separate form for each unrelated issue. Inmates are not required to attempt an informal resolution for sexual abuse incidents. During the onsite inspection the auditor conducted formal interviews with staff and inmates regarding inmate reporting through the administrative remedy procedure. Inmates were aware of the process and had issues with using the program. Staff interviewed reported that they were aware the inmates could report sexual abuse incidents through the administrative remedy procedure. The administrative remedies were accessible to all inmates in all inmate housing areas. The auditor finds the facility compliant with this standard provision.

115.52(c) *PS 1330.18 Administrative Remedy Program* states a matter in which specific staff involvement is alleged may not be investigated either by staff alleged to be involved or by staff under their supervision. Allegations of physical abuse by staff shall be referred to the Office of Internal Affairs (OIA). The auditor finds the facility compliant with this standard provision.

115.52(d). *PS 1330.18 Administrative Remedy Program* states an administrative remedy response shall be made by the warden or CCM within 20 calendar days. The FCI Devens reported there have been no administrative remedies filed in reference to sexual abuse over the previous 12 months prior to the audit. The auditor finds the facility compliant with this standard provision.

115.52(e) *PS 1330.18 Administrative Remedy Program* indicates the inmate must approve the remedy filed by a third party on his or her behalf. The approval is documented and included with the inmate's signature. When the

inmate declines to have the remedy processed on his or her behalf, it will also be documented with the inmate's signature. The documentation will be retained in the Administrative Remedy File agency at the appropriate level and on Sentry. An inmate is required to personally file any subsequent appeal. However, the inmate may receive assistance in preparing the appeal. The FCI Devens reported zero sexual abuse related administrative remedy incidents for the 12 months prior to the audit. The auditor finds the facility compliant with this standard provision.

115.52(f) PS 1330.18 Administrative Remedy Program states when a remedy meets both criteria, the remedy will receive expedited processing. The inmate must clearly mark "emergency" on the remedy and explain the reason for filing as an emergency remedy. An expedited response shall be provided within 48 hours and the remedy response within five calendar days. The FCI Devens reported zero sexual abuse related administrative remedy incidents for the 12 months prior to the audit. The auditor finds the facility compliant with this standard provision.

115.52(g) PS 1330.18 Administrative Remedy Program states that the maintenance of an effective sexual abuse prevention policy, and general secure and orderly running of an institution, requires that inmates be held responsible for manipulative behavior and false allegations. Allegations of false reports will be considered by staff in accordance with the procedures and standards of the Inmate Discipline Program policy. The FCI Devens reported zero sexual abuse related administrative remedy incidents for the 12 months prior to the audit. The auditor finds the facility compliant with this standard provision.

115.53(a-b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states “The Institution PREA Compliance Manager, with the assistance of Psychology Services staff, seeks to establish an agreement with community service providers who can provide confidential emotional support services as it relates to sexual abuse. When an agreement is approved, the attempts are documented. Staff will ensure the information is readily available and provided to inmates, to have access to the Bureau’s efforts in preventing, detecting, and responding to sexual abuse and sexual harassment. Staff will also provide contact information and confidential communication services, as reasonably as possible. Interviews with targeted and random inmates revealed five inmates were unaware of the services provided outside of reporting sexual abuse during their incarceration. The inmates were

115.53(b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states confidential communication is distinguished from privileged communications such as attorney-client relationship. The communications are monitored in a manner consistent with agency security practices and should be addressed in any memorandum of understanding with the outside victim advocacy organization. Posting observed by the auditor clearly stated that the calls are recorded and monitored by SIS staff only. The calls are monitored if there is a concern that hotline is being used inappropriately. Interview:

Facility Warden

Agency Head Designee Written Interview

PREA Compliance Manager

Investigation Staff

Findings:

115.62 PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states when an inmate alleges that another inmate or staff member is the perpetrator of sexual abuse, the Operations Lieutenant is immediately notified. Depending on the severity of the alleged behavior, immediate safeguards are implemented for the inmate. These measures may include monitoring the situation, changing housing or work assignments, or placing both the alleged victim and perpetrator in Segregated Housing, among other actions. The decisions regarding safeguarding the inmate must consider the impact on staff members, as outlined in the Master Agreement. Removal from the facility is considered an extreme measure, with alternatives such as reassignment to another unit or post, or other effective measures to separate staff from inmates being explored. Simultaneously, the Operations Lieutenant promptly refers all inmates who are reported or suspected victims of sexual abuse to Psychology Services for assessment of vulnerability and treatment needs. Additionally, the Institution PREA Compliance Manager is notified of the situation by the Operations Lieutenant.

During the onsite inspection, the facility warden was interviewed regarding the agency's protection protocols. He emphasized that immediate steps would be taken to remove the inmate from any perceived threat, initiating an investigation promptly thereafter. A comprehensive risk assessment would be conducted to evaluate the seriousness of the situation. Various measures are available to ensure the inmate's safety without resorting to restrictive housing. The Agency Head Designee, in an interview provided to the auditor, affirmed that the agency acts swiftly to protect alleged victims by separating them from potential harm. Responses vary based on the severity of the threat: if the threat involves another inmate, options include changing housing or work assignments or placing the inmate in the Special Housing Unit if necessary. When the threat involves a staff member, additional measures such as reassigning the staff member or temporarily removing them from the facility during the investigation are considered. The audit finds the facility compliant with this standard provision.

Interviews:

BOP Agency Head Designee Interview
Warden Interview

Findings:

115.63(a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states in cases where there is an allegation that sexually abusive behavior occurred at another Bureau facility, the Warden (or his/her designee) of the victim's current facility reports the allegation to the Warden of the identified institution. In cases alleging sexual abuse by staff at another institution, the Warden of the inmate's current facility refers the matter directly to the Office of Internal Affairs. For non-Bureau secure privatized facilities, jails, juvenile facilities, and Residential Reentry Centers, the Warden will contact the appropriate office of the facility and notify the Privatization Management or the Residential Reentry Management Branches, as appropriate. For non-Bureau facilities, the Warden (or his/her designee) contacts the appropriate office of that correctional agency. The FCI Devens facility reported no reports of inmate allegations that occurred at another facility or any allegations from another facility that occurred at FCI Devens during the 12 months prior to the audit. The auditor finds the facility compliant with this provision of the standard.

115.63(b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the PREA standard language that notification be provided as soon as possible, but no later than 72 hours after receiving the allegation. The FCI Devens PAQ reported no reports of inmate allegations that occurred at another facility or any allegations from another facility that occurred at FCI Devens during the 12 months prior to the audit. The auditor finds the facility compliant with this provision of the standard.

The FCI Devens PAQ reported no reports of inmate allegations that occurred at another facility or any allegations from another facility that occurred at FCI Devens during the 12 months prior to the audit. The auditor finds the facility compliant with this provision of the standard.

115.63(d) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the PREA standard language that the facility head or agency office that receives such notification shall ensure that the allegation is investigated in accordance with these standards. According to a written response from the BOP agency head designee, when other agencies make referrals directly to the institution, particularly to the Warden. In cases where agencies are uncertain about contacting the institution directly, they may reach out to the Bureau of Prisons National PREA Coordinator. The National PREA Coordinator then forwards the referral to the Warden of the institution. If initial notifications bypass the warden, staff receiving them promptly forward them to ensure allegations are properly investigated. The warden determines if the allegations can be handled locally or require referral to the Office of Internal Affairs (OIA).

Each institution tracks referrals from other facilities or agencies. If the agency receives a referral, a facility will collaborate with the sending facility to conduct a thorough investigation, which includes interviews, statements, and gathering evidence. All pertinent information and evidence are then provided to the designated facility responsible for completing the investigation. The auditor finds the facility compliant with this provision of the standard.

115.64(a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the PREA standard language and states the staff first responder must preserve the crime scene. SIS staff are responsible for collecting information/evidence. The investigation, in coordination with the agency to which the case may be referred, must follow the guidance given in agency policies and practices concerning evidence gathering and processing procedures. During the onsite inspection, fifteen randomly selected staff members were able to provide detailed descriptions of their first responder duties. The Specialized Investigative Lieutenant informed the auditor that he and his investigative team are tasked with collecting physical evidence and ensuring it is stored appropriately for access by OIG. The auditor verified the first responder duties listed in the Sexually Abusive Behavior Prevention and Intervention Program Staff Training Curriculum listing the (4) PREA standard requirements. The auditor finds the facility compliant with the provision of this standard.

115.64(b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the standard language requiring a non-security staff member first responder to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff. The PAQ documented zero instances where non-security staff acted as first responders. Agency Head Written Interview
Warden
PREA Compliance Manager (PCM)
Specialized Staff
Targeted Inmates

Findings:

115.67 (a) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states The Institution PREA Compliance Manager monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. However, if the initial monitoring indicates a continuing need, periodic status checks occur. During the onsite inspection, the PCM and Special Investigative Services (SIS) Lieutenant noted that inmates who reported sexual abuse and witnesses concerned about retaliation are monitored for 90 days after the report. Inmates who reported abuse recalled having regular discussions with PCM or psychology staff following their report. The auditor examined twelve inmate-on-inmate sexual abuse/sexual harassment investigative files all deemed as unsubstantiated, necessitating a 90-day monitoring period afterward. PCM or SIS lieutenant conducted periodic checks as per protocol. The auditor concluded that the investigation was meticulously documented, meeting all necessary requirements. The auditor determined that the facility is compliant with this standard provision.

115.67 (b) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states the PCM monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. However, if the initial monitoring indicates a continuing need, periodic status checks occur. The auditor reviewed the Agency Head's interview with written responses regarding the inmate and staff protections against retaliation. The responses indicate the PCM monitors inmates and staff to ensure there is no retaliation for alleging or reporting sexually abusive behavior. For inmates, this monitoring includes housing and cell assignments, work assignments, programming changes, and disciplinary action. For staff, the monitoring includes reassignment of

work, posts, performance evaluations, and shift changes. In addition, the person being monitored will be offered psychology services to ensure their mental and emotional wellbeing is cared for. The facility warden emphasized the implementation of necessary measures to safeguard inmate victims and cooperating witnesses from retaliation by staff or other inmates. These measures encompass referral for emotional support via psychology services for inmates and access to the Employee Assistance Program (EAP) for staff. Inmates who reported abuse mentioned engaging in regular discussions with PCM or psychology staff after making their report. Notably, none of the inmate victims were assigned to the SHU or restrictive housing unit due to reporting sexual abuse. Additionally, there were no instances of retaliation identified in any of the twelve inmate-on-inmate investigative files that necessitated additional monitoring. The auditor determined that the facility is compliant with this standard provision.

115.67 (c) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states the PCM monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. However, if the initial monitoring indicates a continuing need, periodic status checks occur. During the onsite inspection of the facility, the auditor examined twelve inmate-on-inmate sexual abuse/sexual harassment investigative files. These files contained periodic checks carried out by the PCM or SIS lieutenant, which involved evaluations of negative performance reviews and housing arrangements possibly signaling retaliation. No incidents demanding additional monitoring due to evidence of retaliation were found. Furthermore, there were no staff witnesses who warranted monitoring in the 12 months leading up to the audit. The auditor finds the facility compliant with this standard provision.

115.67 (d) PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program* states the PCM monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. No incidents demanding additional monitoring due to evidence of retaliation were found. Furthermore, there were no staff witnesses who warranted monitoring in the 12 months leading up to the audit. The auditor finds the facility compliant with this standard provision.

115.67 (e) *Sexually Abusive Behavior Prevention and Intervention Program* states the PCM monitors staff and inmates who have reported sexual abuse allegations to protect them from retaliation for 90 days. However, if the initial monitoring indicates a continuing need, periodic status checks occur. The auditor concluded that the standard language "any other individual" would encompass all individuals under the jurisdiction of the agency. The warden assured that identical measures would be implemented to safeguard all individuals against retaliation. The auditor finds the facility compliant with this standard provision.

They explained that inmate victims who report sexual abuse or harassment are generally not placed in the Segregated Housing Unit (SHU) unless they request protective custody. Inmates assigned to the SHU due to a risk of sexual abuse undergo reviews by the Segregation Review Official (SRO) at the three, seven, and thirty-day intervals. During these reviews, the BP-A1002 form is completed to document the available safeguarding options and assess the lack of alternative means of separating the inmate from potential abusers. The facility reported two inmates were placed in the SHU within the last year; however, upon further review, it was determined that these inmates had requested protective custody, so the placement should not be considered involuntary. Interviews with inmates who reported sexual abuse indicated they were not assigned to segregated housing, and to their knowledge, the alleged perpetrator was housed separately, either in a different unit or in segregated housing. The auditor also reviewed the BP-A1002 Safeguarding of Inmates Alleging Sexual Abuse/Assault Allegation Form, which is used when a sexual abuse victim is placed in segregated housing. Based on this information, the auditor concluded that the facility is in compliance with this provision of the standard.

Interviews:

PREA Compliance Manager
Specialized staff

Findings:

115.71(a) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states upon activating the full Response Protocol, the investigation phase is initiated and required notifications must be made. Required notification must be made. When an inmate is alleged to have perpetrated sexually abusive behavior against another inmate, the Special Investigative Agent (or SIS) is notified immediately. When staff is alleged to have perpetrated sexually abusive behavior against an inmate, the Warden is notified immediately. The Warden notifies the Regional Director and the Office of Internal Affairs (OIA), who in turn notify the Office of the Inspector General (OIG), and, when appropriate, the Federal Bureau of Investigation (FBI). When an inmate alleged to have perpetrated sexually abusive behavior against a staff member, the SIA/SIS must be contacted immediately, with follow-up notification to the Warden. The Warden refers to these matters for criminal investigation and possible prosecution in accordance with the Program Statement Criminal Matter Referrals. SIS staff shall immediately respond and start the investigation process. Anonymous allegations will be investigated, however, there will be certain steps taken to ensure the inmate's anonymity. Third party allegations will be investigated by interviewing the victim before an investigation is initiated. The victim may decline an investigation when requested by a third party. During the onsite inspection, the auditor examined twelve PREA-related investigations. The auditor found that these investigations were conducted with great thoroughness and detail. The auditor finds the facility compliant with standard provision.

115.71(b) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program requires that sexual abuse investigators must have received special training pursuant to standard 115.34. The training was verified by the auditor under 115.34 *Specialized training: Investigations review*. The auditor finds the facility compliant with standard provision.

115.71(c) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program, provides investigators with guidelines for performing their investigations. The guidelines include the initial steps of gathering and preserving evidence and interviewing alleged victims, suspected perpetrators, and witnesses. The SIS staff described the measures taken to preserve evidence, ensuring compliance with all provisions of the standard. They explained that when an inmate undergoes a forensic medical exam at the local hospital, they or their staff may be required to collect the evidence kit and hold it until retrieval by the OIG. During the onsite inspection, the auditor reviewed

twelve PREA-related investigations and found them to be very thorough and detailed. The auditor finds the facility compliant with standard provision.

115.71(d). The auditor reviewed the procedures for handling investigations involving staff members within the agency. The SIS discussed the coordination between investigative efforts and the Office of Internal Affairs, particularly when misconduct is suspected. The standard practice of suspending administrative investigations during criminal investigations seems reasonable to avoid interference. Additionally, refraining from conducting compelled interviews until the criminal investigation is completed aligns with protocol. The auditor finds the facility compliant with standard provision.

115.71(e) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program requires that the credibility of the victim not be determined by the person's status as an inmate or staff member. The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination as a condition for proceeding with the investigation of such an allegation. The auditor asked how the agency handles investigations regarding allegations of sexual abuse involving inmates. The SIS investigator emphasized that truth-telling methods, such as polygraph examinations, are strictly prohibited in these cases. Additionally, he assured the auditor that the investigation's outcome is solely determined by the evidence gathered, unaffected by the victim's inmate status. The auditor's interviews with four inmates who reported sexual abuse further confirmed that polygraph examinations were neither requested nor required. The auditor finds the facility compliant with standard provision.

115.71(f) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program states that administrative investigations should also consider information on whether other factors such as physical layouts, staffing patterns, institution operations, etc., contributed to the abuse. The program statement also requires that the investigative report include all supporting documentation of the review, evidence reviewed and the findings of the investigation. The auditor interviewed an SIS investigator regarding the process for reviewing allegations against agency staff members. This process involves examining potential violations of both policy and law. The investigator emphasized the requirement to compile a comprehensive report at the conclusion of each investigation, detailing the allegation, evidence collected, interview summaries, and the rationale behind the final determination. Notably, all substantiated allegations are forwarded for potential criminal prosecution. Upon reviewing twelve sexual abuse/sexual harassment investigations conducted within the past year, the auditor found that each investigation had a thorough final report containing all necessary components as per the standard. The auditor finds the facility compliant with standard provision.

115.71(g) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program an investigator is required to complete a report of investigation at the completion of all criminal investigations. The report is to contain a description of the allegation, a summary of the information received through interviews with inmates and staff members, a listing of the evidence collected, and a description of the credibility assessment and final determination. SIS staff reported to the auditor that criminal investigations are conducted by the Office of Internal Affairs, the Office of Inspector General or the Federal Bureau of Investigations. The auditor did not have an opportunity to interview OIG or OIA investigators. The auditor finds the facility compliant with standard provision.

115.71(h) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program includes a provision that all sexual assault and sexual abuse cases that are found to be substantiated are to be referred for prosecution. During the onsite inspection of the facility, SIS Investigator reported the administrative investigations that reveal conduct of a criminal nature, reported to OIG or OIA for referrals to prosecution. The auditor finds the facility compliant with standard provision.

115.71(i) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention confirmed the requirement to maintain the sexual abuse records for the time required in this provision. The auditor finds the facility compliant with standard provision.

115.71(j). PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program requires agency investigators to complete sexual abuse investigations even if the alleged abuser or victim is no longer housed within the institution or under the employment of the BOP. The SIS investigator reported that sexual abuse investigation will be completed regardless of if the inmate or staff member is no longer assigned to the facility. The auditor finds the facility compliant with standard provision.

115.71(k). The auditor is not required to audit t 115.71 The auditor finds the facility compliant with standard provision.

115.71(l) PS 5324.12 Sexually Abusive Behavior Prevention and Intervention Program reiterates the standard language that when outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation. The auditor was provided with a written response from the facility regarding this standard. The PREA Coordinator provided the following response: When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation. The auditor finds the facility compliant with standard provision.

Interviews:

Findings:

115.76(a) PS 3420.11 *Standards of Employee Conduct* states Title 18, U.S. Code Chapter 109A provides the regulations stipulate penalties of up to life imprisonment for instances of sexual abuse of inmates involving the use or threat of force. All allegations of sexual abuse will undergo thorough investigation and, when warranted, will be referred to authorities for prosecution. Employees are liable to face administrative actions, which may include removal, for any inappropriate contact, sexual behavior, or relationships with inmates, regardless of whether such actions constitute prosecutable crimes. Sanctions for misconduct of a sexual nature can be imposed without requiring physical contact. During the onsite inspection, interviews with the PCM and Special Investigative Services (SIS) Lieutenant revealed that all investigations related to staff sexual abuse are reported to Warden. The Warden then notifies the Regional Director and the Office of Internal Affairs (OIA), who subsequently inform the Office of the Inspector General (OIG) and, if necessary, the Federal Bureau of Investigation (FBI). This process is outlined in PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program*. The auditor finds the facility compliant with this standard provision. PS 3420.11 *The Standards of Employee Conduct* emphasize that penetration is not a prerequisite for convicting sexual contact cases, and all allegations of sexual abuse will undergo comprehensive investigation and, if deemed necessary, will be referred to authorities for prosecution. According to the Pre-Audit Questionnaire (PAQ), there were no substantiated investigations concerning staff involvement in inmate sexual abuse within the 12 months preceding the audit for review. The one staff investigation was ongoing without an outcome during the time of the audit. The auditor finds the facility compliant with this standard provision.

115.76(c) *Standards of Employee Conduct* under Penalty #31 in the Standards of Employee Conduct addresses improper relationships with inmates, former inmates, their families, or associates. The severity of the penalty depends largely on the degree of involvement. For the first offense, penalties vary from a 15-day suspension to removal; for the second offense, penalties range from a 30-day suspension to removal; removal is compulsory for the third offense, and a two-year reckoning period is imposed. The auditor finds the facility compliant with this standard provision.

During the onsite inspection, discussions with the PCM and SIS Lieutenant indicated that all investigations concerning staff sexual abuse are reported directly to the warden. Subsequently, the warden notifies the Regional Director and the Office of Internal Affairs (OIA). These entities then inform the Office of the Inspector General (OIG) and, if warranted, involve the Federal Bureau of Investigation (FBI) as per the guidelines detailed in PS 5324.12 *Sexually Abusive Behavior Prevention and Intervention Program*.
